BEGS A "CHANCE."

"They talk of a change after I have just been in power for a few yearsjust entered upon my career as it were. Give me a chance to show you what I can do. Three years ago the what I can do. Three years ago the eighth of October I was called upon to form a government. I called good men. I am delighted to bear evidence of the ability of the men whom I chose. Now consider yourself in my position. What would you have done under similar circumstances. You under similar circumstances. would have asked yourself what can I do for the bettering of my country.
That is what I did. I recognized the vast resources to be obtained from this New Ontario, with over thir-ten million acres of land which has as yet been untouched by a plow. In this country there is the possibility of having ten millions of a population. Are these wild lands to go barren? How was I to build up New Ontario. The first thing to be done was to build railroads into it. I may say that the whistle of the locomotive is the bugle cry of prosperity. steps taken by me towards this end were to get corporations and syndicates to buy these lands, to build railways into it, and to grant subsidies. The C. P. R. concessions were given without any restrictions. Our land grants were given only on certain conditions. The first grant was given to the Algoma Central railroad. I brought down a bill in the house to grant a million and a half acres of land to the Algoma railroad, Mr. Whitney was opposed to this bill. He called it a colossal steal. In spite of his opposition, however, the bill pass-ed, and this was the beginning. The land was sold at ten dollars per acre under the condition that the purchasin the next ten years on the land thus assigned. If I had a dozen Conservatives on the platform here I would be confident that they would agree with me that this was a good bus-iness deal. The policy of the govern-ment is that in building up New On-tario they are doing something good. lions of our young men are going to the United States. We want to keep them at home. I am a Canadian myself, and put a Canadian where you will he comes from the best stock of men to be found on the universe.

Trailroad subsidies even, we stipulated that the railroad must pay the workingmen fair wages for building their roads. The government in the future will establish more pulp factories in New Ontario and will no doubt in a short time be making their own paper. self, and put a Canadian where you will excomes from the best stock of men to be found on the universe.—
Cheers. We must keep our saw-logs in our own country. The saw-logs policy was adopted by us in 1890 and three years ago this achievement was assumed by the opposition. It existed three years before they knew anything about it. We made it compulsory by act of parliament to have our saw-logs kept in our own country. The saw-mills were brought back from Michigan and as a result, 1,300 more men are employed to-day than there were five years ago.—Cheers. Our policy is to give employment to Canadians. These men have to be fed and clothed. You are the men

there were five years ago.—Cheers.
Our policy is to give employment to
Canadians. These men have to be
fed and clothed. You are the men
who supply them with food and clothing. That I say is a patriotic policy.
Then, as to our mineral policy. A
small bounty was to be paid on irom\$155,000 is to be spent for smelting
furnaces for smelting Canadian iron.
Five years ago there was no iron industry in Canada. Last year 140,000
tons of iron was put out of Canadian
establishments. There are three of
these works now. Three years ago

William Gordon Standard Fashion Sheets Thousands FREE to all—Designs for June 10c. sending your beets to Michigan. When this industry was first thought of tests of the soil were made and it was

found that the soil was very suitable for the growing of sugar beets.

Most of the sugar used in Ontario
to-day is made in Germany. We
thought we would do something to thought we would do sometining to encourage this industry and offered a bounty of \$75,000 a year for three years to be given according to the quantity of sugar made. Mr. Whitney and the opposition said nothing would come of it, but to-day we have four factories in Ontario and have

turned out between 30 and 40 mil-lion pounds this year.—Cheers.

It is far better to consider these issues than to talk of the scrap iron assessment, and such picayune sub jects as burned ballot boxes and spoiled ballots. This is old history and disgusting matter in themselves. It is not a pleasant thing to point out the mistakes made by the Conserva-

"LITTLE THINGS."

they ask the people for their confidence.—Cheers. I think my mineral policy is a good one. The large manufacturing cities of England, such as Birmingham; Sheffield, and others, have been healt to except of their What is the use of telling what happened in West Elgin and Water-loo. These are little things and they have passed away, and we must now Conservatives have been bad, but surehave been built up on account of their ly there are some good men in the party who repudiate the misdeeds of ies. Through my policy you will send no wheat out of the country. It will their party. can do without casting reflections on first be made into flour and then sold the past.

to the outside markets. No lumber will leave the country. It will first be made up into furniture, etc. Thus you will make a market and develope. Now, we found that we must increase the revenue. We wanted more money. We looked around to see who had the money, with a result that we On the fifteen day of May this year, taxed some of the insurance companthe first steel rails ever made in this ies. The assets of the Canada Life Irsurance Company is \$22,000,000. We felt that they ought to give some of country were made on our Canadian soil.—Cheers. We have the capacity of turning out 1,000 tons of steel per day. And yet, in the face of all this that back. The opposition said that this in turn would come out of the the people of the opposition want a change. They are not going to have nasses. According to our assessmen the Canada life would have to add eight mills. They would not add such a small amount. The assessment was We want to see when our markets a small amount. The assessment was merely a shave on the profit and they are perfectly able to stand the shave. Mr. Whitney did not like the bill, but it passed the House. The people are in sympathy with this action. It is much better than cutting down the grants to your schools. are supplied an opening for our products in Great Britain, Our fruit is far superior to that found in Liverpool and should find a way in the mar-kets of Great Britain. We ought to

down the grants to your schools.

