Sleeplessness and fearful dreams are the earliest and surset signs of brain schasistics. In healthy sleep brain force is being stored up to meet the next day's de-manda. But nowalays the per-rous system has been so over-tasked that it is unable to control the mind, and at night the vorries, troubles, and work are as presents a during the day. Hence the brain has not time to rocu-perate its complex. The proper A 10000 PRESENTS We will send by shall as a provide the second secon perate its energies.
