The House went into Committee on Ways and Means, and the Minister of Finance and Customs delivered the Budget Speech. He expects a surplus of \$250,000 on a revenue of \$5,250,000.

9. Surgical and dental instruments, etc., 25 per cent.

10. Pressed nails, spoked spikes, galvanized nails and spoked, 3/4 of a cent a pound instead of 1 cent as at present.

11. New machinery for pulp companies, which cannot be locally manufactured, to be free; thus placing all concerns on the same basis as the Harmsworth Company.

19. Purchases in other lands of personal effects by travellers to be limited to \$50.00 for free entry.

20. Drawback of one-third of duty paid upon oil used in local manufacture of oil clothes.

21. Duty on wheels to be 25 per cent. instead of one dollar and twenty per cent.

22. Excise duty on cigars, locally manufactured, of 50 cents a pound.

Mr. Kent was gratified that the era of prosperity which had marked the Bond administration was continuing, and congratulated the Ministry on the handsome legacy the present Government had received from the late administration.

The Firemen's Qualification Bill was read a first time.

Some progress was made in Com-

mittee on the Model Farm Bill. A discussion took place between Mr. Clift and the Premier on the abandonment of the policy of the late Government.

The Minister of Justice reported the Election Bill from the Select Committee.

The House adjourned till 3 p.m. to-day.

### THE VALUE OF TURPENTINE.

When all else fails the physician recommends his weakly patient to take a trip to the turpentine groves as a cure for throat and lung troubles.

The turpentine of commerce cannot very well be used but by extracting this ingredient from gums and by adding linseed Dr. Chase succeeded in getting up the most effective treatment for throat and lung troubles that was ever discovered. It is known as Dr. Chase's Syrup of Linseed and Turpentine.

### Woman's Suffrage.

"Should women be allowed to vote?" was the subject debated at the C. A. A. rooms last night, Mr. Noe-worthy in the chair. The speakers on the affirmative side were H. Young, A. Mews and B. Cross, and on the negative side, W. Butt, E. V. Wylie and E. Lindsay.

The debate was very interesting and strong and cogent arguments were put forth on each side. The affirmative on the vote being put with a good majority. The others who took part in the debate were Hon. H. J. B. Woods, Messrs. Parkins, Soper, Grimes, Bradley and Mews.

### Visits Schools.

Yesterday morning at 11 o'clock His Excellency Sir Ralph Williams accompanied by Miss Dean and Private Secretary Fitzherbert visited St. Patrick's Hall Schools. His Grace Archbishop Howley and Messrs. J. M. Kent, J. L. Slattery, V. P. Burke, W. J. Higgins and W. S. Dunphy, of the Benevolent Irish Society, received the Vice-Royal party. Each class room in these excellent schools was visited by His Excellency and suite and they were most favourably impressed. His Excellency also favourably commented on the excellence of the commercial training given the lads, and was surprised by the intelligence displayed by the lads of the junior classes. The manual training department was also visited and the boys who were at work there gave exhibitions of their handicraft. The 600 boys of the schools assembled in the big billiard room of the hall and were addressed by His Excellency in an earnest and appreciative manner. His Grace also addressed the lads. Some fine choruses were given by the singing class under Prof. Hutton.

## Mr. H. F. Shortis' Lecture Last Night.

There was a very large audience at the T. A. Hall last night to hear the lecture delivered by Mr. H. F. Shortis on "Conception Bay." The gallery and pit were filled as well as the front seats, in fact the crush was so great that many had to stand. Mr. Shortis took his audience right around Conception Bay and gave some interesting extracts from the historical records of Cupids, Brigus, Carbonear and Harbour Grace. Mr. Shortis has the great advantage of not being confined to historical records, and drew on a fund of tradition which he seems to have had to himself. No other has heard those incidents and let them in through one ear and out through the other, but Mr. Shortis has kept them on the records of his very retentive memory and now draws from the rich store at will for the information and edification of the present generation. Mr. Shortis has shown by his masterly effort last night that he possesses a greater fund of valuable historical information than any man in the county who has ever lectured in our city halls in modern times. The description of the heroic days of old at his native town, Harbour Grace, and particularly at Carbonear sulland, was a subject that raised the lecturer to the highest flight of eloquence. The brave resistance of the three hundred men to the Frenchmen and the successful resistance of the attack was a splendid piece of word painting. The old R. C. Cathedral, a beautiful gem of architecture, destroyed by a fire in 1889, enlisted the best description and sympathetic talents of the lecturer. The generosity of the Harbans and others who gave the site of the church, the edifice was built was particularly referred to. The description was enhanced by photos showing the interior and exterior of the church. The glory of the old sealing days was descended upon, and the great families who built up Conception Bay in the olden days were mentioned. Mr. Shortis, and the unknown ability of the men of these heroic days kept the audience in a pleasant mood. We regret that space will not allow us to do justice to this brilliant and eloquent historical effort.

## Indigestion is Ended Forever.

No Heartburn, Gas, Dyspepsia or Headache five minutes later.

Nothing will remain undigested or sour on your stomach if you take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all you can eat.

Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, Belching, Gas on Stomach, Heartburn, Headaches from stomach Nausea, Bad Breath, Water Brash and a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapiesin you could always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or Sleepless nights or Headache or Stomach misery all the next day; and, besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Papa's Diapiesin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of Indigestion or Dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the stomach or to cure a Stomach Headache.

You couldn't keep a handier or more useful article in the house.

## Legislative Council.

Yesterday the Woolen Bounty Bill, the Municipal Regulations Bill and the Game Board Bill were read a third time. In Committee the Fishermen's Home Bill went through but a discussion on the Dental Bill brought out differences on which the committee will sit again. The St. John's Municipal Bill, the Loan Bill, the Labrador Steam Fishery Bill and the Law Society Bill were read a second time.

The Council meets to-day at 4 p.m.

## Firemen Meet.

An enthusiastic meeting of the city firemen, about 50 in all, attended a special meeting last night to take into consideration the proposed new treatment to one of their Union men. After some spirited discussion it was decided that if any steamer captain, or other person, should be guilty of an engine room already promised another fireman the Union would take cognizance of their conduct and act accordingly.

KIEL, Prussia, March 8.—The recently contemplated battleship Posen, one of the four Dreadnoughts about to be added to the German navy, was damaged by fire yesterday, and her first trial trip which had been set for Saturday will be delayed several weeks while repairs are being made. The fire originated among the woodwork and gave to the otherwise empty magazine, and burned so fiercely that it heated the steel walls red hot, causing them to bend and permitting the flames to spread to the woodwork of the adjoining compartments. The hold was filled with smoke, making the work of the firemen difficult. The Kiel shipyard flooded the vessel and extinguished the fire after three hours hard work. A lamp which had been left in the magazine was responsible for the accident.