Our death rate in ten years has amounted to two million dollars. The opposition wanted to cut it in half. The million of money we get in this way is devoted to good roads, and I have never yet heard a man grumble about paying his death rate.—Laughter.

drawn to them. Gladstone 25 years ago expressed his opinion that the col-We stumbled on the scrap iron as onies were a menace to the Empire sessment. Any government is liable to make a few mistakes. The Bell but we have made them think better of us.—Cheers. The result of this achievement will be that the wages of the colonists will be raised. Our factories are now running overtime and it is the duty of the government to make the hone of the workingman more comfortable. In granting our railroad subsidies even, we stipulated side of the house. I also brought in a bill, which was identically the same in its terms. I thought I had a good bill, but Mr. Foy said it would not stand the courts, and it was found out later that it did not stand he courts and did not cover the ground. At last another bill was introduced, which was satisfactory to all and assess the company was a going concern I am not the only one who has made mistakes however. Sir John A. Mac-donald thought the timber in Ontario belonged to the Dominion but this was decided against him. I can afford to be with him—Cheers.

Then also we proved to the Do-minion that the tavern licenses in On-tario belonged to the Ontario govern-ment. This question will arise in the

The Bell telephone Comapny will with the Bell telephone Comapny will with the work with the comapny will be the company will b The Bell telephone Comapny with now pay their just dues. Whitney says you are a friend of the corporations and get money from them to carry the elections. Mr. Whitney was asked to make this charge in the house and the matter would be investigated but he never made the charge. Mr. Whitney can have a commission for this purpose whenever he wants Canadians. These men have to be fed and clothed. You are the men who supply them with food and clothed ing. That I say is a patriotic policy.

Then, as to our mineral policy. A small bounty was to be paid on iron—\$155,000 is to be spent for smelting furnaces for smelting Canadian iron. Five years ago there was no iron industry in Canada. Last year 140,000 tons of iron was put out of Canadian establishments. There are three of these works now. Three years ago there was not one. Already 230,000 tons of iron have been taken out of Wallaceburg and Dresden instead of Wallaceburg and Dresden instead of Mr. Whitney can have a commission for this purpose whenever he wants it. I know nothing about it. It would have been the proper thing for Mr. Whitney to accept the offer of the attorney-general to examine into the case and if we have acted dishonestly let the world know of it.

It is said that we are not dealing

ment one's worse ills are cured at MAGI Caledonia Springs. Season opens May 28th. Send to the Company for complete Guide. The Waters sold every-

fairly to the veterans. What are we doing? We thought that those men-who served their country should have some recognition, also those of the Fenian Raid. We gave them 160 acres of land in New Ontario for ten-years and at the end of this time at he wanted to dispose of it he could receive the title of it. They have everything except one-quarter of the pine on the land.

The law is on the statute book and we cannot trifle with the statute.

according Conservatives that we are laying awake at night making trouble.

Laughter. The Government have got reputation and our good name is as dear to us as any of yours. Whitney calls upon the clergymen. He will need them soon politically.— Laughter. Mr. Whitney states that his platform is good intentions. He says he is in favor of more agricultural schools. He, however, resisted: the establishing of one in Middlesex. We also appointed an officer at \$1,200 a year to look after the waifs in the large cities. We made the appointment six years ago and since that appointment 2,000 children have been provided with good homes. This is a sumple of the Legislature under

which they say it is time for a change.—Applause.
They also attack our school system. If this system is as bad as they say how is it that it carries off the highest honors in Chicago, Paris and other places where it has been exhibit-ed. Where it competes with Harrows and Rugby and Cambridge and Ox-Rugby and Cambridge and Ox-It has been proven that the of school books is 10 1-4e per cost of school books is 10 1-4c per-child. We want to furnish free school

Our text books are good, but can be improved—so can everything, last summer's hats, for instance. Let us-deal reasonably and let us be fair. Watch the big issues, not the small issues. That is the problem. When of appeal with their assessment, with the result that they upse the law. The municipal association brought in a bill and was introduced on the Tory side of the house. I also brought in equal to the contest? We come from the stock of men who have made that little isle of Britain the mistress of the sea. In this election I feel sure that we will seek honestly to dis charge our duties. We can do it, and

T. L. Pardo John Lee and sixteen oth-er prominent Liberals had dinner at Hotel Sanita Mineral Bathy House yesterday prior to the meeting in the opera house. Dr. Landerkin remained over night and took a mineral bath. When the campaign is over he intends to prevail on Mr. Ross to come to Chatham and take a course of baths. The guests were right royally treated by Manager McCoig who was the subject of many compliments for his courtesy and hospitality.
