THANKFUL MOTHERS

Thousands of mothers throughout
Canada—many of them your neigh-
bors—speak with thankfulness con-
cerning the use of Baby's Own Tab-
lets. Once they have used the Tab-
lets for their little ones they would
use nothing else. The Tablets are
an absolutely safe medicine for even
the youngest baby being guaranteed
by a government analyst to contain
neither opiates nor narcotics or other
harmful drugs. Concerning them Mrs.
David McRobb, Divide, Sask., says:
"I have used Baby's Own Tablets and
have found them so satisfactory I
would not be without them. The Tab-
lets are sold by medicine dealers or
by mail at 25 cents a box from The
Dr. Williams' Medicine Co., Brockville,
Ont."

**WANT INVESTIGATION
INTO HIS RESIGNATION**

OTTAWA, June 14.—The following
resolution has been passed by the Do-
minion Executive Committee of the G.
V. A.
Whereas, it has been brought to
the attention of the Dominion Com-
mand, Great War Veterans' Associa-
tion of Canada, that Lieut.-Col. McKel-
lie Bell, Director of Medical Services,

Department of Soldiers' Civil Re-es-
tablishment, has been forced to resign
under conditions quite satisfactory to
returned Goldiers in Canada.
"Be it resolved, that the Dominion
Executive Committee, Great War Vet-
erans' Association of Canada, request
the Government for an investigation into
the circumstances surrounding Lieut.-
Col. Bell's resignation."

UNLIKELY, THINKS OTTAWA

Officials do not credit Winnipeg
Report of Walkout.

OTTAWA, June 14.—Ottawa offi-
cials to-day put little faith in the re-
port from Winnipeg that the rail-
way firemen and engineers issued an
ultimatum, that a walkout will be
called to-day.

The Ottawa teamsters' strike is
weakening. About half the men are
back.

In Vancouver the strikers issued
an ultimatum to the Mayor that they
would call out phone workers if jit-
neys were allowed to run.

The Montreal situation was un-
changed to-day.

The Erie mines were closed down
at Prince Rupert, Thursday, by a
general strike, a message received
here said.

**FINEST THING EVER
FOR CHRONIC CATARRH!**

Gets Away From the Medicine
Habit, Cures by Novel
Method

With the many remedies you have
tried you surely know that no liquid
medicine can cure your throat or
nose. Even a gargle only bathes the
entrance of the throat, it can't really
get inside, nor can it reach the in-
flamed bronchial tubes.

With Catarrhazone, it's so differ-
ent from medicine-taking, you simply
breathe its healing vapor, inhale its
balsamic fumes, which carry cure and
relief to the minutest air cells in the
lungs, nose, throat and bronchial
tub.

In this scientific way the soreness
and inflammation is rapidly allayed,
relaxed cords, are toned up, the en-
tire mucous membrane invigorated.
Every trace of catarrh disappears,
the disagreeable dropping of mucus in
the throat, hawking, spitting, and
stopped-up nostrils—all these sure
signs of catarrh and bronchitis are
permanently cured by Catarrhazone.
Large outfit lasts two months, costs
\$10.00; small size 50 cents, trial size
25 cents, at dealers everywhere.

NEWS-BRIEFS

Chicago police arrested 400 per-
sons in an effort to rid the city of
criminals.

An airplane flying low over East
New York caused a team of horses
to run away.

A flood of counterfeit and raised \$5
bills are in circulation in Chicago.

Western bankers have started an
agitation for a mint in Chicago.

A Chicago man was arrested for
trying to sell his baby for \$25.

Mississippi ranks as fifth state in
the production of peaches. Last year
it turned out 1,880,000 bushels.

With only one army officer and 10
Y.M.C.A. workers on board the 10,
000-ton U. S. transport Federal ar-
rived in New York from Antwerp.

A Detroit man was convicted of
robbing a candy factory because his
missing tooth fitted the impression
of a chocolate found in the factory.

