WITH THE FARMERS

TREES ON THE FARM.

The planting of trees on his farm is a duty which every farmer and homesteader owes to himself and to the community in which he lives, just as soon as the necessities of his pioneer life are overcome. He will find that this will increase the attachment and value of his holdings more than anything else he can do. It is not at all unlikely that most farmers realize this, yet they delay the planting of trees on the plea that they have more urgent work which requires their attention. This is an oversight which the Alberta farmer should seek to remedy as early as possible.

It may be generally known that there are a long list of trees that may be grown in this province with success. Mr. Knechtel, inspector of forest reserves for Western Canada, in the course of a lecture in Edmonton, mentioned the following: White spruce, lodgepole, pine, tamarac, Colorado blue spruce, Engelmann spruce, green ash, white birch, aspen, cottonwood and Manitoba maple and white poplar. With the exception of Colorado blue spruce and Engelmann spruce, all of these are native to the province.

Mr. Knechtel advised that the farmer, wishing to beautify his home, experimented in the planting of mountain ash, eastern white maple, eastern red maple and hackberry. He advised against the Russian poplar, which is being so widely distributed by nurserymen, and against the Norway spruce, which is not native to the province. The trees there, he said, are grown under milder climatic conditions and will not survive the colder winters in this province.

This list of hardy trees and this advice of Mr. Knechtel, one of the best informed men in the province, today, may probably lead some farmers to give heed to this important matter.

MONDAY'S GRAIN MARKETS.

Winnipeg, March 22—Cables came lower this morning and the wheat market was a little lower. The world's shipments were about 1.5 million bushels in excess of last week and with an increase of the visible supply and the clearing up of the Balkan situation, foreign demand were quite weak. The strength in Chicago near the close is due to covering by shorts, but it is not up again and the market shows slight gain over Saturday. Liverpool closed 1/2 to 1 1/2 lower, Chicago 1/2 to 1/4 higher, and Winnipeg 1/2 to 1/4 higher. Winnipeg closing prices are: Futures, 1.05 1/2; May 1.11 1/2; July 1.13; May oats 42 1/2; May flax 1.36 1/2.

Chicago, Ill., March 22—Stockyard values enjoyed a miniature boom, owing to a light supply. Advances were 10 to 20 cents. The hog market was a big one higher, than Saturday, or 20 cents above the low spot Friday. Cattle gained 15 to 20 cents and live hogs 10 to 20 cents. The \$7.00 hog reappeared, and although the top did not make a new high point, the market was a light mixed hog going to shippers at \$6.80 to \$6.85 have not sold as high in many markets. Colorado lambs sold up to \$8.00. There was little short stuff in the lot, feeders having stopped shearing.

Hogs received, 2,000; market 5 to 10c higher. Quality and clearances good. Mixed and butchers, 6.50 to 6.85; good heavy, 6.85 to 7.00; rough, 6.50 to 6.80; bulk, 6.75 to 6.90. Cattle—Receipts 15,000; market 10 to 20c higher; heaves, 4.50 to 7.25; cows and heifers, 2.25 to 6.00; stockers and feeders, 3.50 to 5.40; Texans, 4.75 to 5.50; calves, 6.75 to 8.25. Sheep—Receipts 15,000; market strong. Sheep, 3.75 to 6.25; lambs, 5.55 to 8.00.

MYSTERIOUS TRAGEDY AT FERNIE.

Unknown Man Found Dead And Another Dying.
Fernie, B.C., March 20—Yesterday afternoon while some small children were playing around a small wooden shack situated near the Green Brothers station, with the curiosity of children, they looked in the windows and saw a man lying on the bed and another man sitting in a chair. They were aroused to action by the peculiar actions of the man in the chair, and gave the alarm. Upon further investigation by the police it was found that the man lying on the bed was dead and the other in an unconscious state. Dr. Corran was called and had the unconscious man removed to the hospital, where he now lies in a desperate state, and his recovery is doubtful. It was first thought they had suffered from hunger, but this was proven not to be the case, as a post-mortem was held on the dead man and it was found that he had died of pneumonia. Besides the dead man, there were a number of other men, and their condition in general regarding clothing showed they were very good means. As to their identity, it remains a mystery, other than being found on their baggage showing they had come from Derbyshire in February last by the Express of Britain, and the man who is now in the hospital is Herbert Moody, but owing to his condition, the authorities are unable to get from him the name of his companion or the causes surrounding their being in this state.

PITTSBURG MEN WORRIED.

Grand Jury Investigating. Graft Charges Hand In Findings.
Pittsburg, Pa., March 19—The grand jury investigating the councilmanic graft charges handed their findings to Judge L. L. Davis late this afternoon and there are a lot of worried men in Pittsburg tonight. Judge Davis ordered the grand jury to reconvene tomorrow morning when he would instruct the members.

Released After Eight Years.

