Cliff Mining Company Incorporated With \$100,000 Capital.

Been Purchased for the Referendum-The Force on the Evening Star Increased and

Arrangements have been made by which the Cliff Mining company will be incorporated with a capital stock of \$100, divided into \$1 shares. The incorporated with a capital stock of \$100, divided into \$1 shares. The incorporated with shares and clarks are developing their properties. Quite a number of deals are pending. Mr. Iownshend will return to Lardeau next week. porators are Messrs. E. C. Tate and Clarence Teasdale of Spokane; A. S. Goodeve, John Jackson, Jr., and A. H. MacNeill of this city. A meeting has been called

Referendum to Put in a Mill.

The Referendum company has purchased a five-stamp mill and a compressor plant for the reduction of the ore from its property on Forty-Nine Mile creek. The plant is complete in all its details, being made up of a wet crushing five-stamp quartz mill, screens, rock breaker, cyan-ide tanks and other paraphernalia. This will be installed near the property in a short time. It is anticipated that it will not be a great while before it will be in operation. The management is confident that it will have ore enough by the time the mill is installed to keep it in opera-

The Evening Star Force Doubled.

The force of men on the Evening Star has been doubled and good progress is being made in all parts of the mine. A platform is being erected at the Y of the Columbia & Western for the reception of ore from the Evening Star. The building of this platform has delayed the shippleted and the hauling of ore from the It is thought that not more than two carloads will be shipped this week.

Will Resume Work on Poorman

The Nelson-Poorman Gold Mining company has arranged for the resumption of work upon the Poorman. W. A. Harvey, who will have charge of the mine for the his principals along Georgian Bay and other company, has arrived in Nelson and is Parry Sound. They have a wilder counfor. now engaged in getting supplies. He says work at once straightening things out at the mipe with a view of getting the prop-erty into shape for the letting of con-tracts. When questioned as to the size of the crew which he intended to put to work, Mr. Harvey said that at the out-set, there would be at least 20 man but set there would be at least 20 men, but when the surface is put in shape and the management gets down to the contract basis the force may not be so large.

Philadelphia Mining Company.

The Philadelphia Mining company has just caused a survey to be made of its property, the Mountain Trail, which is tion. A large force is now operating this property. Good progress is being made on the concentrator, which this company is erecting at a point about a quarter of a mile from the station.

Rio Grande Looking Well.

Mr. T. A. Helm has just returned from a visit to the property of the Rio Grande Mining company, near Ymir. He reports that the property is looking exceedingly The eight-foot ledge seems to carry the other sections of the country have albest ore. Mr. Helm has not had assays ready gotten exhibits together. One haif made of the ore from either ledge yet, but reports that it is rich looking.

The Gopher and the Agnes.

Mr. T. A. Helm is the manager of the property of the Gopher Mining company at Republic, and he says when he visited it a few days since it was looking exceedgy well. A whim has been ordered, which will be used on the shaft which is being sunk on the vein. This is now for a distance of over 100 feet and is to be deepened to the 200-foot level.

At a depth of 30 feet the ledge has wid-At a depth of 30 feet the ledge has widened out from eight inches to eight feet 10 inches of solid shipping ore. Mr. Helm is also superintending the development of the property of the Agnes Mining company in the Republic camp. A crossent is now being made from the 75-foot level for the purpose of catching the vein of the Knob Hill.

Ore Exhibit for Spokane.

The management of the Spokane Industrial Exposition desire that the mineral exhibit there be as large and complete as possible. Messrs. Dickinson & Orde and Ross Thompson have taken charge of the matter of collecting the specimens intended for the exhibit. The mine owners who wish to exhibit specimens of their ore at the fair should send them in to the office of Messrs. Dickinson & Orde at 646

A Promising Prospect.

Mr. H. F. Libby has returned from the Slocan near Rosebery, where he has been doing the annual assessment work on the Eastern Township prospect. There is a five-foot vein on the property.

The Lardeau Country.

Mr. G. E. Townshend has just returned from a visit to the Lardeau country, there he has been looking after his min ing interests. He reports that the Canadian Pacific is running a location line from Ferguson to the foot of Trout lake. On the Silver Belt, owned by Dr. Johnson and others, a find has been made of

to the ton.

Messrs. Frank Watson and Napoleon
Wells are operating the Black Diamond for
the Silver Tip Mining company. They
intend to do considerable work before

WILL SOON BEGIN OPERATIONS

snow mes.

The Castle Mining company, in which Mr. Townshend is interested, has run a tunnel for a distance of 30 feet, and there is an excellent showing of silver-lead ore that runs from 110 to 130 ounces of silver to the ton. This tunnel is to be driv-en in for a distance of 100 teet. A con-tract for driving another tunnel for a distance of 150 feet has been let. This tunnel is to open mother ledge.

A great many people are going in there and the entire Lardeau country is very

A Free Milling Proposition.

for the 10th of August for the purpose of formulating plans for the resumption of work on the Cliff mine, which lies between the Consolidated St. Elmo and the Eddie J. properties. The mine, under the management of Colonel Wharton, shipped several hundred tons of orc. The ore carries gold-copper and is of a high grade. It is not known to a certainty when the operations will be resumed, but it is thought it wil not be a great while after the meeting on August 10th.

