THE SERENADE. I'm almost tired of waiting here-" Awake, my love ! arise !" I'm howling to the skies. The stars are twinkling merrily, But they no answer make; interior they resign to thoe—
"Arise, my love? awake!"
lut soft—the lattice open—"My love—
What is my love's decree?" Black girl at the window.

Black girl at the window.

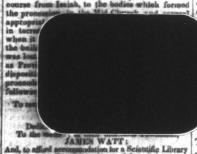

Mr Miney wish you go away,

And let be queet be.

Screenader, singing " Hey, Botty Martin."

From the London Literary Gazette. must be obvious that the system possesses the ling up C means, also, of increasing the power as it may be count was littles are effected high degree of rarefaction. But rarefaction to sleepers 4. PNEUMATIC RAILWAY. he which presumed impossibilities are effected in the case with which an egg in made to stand on its small end! The is secret of the passes with which an egg in a closetube or tunnel by the rarefaction is almosphere, will give upon the piston of a cylinder thirty-six inches in diameter, an amount of tractive power equal to that of an ordinary locomotive engine. Let another inche inclosed column of air, is communicated for mercury be allowed for waste, friction, and other continuences and the resolution of the continuence of the continuence

the means by which the power, obtainable in a closefule of tuned by the rarefaction he inclosed column of air, is communicated train of carriages on the outside throughout ongitudinal extent, and in the combination energy to render it effective, the principal are in which is parpetually shifting valve. I happens, fortunately for the ready adoption he passurated system of railway, that practidate are obtainable for determining the efficient power to obtain the higher degree of rare, can the sides of the cylinder, with horizontal rails diarically opposite to each other, and forming on the lower may be cast in substance of the cylinders, are ascertainable to a fraction, and the cylinders may be given to the consequent of the cylinders are ascertainable to a fraction, and the cylinders may be cast in substance of the cylinders may be cast in substance of the cylinders are ascertainable to a fraction, and the cylinders may be cast in substance of the cylinders may be cast in substance of the cylinders are ascertainable to a fraction. The maintenance of fixed steam increase. The maintenance of fixed steam increase in the cast of the cast in substance is intervals. The maintenance of fixed steam increase in the cast of the cast o