Because of the seating of a negro
as a member of the executive com-
mittee, 2,000 Richmond, Va., union
men withdrew from the State Federa-
tion of Labor.

It will be seen that the spring
wheat gives decidedly the best re-
turns from the first date of seeding.
There is not much difference between
the first two seedings of barley and
oats, but there is a slight advantage
from the first date in the case of the
peas, and from the second date in the
case of oats. The peas, however,
gave the highest returns from the
second and third dates, and the
fourth gave a higher average yield
than the first date. After the first
week was past there was an average
decrease per acre for each day's de-
lay in the season advanced of 27
pounds of spring wheat, 47 pounds of
barley, 48 pounds of oats, and 20
pounds of peas.

These results are of special inter-
est and are worthy of careful at-
tention at this particular time.

Sheep Shearing.
Shearing and Tying the Fleeces.—
Shearing should only be carried on
under the most favorable conditions;
upon bright, warm sunny days
when the sheep are dry of fleeces and
the wool has "loosed" somewhat from
the body. Cleanliness and care in
the removal of all fleeces is very es-
sential and the shearing floor should
be swept after each fleece has been
removed and tied. This will elimi-
nate a great deal of foreign matter
which, although it may add weight,
does so at the expense of quality.

Dung Locks or Tags.—It will be
noticed with many fleeces that there
are certain hard dung locks or tags
adhering to the britch ends. These
contain a great deal of moisture and
if left on and rolled into the fleeces
produce a damp heavy condition that
means a higher shrinkage and hence
less value. They should, whenever
present, be stripped off with the
shears before the sheep is shorn or
else pulled off by hand after the fleece
is spread out for rolling. They can
very easily be packed and shipped
separately, bringing more money this
way than if left upon the fleeces. The
same is true of all paint dotted locks
as well.

Rolling the Fleeces.—Spread the
fleece out on the floor, being careful
not to pull it apart and with the flesh
side down. Then fold the belly wool
and both sides in until your fleeces re-
present a strip about 12 inches wide.
Starting at the tail end, roll tightly
toward the neck, then leaving the
shoulder wool, which is always the
superior portion, on the outside of
the roll. The grader always estimates
the grade by the appearance and
quality of this wool over the shoulder
and heart-girth, that over the hind-
quarters usually running a grade or
two lower.

Tying the Fleeces.—Having rolled
tightly, tie both ways with the ap-
propriate paper twine supplied by the
Department. Never under any consid-
eration use binder twine as the fibres
become attached to the wool and fol-
low right through into the cloth
where they always show up quite
prominently. Many mills have re-
fused to have anything whatever to do
with clips that have been tied with
binder twine. If the paper twine is
not available use any stout cord other
than binder twine. Tie each
fleece separately, never tying two or
three together in the same bundle.
Furthermore, avoid as much as pos-
sible the shipping of loose wool. If
you have two or three different
breeds of sheep, possibly a grade
bred and a pure-bred flock, it is wise
to keep the wool from each breed
separate and pack it so.—Director
H. W. Wade, B.S.A., Ontario Depart-
ment of Agriculture.

A number of varieties of beans
are in cultivation. To meet the
present demand the "Black White Pea"
bean is particularly suitable. Care
should be exercised in securing well
natured seed of strong vitality as
many of the beans grown last year
are unsuitable for planting.

TORONTO, June 14.—The weather
is fine throughout the Dominion and
in Ontario and western Quebec it is
extremely warm. Thunder storms oc-
curred yesterday afternoon in south-
western Ontario.

GET ON LAND EARLY

The Dates to Plant for Heaviest
Yields.

To Make Most Money From Wool
Shearing Must Be Done Properly
and Wool Handled Carefully—
A Few Hints Which Have Saved
Farmers Dollars.

(Contributed by Ontario Department of
Agriculture, Toronto.)

