A STUDY IN EXPRESSIONS

FOR OVERSEAS CONSTRUCTION

IGANTIC steam shovels weighing sixty-five tons each, capable of eating up the earth at the rate of 150 to 200 cubic yards an hour, and self propelling extension track pile drivers, are part of the equipment recently pur chased by the Government for Col C. W. P. Ramsay, of the Canadian Over seas Railway Construction Corps. This plant was selected by Col. Ramsay's colleagues in the Engineering Department of the Canadian Pacific Railway and is being prepared by that company at the request of the Government for shipment abroad. The Canadian Over seas Railway Construction Corps has already built many miles of track at strategic points and is all the while engaged in surveys for further con struction. The work has often to be done under fire, and though there have been so many narrow escapes ther foundation of the Corps 18 have Royal Engineers, a remarkable tribut to their efficiency, while Col. Ramsay and Major Harvey have been mention ed in dispatches. The splendid work of these Canadian engineers has bee highly appreciated by the allied co

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a bisod or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in the country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

ATRIGHT

HOW MANY MILES Are There in a Gallon of Gasoline?

That depends on the type of motor in your car.

When you buy a "McLaughlin" Six Cylinder Valve-in-Head Motor Car you not only get the last word in comfort, style, power and speed, but we guarantee that you get an automobile which will give you THE HIGHEST GASOLINE MILEAGE.

LINE MILEAGE.

It is an admitted fact that the McLaughlin "Valve-in-Head' Motor does give 15 per cent, more power than any other type of gasoline motor, which means 15 per cent, more mileage per gallon of gasoline.

This is not a theory but a fixed engineering principle resulting from the perfecting of the "McLaughlin" Valve-in-Head Motor. Hundreds of users of feeting of the "McLaughlin" Valve-in-Head 45 Horse-power cars give evidence daily that they are getting 22 miles or more per gallon of gasoline while touring with full passenger load, and many users report over 26 miles per gallon.

REMEMBER, COST OF OPERATION IS A PART OF THE COST OF YOUR CAR. With the price of gasoline going up, the proven economy of the "McLAUGHLIN" Valve-in-Head car should make it the preference.