Peterboro, Ont., March 19—Alexander Sharpe, of Dumfries township, who was sentenced to 15 years in the Kingston penitentiary in 1901 for killing William Hull, also of Dumfries township, has been released from prison. Word to this effect was received by F. D. Kerr, barrister, today. Sharpe was convicted at the spring assizes at Toronto in 1901 by Mr. Justice Lacombe. Sharpe had accused Hull of having stolen his wife and fired on him at close range with a rifle, killing him instantly.

STUCK FAST TO THE FERRY.

Refused to Answer Questions of Immigration Agents at Windsor and Detroit and Was Kept on Move.

Windsor, Mar. 20—Because he objected to acknowledging his identity, and declined to state whether he possessed sufficient funds to make him eligible to enter Canada, Francis Pettigall, a member of a notorious brood, spent several hours on the Detroit river yesterday. Mr. Pettigall, who is known as the Christian Brothers, and is known as Brother Francisco, was on his way from Cincinnati to Chatham to enter a retreat, but was detained by the Canadian border customs, and when a Canadian customs officer demanded particulars as to his financial standing, he refused to answer what he termed impertinent questions. As a result he was not permitted to put his foot on Canadian soil, but was turned back on the car ferry to Detroit. There he encountered more trouble, because he insisted that the river was his property, and that he was entitled to a bank roll of several hundred dollars and was a prominent member of his order.

CONFER ON BALKAN PROBLEM.

Settlement on Points in Dispute. Martial Spirit is Relaxing.
London, March 20—The Italian programme for a projected conference to solve the acute Balkan problem, comprising four points, and it is said to be in perfect health, and his conversation was full of humor and animation. Senator Castro brought any idea of seeking to renew a revolution or even of encouraging his party in Venezuela to do so. He said he cared too much for his native land to stir up discord there. He said he did not regret having left Venezuela, if he had stayed, he doubted he would have lost not only Venezuela but his life, which Professor Israel had saved. Senator Castro is said to be in perfect health, and his conversation was full of humor and animation.

C.P.R. EXONERATED.

Officials Not Held Responsible For Montreal Station Disaster.
Montreal, Que., March 21—A coroner's jury on Saturday exonerated the Canadian Pacific Railway and its employees from criminal negligence in connection with the disaster last Wednesday, when four lives were lost. For the first time the exact cause of the unique accident was brought out, by H. H. Vaughan, assistant to the vice-president, who stated that the engine, which had been broken a short time before, and the brake removed. This caused the engine to tip over slightly, and an extra turch brought the firebox against the driving wheel, which snapped off at the washout plug, driving a mass of scalding steam and water into the cab.

Balkan Situation Hopeful.

Vienna, March 20—The Balkan situation is considered more hopeful tonight. The Emperor expressed his belief that peace would be maintained, and in the lower House the minister for the defence again denied that he returned the engine and put emergency brakes before jumping. He considered that the engine had not been applied 1,000 feet from the mishap and got down to try to fix it. Then he suddenly encountered the rush of scalding vapor, probably inhaled some and staggered back, either falling off the engine or jumping. It was also shown that the brakes had been applied about 50 miles an hour, but the break on the engine presented him with a runaway train, which was going at about 50 miles an hour, but the break on the engine presented him with a runaway train, which was going at about 50 miles an hour, but the break on the engine presented him with a runaway train, which was going at about 50 miles an hour.

DEGENERATES MUST GO.

Medical Men Advised to Eliminate the Unfit and Prevent Procreation.
New York, Mar. 20—That real race improvement and the elimination of the unfit are coming to be considered by medical men as their duty was the keynote of the address of Dr. Woods Hutchinson to the Alumni of the University of Michigan at the dinner to the retiring president of that institution, James B. Angell, in the Hotel Astor last night. "The medical profession," the physician asserted, "is beginning to take a greater interest in the health of the community and less in the cases of individual illness." "Dr. Hutchinson said his colleagues want to take charge of criminal degenerates and prevent their perpetuation of unfit types. By curing infectious diseases the speaker stated, and thus cutting off nature's process of elimination, the profession has been accused of promoting the survival of the unfit." "We are beginning to feel," Dr. Hutchinson ended, "that it is our duty to promote the elimination of unfit to real race improvement and to elevate the physical, mental and moral standards of the nation."

HAS OUTLIVED ITS DAY.

Goldwin Smith Writes on House of Lords Reform.
New York, Mar. 19—The Sun has received the following cable despatch from London: Goldwin Smith writes a trenchant letter to the Spectator against the proposed reform of the House of Lords. He says in part: "The hereditary principles as a foundation for legislation and government is surely dead. The relic of it in the succession to the crown is merely formal. The action of hereditary privilege as a survival has naturally and inevitably been an obstruction of progress which probably in the end increases the violence of the movement and in one memorable case that of the reform bill, almost chafed it into revolution. Boswell thought he could justly the Lords to veto negro emancipation. The Lords saved the integrity of the United Kingdom by throwing out Gladstone's disincorporation bill, but that measure must have been thrown out by the Commons if they had not known that it was sure to be thrown out by the Lords." "May heaven send you a leader, putting together the political, social, and the social agitation and the disturbance of religious belief, it seems that you may presently have need of a wise and powerful leadership which is looking over the list of the party council and am thinking that it contains the elements of good in the Upper House."