Sheep creek, a short distance from Salmo, where he has been doing assessment in which he is interested. The principal work was done on the Sheep Ranch group of three claims. The ledge on these properties is five feet in width, and can be traced for about 500 feet. Assays from the ore run from \$2.20 to \$6.80 to the ton, and as the ore from which the assays were made is from near the surface and is free milling, Mr. Burghult considers that when the property is further developed it will be issued on the surface and is free milling, and additional hands were secured and start to work this morning. The intention is to push the work from now on. Under the reorganization plan there will be plenty of funds for extensive development work. The old capital stock was \$1,750,000, and there are some 40,000 J shares. The old shareholders can have the new the property is further developed it will be issued on the surface and is free miling. The intention is to push the work from now on. Under the reorganization plan there will be plenty of funds for extensive development work. The old capital stock was \$1,750,000, and there are some 40,000 J shares. The old shareholders can have the new the property is further developed it will be issued on the start to work this morning. The intention is to push the work from now on. Under the reorganization plan there will be plenty of funds for extensive development work. The shares will be issued on the prove of value. He also did some development work on the St. Anthony prosprove of value. He also did some development work on the St. Anthony prospect, which is near the Sheep Ranch group. On this property there is a vein two feet in width of promising looking ore. It is his intention to further develop these properties this fall. These properties are located a mile from the famous

THE NEWS OF THE MINES

MR. FRANK ROBBINS HAS BEEN EXAMINING PROPERTIES.

Two New Veins Have Been Found on the Referendum-Hennesy Brothers Make a Big Sale.

Mr. Frank Robbins, general manager and consulting engineer for all of the min-iner and the Copper Farm, values of as high as \$18 in gold, besides good percenting interests of Mackenzie & Mann, is in the city on a visit. Mr. Robbins is mine was resumed yesterday afternoon. everywhere recognized as an engineer of over interests as those controlled by McKenzie his principals along Georgian Bay and Parry Sound. They have a wilder country that the state of the miling. Mr. Toole has his eye on other properties which he is negotiating try there than here in the Kootenays. On the Tulameen some 30 proper

try there than here in the Rootenays.

It is some of the prospects there, he says, are pretty fair, and considerable prospecting is being done. While east he visited the mines of Sudbury, where mining is carried on on an extensive scale.

While he was east Messrs McKenzie & Mann organized the Dominion Copper company, with a capital of 5,000,000. The properties which have been transferred to this company include the Stemwinder, Brooklyn, Montezuma, Rawhide, Standard and Iowa. The inclusion of so many properties, some of which are of known merit in the property of the Dominion Copper company, makes it a big incorporation, and one which should prove successful. Mr. Robbins is en route for the Boundary country.

On the Tulameen up around the Hidden Treasure. The Sultana is a good proposition, and belongs to the Bonter brothers and J. R. Ray of this city, and Robert Hamilton Dickson of Niagara. It is a gold proposition. Mr Bronter brought some of the ore with him to this city, but has not yet had it assayed.

Kennedy mountain is showing up well with the little work that has been done upon its ledges. The entire mountain has been staked and the properties there or promise to be as good as those of Copper mountain.

Some good finds have been made on Boulder creek. The ore goes about \$23 ncr toon in gold, which is found in a senical iron. There are large areas, the ranchers say, that have not yet been prospected.

was in the city yesterday on a visit. Mr. for the Scott is a resident of Winipeg, and is have making a tour of the Kootenays in the interest of the mineral exhibit, which is Mr. to be sent to the Paris exposition. in talking about the matter yesterday he urg ed the necessity of haste in the prepara-tion of an exhibit for the Trail Creek well and that two ledges have been crossed the necessity of haste in the prepara-cut by the tunnel. One of these is eight tion of an exhibit for the Trail Creek feet in width and the other is four feet. division, and pointed out the fact that of the space set apart for the mineral exhibit of Canada, he stated, would be assigned to British Columbia, provided it is worthy of it. The gathering of the exhibit has been left to the board of trade of this city, and he hoped the work would be done as well and expeditiously as pos-sible. The exhibits of each district, as fast as they are assembled, will be forwarded to Ottawa. Here each specimen will be examined by Dr. Dawson, the Do will be examined by Dr. Dawson, the 100 minion geologist. Those specimens which do not come up to the mark will be rejected, and only the best forwarded. For this reason great care should be exercised in the selection of samples. Mr. Scott left yesterday afternoon for Nelson where he was to meet Mr. W. F. Pobertson, the provincial mineralogist, and the twain were to visit Fernie and other points in Fast Kootenay for the purpose of expediting the assembling of the exhibit from

A Contract Has Been Let.

The contract has been let for the section of the A. & K. railroad between the foot of Trout lake and the head of Kootenay lake. Over 5,000 men are now ged on the line and it is the expressed intention of the contractors to "put on a man for every stump" between Selkirk City and Lardo. The wages has been raised from \$1.75 to \$2.50 and \$3 and it is expected that the coad will be completed to the southern extremity of the lake by the list of Cotober. The section of road between Selkirk City and Trout Lake City skirting the lake shore will also be let and it ing the lake shore will also be let and it is stated emphatically that by next

Trout Lake City.

There is now not the faintest shadow of doubt concerning the sincerity of the C. P. R.'s intention to connect Trout Lake City with the head of navigation on Kootenay lake, for the above state-on the Kootenay lake, for the ab Lake City with the head of navigation on Kootenay lake, for the above statements are authorized by A. W. Doocet, constructing engineer for the C. P. R.

At Selkirk City, situated at the foot of Trout lake, six new hotels will be built during the next 30 days. One of these will take over 70,000 feet of lumber of locations were made.

The Beatrice is perhaps the best developed mine in that section. It is located on Mohawk creek, a tributary of Fish creek, certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.