THERE is a best time to sow
each class of farm crops to
secure the highest returns.
It is difficult, however, to
know which are the most favorable
dates for the best returns of the dif-
ferent crops in all seasons. The re-
sults of experiments conducted over
a series of years form a good gen-
eral guide. Some crops give best re-
sults from later seedings. Seasons
vary so much that in some years the
grains are practically all sown by the
dates at which it is only possible to
start sowing in other years. It is of
the utmost importance, however, to
start cultivating the land as early as
it is dry enough to work to good ad-
vantage. The first cultivations should
take place for those crops which
should be first sown. In this connec-
tion it is interesting to study the re-
sults of an experiment which was
conducted in each of five years at
the Ontario Agricultural College.

Spring wheat, barley, oats and peas
were sown on each of six dates. One
week was allowed between each two
dates. The experiment was conduct-
ed in duplicate by sowing with the
grain drill and broadcast by hand in
each instance. The following table
gives the average results for the ten
tests in the five-year period:

Bushels of Grain Per Acre,
Spring Bar-
Seedings. Wheat, Oats, Peas.
1st 21.9 45.2 75.4
2nd 19.2 45.9 76.0 28.8
3rd 15.4 39.8 64.2 28.9
4th 13.0 37.1 56.8 25.5
5th 8.4 27.8 45.2 21.5
6th 5.7 18.4 37.0 13.4

It will be seen that the spring
wheat gives decidedly the best re-
turns from the first date of seeding.
There is not much difference between
the first two seedings of barley and
oats, but there is a slight advantage
from the first date in the case of the
peas, and from the second date in the
case of oats. The peas, however,
gave the highest returns from the
second and third dates, and the
fourth gave a higher average yield
than the first date. After the first
week was past there was an average
decrease per acre for each day's de-
lay in the season advanced of 27
pounds of spring wheat, 47 pounds of
barley, 48 pounds of oats, and 20
pounds of peas.

These results are of special inter-
est and are worthy of careful at-
tention at this particular time.

Sheep Shearing.
Shearing and Tying the Fleeces.—
Shearing should only be carried on
under the most favorable conditions;
upon bright, warm sunny days
when the sheep are dry of fleeces and
the wool has "loosed" somewhat from
the body. Cleanliness and care in
the removal of all fleeces is very es-
sential and the shearing floor should
be swept after each fleece has been
removed and tied. This will elimi-
nate a great deal of foreign matter
which, although it may add weight,
does so at the expense of quality.

Dung Locks or Tags.—It will be
noticed with many fleeces that there
are certain hard dung locks or tags
adhering to the britch ends. These
contain a great deal of moisture and
if left on and rolled into the fleeces
produce a damp heavy condition that
means a higher shrinkage and hence
less value. They should, whenever

**REGISTRATION
OF
W-S-S.**

(War-Savings Stamps)

The Dominion of Canada offers you every safeguard for your
investment in War-Savings Stamps.

Affix your W-S-S. (costing \$4.01 each this month) to the
Certificate provided, and ask the Postmaster at any Money-
Order Post Office to register the stamp or stamps for you.

The stamps are then absolutely useless to anyone but
yourself. If your registered W-S-S. are lost by theft, fire, or
other cause, the interest continues to accumulate and you
can obtain your money at the office where the stamps were
registered.

Remember, that at the rate of interest allowed on W-S-S.
four dollars would grow to \$361.39 in 100 years.

EVERY time you are tempted to spend money needlessly, buy Thrift
Stamps instead, at 25 cents each. Sixteen of these on a Thrift
Card represent \$4.00 in the purchase of a W-S-S.

**A Tribute to the
Hardest Worked Merchants
in Our Country**

HAVE you ever considered the
important part played by the
grocer in our daily life?

From early morn and often
until late at night the grocer
keeps open for our convenience.

Whether we want a 5-cent bar of
soap, a package of tea or a sack of po-
tatoes he is there to serve us—and with
a cheerful "thank you".

You trade with him almost every
day. You look upon him as a friend.
He treats your children kindly when
you send them to the store.

When sickness, accident or unem-
ployment occurs, it is the big-hearted
grocer who supplies the home with the
necessities of life and often waits a long
time for his money.

