WOLFVILLE, N. S., NOV. 25, 1898

Our Streets.

Our Streets.

The condition of our streets has not in any way improved since last we wrote upon the subject. Popular appinion has pronounced that no improvement can reasonably be expected until hard frost sets in, which will probably be not very long row. Main street is certainly in a most disgraceful condition, sed remark, that have been made concerning it during the past few week, both by those who drive and those who walk, have been foreible if not at all times elegant in the extreme. Wolfrille, however, is not alcue in the matter of bad streets. The came sound of complaint comes from meanly every town in the Province. Most harrowing tales have been published in the press concerning the streets of Kentville, Parraboro, Windsor, Amherst and other towns, and the county roads are also as bad as could be wished for the streets on has been a most trying one on the kind of streets and roads preval ent in Nova Scotia. Continuous rain, has fallen and the light meta-rial of which The reason has been a most trying one on the kind of streets and roads preed gate to Kover Seotic. Continuous rain has fallon and the light meterial of which our roads are constructed has been passed for provincial Examinations.

In The number of legal teaching days to passed in Kover Seotic. Continuous rain has fallon and the light meterial of which our roads are constructed has been put on during the summer is lang quantity. On our own fish at set, and a work was done. The material was not at all emilable for road situations of the fallon of the street such a work was done. The material was not at all emilable for road and the light meterial of which has part on the large of the large one up for the lower grades, and the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all emilable for road of the large was not at all the large was not at all emilable for road of the large was not at all emilable for large was not at all the large was not at all the

Sheldon's Newspaper.

The Rev. Chas. M. Sheldon's hooks, now so universally read, make it plain that that writer's hopes of the regeneration of the world lie in getting ieldviduals more and more to do their dilty tasks on Christian principles no matter what the sacrifice involved. In the best known of his books, "I His Steps," be pelastly looks to the newspaper, carried on upon Christian principles, as largely the hope of the "corring kingdom." In looking about him for a newspaper up on his model, he seems to have lit on the Montreal Witness at a slick to have he best addressed a letter, jast of which we quote:

"I have read the Witness at little and the seems to have little on the form of Canada will take "Calkin's History of Canada will take

the Mayor, and all the c uncillors and the recorder were present. Atter the minutes of the least meeting had been read, the Mayor sisted that the meeting had been called to receive a petition from ratepayers and to consider the condition of the streets. The petition was then read by the clerk. It was signed by twenty-five slectors and called the strength of the condition of Main street, asking that the material put to adjuring the summer be removed, or such other step taken as will improve the condition of the streets. Considerable discussion ceasued, and at twas thought that it would be impossible to do any work that would be effective as late in the season. The whole mater of streets was freely discussed, and some of the conceillors spoke quite strongly on the suffycie. A resolution was passed that the petition be tabled indefinitely.

A leading New York newspaper gives the following and noteworthy testimenty "It is no wonder that every oppressed people in the world, dimly awakening to the possibility of better government, rouse the clearity which he does not, and common pays for English intervention and English rule. If our island possessions are to become anything but draw of corruption, their government, rouse the model of the possibility of better government, rouse the clearity which he does not, and common pays for English intervention and English rule. If our island possessions are to become anything but draw of corruption, their government, rouse the understand of the control of the cont

The following notes are called from the Journal of Education for October, which has just been sent to the Secretary of Trustees in each section of the Province. It will be of much importance to read the full text, of which these notes may be regarded as mere hints.

May 23. Empire Day.

May 24. Anniversary Queen's Birthday.

Last day to receive applications for Provincial Examinations.

Nature is full of hidden forces that are being utilized and yet to be utilized for the benefit and upbuilding of mankind. One of the most important of these of recent date is Prof. Warner's Liquid Ozone. People are talking about it wherever it has been introduced. It is selling more readily every day, and even in places where it has not been advertised, from one person telling another of the benefit received. It is a great tonic and builds apthe system and thereby throws off disease. It is good for almost an complaint, but particularly effective in Dyspepsis, and general debility, and is also a great remedy for sore throat, bruises, etc. It is not a drug but the vital principle of life, and the most delicate can take it without harm.

Now is a good time of the year

Now is a good time of the year to take it, and fortify the system for the winter. Get a circular at the druggists, which tells all about this wonderful remedy, and try it, and you will see that it all or more than is claimed for it.

addressed a letter, jart of which we quote:

"I have read the Witness with much interest. Ic most asy that I know of any other daily japer in the Units' attributed. States that is conducted on such high Christia principles. I wish I did, for if ever we needed such a sanger our X.

"I have read the Witness with much interest. Ic most asy that I know of any other daily japer in the Units' attribute will be superseded. By Part IV. of the Progressive Arithmetic.

"IX.

Calkin's History of Canada will take the place of his history of British America, after the present year. Also Ham, in Smith's Arithmetic will be supersed. do by Part IV. of the Progressive Arithmetic.

"IX.

Our fruit growers are very well pleased by Part IV. of the Progressive Arithmetic."

"In Smith and the daughter Bessig.

Where they were spending the summer. Our fruit growers are very well pleased by Part IV. of the Progressive Arithmetic.

"X.

Where they were spending the summer. Our fruit growers are very well pleased by Part IV. of the Progressive Arithmetic."

"X.

Where they were spending the summer. Our fruit growers are very well pleased by Part IV. of the Progressive Arithmetic."

"X.

Where they were spending the summer. Our fruit growers are very well pleased by Part IV. of the Progressive Arithmetic."

Calkin's History of Canada will take to Interest. It is not say teat I know of any other daily paper in the United States that is conducted on such high Christin principles. I wish idd, for if ever we needed such a paper in our country we need it now.

"Let me express to you my appreciation of the Christin principals. I wish idd, for if ever we needed such a paper in our country we need it now.

"Let me express to you my appreciation of the Christin principals. I wish idd, for if ever we needed such a paper in our country we need it now.

"Let me express to you my appreciation of the Christina herizon and considired the possibility. I have slews, but the Witness a possibility. I have slews, but in the possibility. I have slews, but in case of the led an excision of the Christina herizon and considired to all, and led those specially interested to all, and led the special special
