REMEMBER....

that only with a piano of established reputation are you assured of permanence of tone. Many pianos may sound well at first, but deteriorate rapidly when put into service.

Each of the above pianos has built an enviable reputation for ability to retain through its lifetime that wonderful tone which charms all who hear it.

Nothing ensures quality but quality itself. We have pianos as low as \$288 and will take your present instrument as part payment at a fair valuation and arrange convenient terms.
