REV SYLVANUS COBB thus writes in the Boston Christian Freeman:-We kind of medicine which we did not know to be good—particularly for infants. But of Mrs Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the finfant to perfection, and which is harmless; for the sleep which it affords the 'infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration to say. teething siege, on any consideration whatever. Grand Southern Matters.

Mr Kay and his lawyers are testing the validity of the lease granting to the Grand Southern the right of way over the Carleton Branch. It seems to us if the lease does not give the right to go over the track, it does not give the right to lay another track down parallel with the present one. Our opinion however is that the lease validates both.
