McKAY WOOLEN COMPANY

MANUFACTURERS.

Come to Headquarters for Clothing, Tweeds, Flannels and Blanketings.

WE have knocked high prices out, and placed a better grade of goods on the market. All clothing new and stylish, all prices low. The value of clothing made from our make of Tweeds cannot be excelled. Our Tweeds have become a standard article of value with the Farmers of P. E. Island, and the prices are low.

WOOL TAKEN IN EXCHANGE and the highest price allowed. Prowse Bros., in an advertisement headed "Information Wanted," are trying to injure us with the Farmers by quoting the prices of Wool in another place.

For the past number of years we have been buying Wool, and in every case have given the best price for it will allow. Today trade journals, such as the Journal of Commerce, quote Canadian Wool similar to ours in wholesale lots at Montreal and Toronto at 17 and 17 1/2 cents per lb. It is an old trick of this blowing firm to cast insinuations on firms entering into the Ready-made Clothing business.

The public will remember their actions towards Messrs. J. B. Macdonald and James Paton & Co., when they entered into the Clothing trade; and now, as we are large dealers in Ready-made Clothing, and have placed a higher grade of Clothing on the market at prices within reason, completely knocking out their high figures, they feel our position, and in their ungentlemanly way abuse and try to injure us with the people.

FARMERS — When trading with us you will find square treatment. Goods sold at the lowest possible prices. And please bear in mind: we pay cash down for every dollar's worth of goods as soon as landed in the shop. No firm buys goods at a better price than we do, and any firm stating otherwise are trying to mislead you.

Our Company is a Joint Stock Company; our shareholders are satisfied with interest on their money. Other concerns are partnership firms, and each wonderful partner and his family has to be supported on the wonderful profits made out of the farmers.
