TRAFFIC LAWS
MUST BE OBSERVED

Will Be More Strictly En-
forced in Future, Says
Chief Slemin

Chief Slemin once more calls the
attention of the public to the neces-
sity of observing all sections of the
traffic by-laws, and declares his in-
tention of enforcing such regula-
tions more strictly, as a measure of
precaution against accidents. He
emphasizes the following rules:
A vehicle shall keep as near the
right-hand curb as possible, and
while standing the wheels nearest
the curb shall not be more than six
inches therefrom.
A vehicle meeting another shall
pass on the left.
A vehicle overtaking another shall
pass on the left.
A vehicle turning into another
street to the left, shall turn around
the intersection of the two streets
and keep to the right of the street
into which it turns.
A vehicle turning into another
street to the right, shall turn around
the intersection of the two streets
and keep to the right of the street
into which it turns.
Vehicles going in a northerly or
southerly direction shall have the
right of way over vehicles going in
an easterly or westerly direction.
The speed shall not exceed six
miles an hour on the following
streets:
Colborne street, between Brant
avenue and Murray street.
George street, between Colborne
street and the G. T. Railway.
Dalhousie street, between Brant
avenue and Park avenue.
Market street, between G. T. Rail-
way and T. H. and B. Railway.
Not more than four miles an hour
while crossing over at the inter-
section of any of these streets.
Nor shall the speed exceed four
miles per hour while turning at the
intersection of any other streets.

In Jerry-Built "Palace."

The Hon. Lady Byng gives a graphic
pen picture of the King and
Queen of Belgium in a vivid de-
scription of "a flying visit to Flan-
ders," which she contributes to the
National Review.
The temporary "palace" at La
Panne she describes as "three of the
most hideous Jerry-built villas it was
possible to conceive," and before
them stood Queen Elizabeth.
"With her fragility it was hardly
credible that she should have
weathered the storms of this war as
she has done, or survived that ter-
rible crash from Brussels across her
husband's head, and that she should
be the way she is now, a woman
who, as Lady Byng says, Lady
Byng, "Nobody but those who have
known her, will ever know what that
journey must have entailed in suf-
fering and horror, as her motor
threaded its way through troops ad-
vanced eastwards to try to defend
the country and hosts of terrified
civilians fleeing westwards from the
Germans behind them.
"So close on the Queen's heels
were those fatal hours that more
than once, when she and her lady-
in-waiting, Comtesse de Caraman-
Chimay, left their motor at some
point, whether they were making, or
leaving, a detour, that the German
leapfrog rider would rush up with
orders to resume the journey at
once. Some day perhaps the world
will hear all the details of that grim
flight, and not only of that, but of
the daily life of the Belgian sover-
eigns at La Panne.

**ALLIED PROGRESS
IS UNCHECKED**

**ALLIES Continue Advance
Everywhere Save on the
Soissons Heights**

London, July 26.—(Reuter's).—
On all sides of the German salient,
the Allies are reported to-day to be
continuing to make progress except
on the heights behind Soissons. The
German resistance to the French
pressure has been very determined
in this latter sector. The advances
reported elsewhere are for the most
part slight.
On the other side of the salient,
just to the west of Merry and Hill
lies the town of Merry and Hill
204 to a German counter-attack, but
retained Vigny and the greater part
of the line thereabouts looking to-
ward Fismes.
The Allies in this sector hold
Marvaux, Bouilly, St. Euphrasie and
Courton Wood.
Between the Ourcq and Chateau
Thierry the Franco-American line
now shows an advance beyond the
line of a week ago of from six to
eight miles.
Foe Fought Well.
London, July 26.—Reuter's corre-
spondent with the American troops
in France says: German infantry
which had been pushed back from
the Marne was hurried forward to
check the Franco-American thrust
toward Foe-on-Tardieu. The Ger-
mans fought well and checked the advance for some
thirty-six hours and three times
wrested the village of Boilets from
their determined opponents. In the
meantime the village grew constant-
ly smaller under the ceaseless bom-
bardment from both sides and fin-
ally disappeared, not even a large
pile of bricks being left behind.
When the village disappeared the
Americans tired of the ceaseless ob-
b and flow of the fighting there, had
taken the slopes on either flank and
forced the Germans to make their
final massed attack into the ruins
of the village.
Meanwhile the Allied guns had
been brought up beyond the crest of
the hill and as soon as the Germans
took possession of the village they
until the place smoldered. The Ger-
mans fired as though a fire. When the
day, regardless of duration of ser-
vice.
Total Remuneration.
"In all portions of Canada, west
of Sault Ste. Marie, the officials in
the minimum class receive as salary
\$626, and one in the maximum
receives a salary of \$787. To these
figures must be added the following
sums: \$100 bonus voted and paid in
1917, which is included in the esti-
mated vote by Parliament, and is
now being paid for 1918; \$150 extra
for many years been paid to these
officials west of Sault Ste. Marie in
making a total remuneration in
class \$1,006 to men in the max-
imum class \$1,208. To this must be
added a sum for uniforms, consisting
of suit, greatcoat, hat, cap, boots,
boots, raincoats, which may be
estimated at \$100, and which
was admitted by the representatives
of the men before the Government
to amount to that sum. In addition
to this, they receive free transpor-
tation upon street car lines in Canada
while employed in their ordinary
business, for which the Government
of Canada pays an annual sum of
\$65,000.
Receiving More Than They Ask.
"They demand a minimum salary
of \$1,000, and a maximum of \$1,400
and it will thus be seen, including a
reasonable amount for uniforms,
they are now receiving more than
they are demanding. The Govern-
ment decided before the representa-
tives met them on Wednesday of this
week, that the temporary men were
entitled to and would receive both
bonuses, amounting to \$250, as here-
before stated, as well as the \$180
which has been paid to all employees
for a long period of years.
"On this statement of facts, the
Government is willing, and has
pointed a committee of Council to
confer with their employees, hear
any representations the latter may
desire to make, and fairly consider
them."