Death in a Well.

Moosomin, Sask., March 19—While digging a well on his farm, Jas. Mills was precipitated about 40 feet into a man named Perry, a Welshman, 45 years of age and single, died an hour after the rescue.

DETAIL OF CHANGES IN NEW AMERICAN TARIFF

Resume of the Bill Introduced in the House of Representatives Last Week, in Which Duties Are Materially Reduced in Various Commodities.

Washington, March 21—Downward revision, maximum and minimum provisions which impose an average maximum duty twenty per cent, in excess of the present tariff, and numerous provisions by which it is estimated that the revenue to the government will be increased from forty to fifty million dollars, are the chief features of the new tariff bill which was introduced in the House yesterday. The bill is estimated to reduce the revenue to the government by \$40,000,000 to reimburse the treasury for the original average rate of the canal, and re-enacts the provision for the issue of treasury certificates, the amount being increased from one hundred million dollars to two hundred and fifty million dollars. While there is no duty upon coffee, tea is taxed eight cents when imported from the country where it is produced and nine cents when from other than the producing country. The internal revenue tax on cigars is materially increased, while the tax on beer and whisky is undisturbed. A cut of fifty per cent, is made in the steel and lumber schedules. Hides, tallow, cottonseed oil and works of art more than 20 years old are placed on the free list. The tariff on books and shoes is reduced 40 per cent., and on other leather manufactures in proportion. The pottery schedule remains about the same, but the duties on windows and plate glass of the smaller sizes are increased, while the duties on the larger sizes are reduced. The duty on wool of first and second class, used principally in clothing, is not disturbed, but the duty on the third class, known as carpet wool, is reduced to the cheaper grades. Five cent reduction is made in the duties on shoddy, while the duties on wool are assessed six cent a pound more than the duty on coarse wool, which is reduced to the same rate. The recommendations for placing wool pulp on the free list and reduction in the tariff on books and shoes are certain restrictions on print paper, with the committee of the House, are incorporated in the bill. The duty on refined sugar is reduced five one-hundredths of a cent a pound and on dextrin one-half cent a pound.

Child Drowned in Well.

Belleville, Ont., March 20—David Brooks, the three-year-old son of Samuel Brooks, clothing merchant, was missed yesterday afternoon. This morning his body was found in an unbroken cask in the well of the Albion Hotel.

Fatal Gangway Collapse.

London, March 20—Three men killed and forty seriously injured in the result of the collapse of a gangway at Barrow-in-Furness. The gangway, known as the new Drednought when the gangway fell. The larger number were thrown into the water.

To the Farmers

Do you want a well on your property? If you do, I have an up-to-date well drilling outfit, that will enable me to go through quick sand or any kind of hard formation, such as sandstone, shale, slate, coal or gravel. Write or call on R. E. PATTERSON, 225 McCauley St., Edmonton, Alta.

Sheriff's Sale

Province of Alberta
To Wit:

Big Farm Sale!

Look Out for Mr. A. E. Putnam's Big Sale on April 7.
C. H. WEBBER, Auctioneer.

FIFTY MILE AERODROME.

Captures Trophy For Heavier Than Air Flying Machines.

Sydney, N. S., March 20—According to the rules governing the scientific American cup for heavier than air machines the aerodrome, Silver Dart, captured the trophy today at Baddeck. The Silver Dart despite adverse conditions made several splendid performances. Mr. McCurdy, the aviator, succeeded in accomplishing the most sensational flight of his career. A puffing wind varying from eight to fourteen miles an hour prevailed, making it extremely difficult for the navigator to control his craft. But Mr. McCurdy was determined to out after the record made last July at Hammondspoint by Glenn H. Curtiss with the June Bug, but finally got away with a good start over the eight mile measured course, which he navigated successfully, flying 10 miles. Dr. Bell said after the flight, that it would not exceed his expectations should the Dart make a flight of fifty miles any time she is sent up.

OUT-INGERSOLLED INGERSOLL.

Rev. Dr. Jackson Replies to the Strictures of Rev. Dr. Carlson.
Toronto, March 21—To a gathering of men which filled the great auditorium at Sherbourne street Methodist Church, Rev. George Jackson spoke this afternoon on the question, "Does the Old Testament contain Divine revelation," which commended a series of addresses on the Old Testament interpretation. Rev. Mr. Jackson said that a heated controversy had unfortunately arisen. Some things had been said which one would hope would be speedily forgotten. His hearers had been warned against him as a preacher whose public teachings were unchristian, that he had out-ingersolled Ingersoll. To such statements, his only answer would be silence. But there were others whose hearts may have been turned which he would do anything in his power to correct.

FARMERS—DO YOU REALIZE THE value of a record of each crop for each year for ten years and in one book? Nothing like an account with each crop. You can't stop any more. Save the farm. Expenses of the household are many, you will know where you are at. Know what your stock and poultry brings every year and what it costs to keep them. Every farmer should
