his duties.

The first day was most'y taken up with questions concerning ministerial character and conference relations, and in hying the first draft of the stationing committee before the Conference. As usual there was considerable excitament when the draft made its appearance.

In the evening the conference missionary anniversary was held, which was of unusual interest in consequence of the presence of Rev. Dr. Eby, of Japan, who gave a very expansive but lucid and eloquent address on the "Missionary Problem."

Missionary Problem." He was followed by Rev. Dr. Sutherland, of the Meth-

"Minionary Problem." He was followed by Rev. Dr. Sutherland, of the Meth-odist minion rooms, Toronto, who in his usual racy maa-ner delighted the audience with a brief address. Thursday was taken up with general conferences work, and nothing occurred to disturb the even tenor of the districts, depressing the strong language used by the secular press, and asking that a deliverance be given on that point by the conference in session. Several of the members took part in the discussion, but no one beat times to lively music until Bro. Hilliard, the talented editor of the Waterloo Chronicle, a lay delegate, took the floor. In a twinkling he was at the bottom of the question, and was showing the absurdity of any district askine for a deliver-ance from conference on this point. He admitted that hard language was often used, and deplored the necessity for using it, but in most instances the language was not as hard as the circumstances warranted. He contended that the press was the public watchdog, and if it were muzzled, the 'people's interests would suffer. When in these degenerate days we see our politicians dipping to the elbowe into the public cheat and fiching therefrom the people's money, said Bro. Hilliard, the crime is con-stituted in the theft and not in the calling of the purloiner a thief. And, continued the layman from Waterloo, when we see parliamentarians using their ascred t usts for self-interest and bartering their parliamentary privileges for coal areas, railway subsidies and timber limits, it's about time to call "Stop thief," and to use strong language also. The remarks of the Waterloo editor were received with enthusiasm by almost every member of the conference, and it is confidently believed that the memorial has reenthusiasm by almost every member of the conference, and it is confidently believed that the memorial has received its quietus.

Rev L O Rice, a well-known resident of this section in former years is attending the conference. He is now living in Induana, U.S., by permission of Conference, but