SALARIES PAID
THE POSTMEN

2,277 Are Getting \$3 a Day,
Only 163 \$2.00, Hon. Mr.
Doherty Shows

BONUSES BESIDES

Ottawa, July 26.—Following a
lengthy sitting of the Cabinet this
afternoon, a statement was given
out regarding the salaries paid to
letter carriers, porters, messengers
and mail clerks employed by the
Government. Hon. C. J. Doherty,
Acting Prime Minister, stated that
instructions had been issued to
postmasters to disburse with the
services of those men who refused to
return to work. This statement is-
sued this evening follows:
"The salient facts regarding the
salary of letter carriers, porters,
messengers and mail transfer
clerks, are as follows:
"When any one of these officials
enters the service, he receives a
salary of \$2 per day for the first
year, \$2.25 for the second year,
\$2.50 for the third, \$2.75 for the
fourth year and \$3 per day there-
after.
"There are in the whole of Can-
ada 2,152 letter carriers, of whom
102 are in the \$2 per day class, 63
in the \$2.25 class, 61 in the \$2.50
class, 142 in the \$2.75 class, and
1,784 in the \$3 class. Of porters
there are 524, divided as follows:
39 in the \$2 class, 31 in the \$2.25
class, 39 in the \$2.50 class, 68 in
the \$2.75 class, and 347 in the max-
imum class. Of messengers, there is
a total of 44, divided as follows:
Two in the \$2 class, one in the \$2.25
class, none in the \$2.50 class, one
in the \$2.75 class, and 40 in the \$3
class. Of mail transfer clerks, there
are 137, divided as follows: 20 in
the \$2 class, 19 in the \$2.25 class,
15 in the \$2.50 class, 17 in the \$2.75
class, and 107 in the \$3 class.
Thus be seen that out of
2,277 are in the maximum class,
and only 163 in the minimum class.
In addition to this there are a num-
ber of honorary men who have
been receiving the sum of \$2.50 per
day, regardless of duration of ser-
vice.

GIVE YOUR HAIR THE
CHARM OF YOUTH

Proper Shampooing
With Velnor Will
Keep Hair Healthy
And Attractive

Attractive hair is a birthright
you should keep "good to look
upon." By regularly shampooing
your hair, you will give it the
charm, the healthful, richer hues
of youth. You will keep the
scalp healthy and the hair glossy
and wavy.
A home-course in shampooing
is made simple and quite inex-
pensive by using Velnor—an ex-
quisite shampoo, just placed on
the market. It comes in the
form of a powder, unbelievably
fine and possessing an elusive
fragrance. It is daintily pack-
aged in an attractive, bound-
carton that looks irreproachably
correct on the toilet table.
Velnor shampoo is surpris-
ingly economical and conven-
ient. The bounder carton con-
tains six individual sachets, each
of which when dissolved in
warm water will make 4 ozs. of
liquid shampoo. This is about
the same quantity as one ordi-
narily gets in a bottle of liquid
shampoo.
Proper shampooing is really
quite a simple process, and with
Velnor, delightfully refreshing
and invigorating. Use a little
of the liquid first to remove
from the hair all grease and
dust. Then rinse it off, and
give a second application of
liquid a second application of
instant, copious, creamy lather,
which should be rubbed into the
scalp with the finger-tips and
then thoroughly rinsed out.
One carton of Velnor will
make in all six times as much
shampoo as can be purchased in
the ordinary bottle of prepared
liquid. Velnor shampoo is thus
always fresh. Yet the bounder
carton costs only 50 cents at
any drug store or hairdressers.