He has had many trials during the
past four years. Government regulations
have hampered his business. Goods have
been difficult to procure. Help scarce.
Profits small. He sells on a closer margin
of profit than probably any other line
of retail trade.

For nearly twenty-five years, the
T. H. Estabrooks Company has been
distributing millions of pounds of Red
Rose Tea through the grocers of Canada.
Our relations with them have been very
intimate and very friendly. We, there-
fore, know something of their difficulties
and something of the services they are
rendering, which we think deserve recog-
nition and appreciation.

T. H. ESTABROOKS CO., LIMITED
St. John, Toronto, Montreal, Winnipeg, Calgary, Edmonton, St. John's, Nfld., Postland, Malaya

RED ROSE
TEA "is good tea"

**Women Everywhere
Use Lemon Juice
To Beautify Skin**

The beauty lotion which is becoming
so popular throughout the country is
easily prepared by anyone, and a whole
quarter pint of it doesn't cost any more
than a small jar of the common, ordi-
nary cold creams.

Add the juice of two fresh lemons to
three ounces of orchard white and
shake well in a bottle. Strain the lemon
juice two or three times through a
fine cloth so no pulp gets into the
lotion, then it will keep fresh for
months. Regardless of what price you
pay or how highly advertised, there is
nothing else really more meritorious in
beautifying, softening and clearing the
skin. As a tan and plethoric remover,
also to remove oiliness and sallowness,
lemon juice has no rival. Massage it
into the face, neck, and arms, once or
twice each day, and just see if it
doesn't bring out the roses and hidden
beauty!

Lemons have always been used to
bleach the skin, but pure lemon juice is
too highly acid, therefore, should never
be used except in this manner.

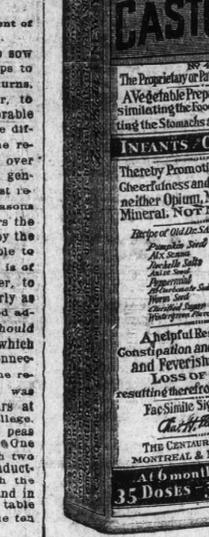

If properly prepared, this sweetly
fragrant lotion will speak for itself.
Any drug store will supply the three
ounces of orchard white at very little
cost, and the grader will supply the
lemons.

FIGHT LOOMING OVER
SOVIET RECOGNITION

ATLANTIC CITY, N. J., June 14.—
Resolutions urging recognition of the
Soviet Government of Russia, and the
lifting of the blockade against that
part of the country under its control,

were among two hundred submitted by
delegates attending the convention of
the A. F. of L. here, which were made
public today. Publication of the res-
olution concerning Soviet Russia
aroused intense interest among the de-
legates and was more discussed than any
other.

Indications were that when it comes
up for discussion on the floor it is
likely to precipitate a bitter controversy.

LIFT OFF CORNS!

Freezone is magic! Corns lift off
with fingers without pain

tomorrow. Children simply will not
Hurt? No, not one bit! Just drop
a little Freezone on that touchy corn,
instantly it stops aching, then you lift
that bothersome corn right off. Yes,
magic! Costs only a few cents.

Try Freezone! Your druggist sells
a tiny bottle, sufficient to rid your
feet of every hard corn, soft corn,
or corn between the toes, and callus-
es, without one particle of pain, sore-
ness or irritation. Freezone is the
mysterious ether discovery of a Cin-
cinnati genius.

"Maccaroni
Kept Me Fit All
Through the War."

THE wonderful staying
power of the Italian
troops was largely due
to their regular and plentiful
Maccaroni diet. There is no-
thing finer on the market than
Puccini's "Lion Brand." Con-
tains more food value, and
greater muscle-building qual-
ities than ordinary brands of
Maccaroni.

Insist upon Puccini's "Lion
Brand." At Your Grocer's.

A. PUCCINI & CO., Limited
Toronto, Canada
