

## Dinner to the Visitors.

His Grace the Archbishop gave a dinner last evening in the Episcopal Library to the visitors, the Monsignor and priests in town attending the consecration. The event was especially in honor of His Lordship Bishop Power, who was seated at his right. His Excellency Monsignor St. John, Papal Delegate, Bishop March, of Harbor Grace; Rt. Rev. Monsignor Roche, Rt. Rev. Monsignor Welch, Monsignor Brown, Monsignor Beardon and about 50 priests, including Rev. Dr. McPherson, Rev. Dr. Thompson, Rev. Fr. McAdam and Rev. Fr. McKenzie, the visiting priests from the Diocese of Antigonish were present. The only toast was that of "Bishop Power," proposed by His Grace the Archbishop.

## Welcome and Farewell

The ladies representative of the Missionary societies of the city Methodist churches held an "At Home" yesterday, welcoming Mrs. Rodgers and daughter to Gower St. Parsons, and taking leave of Mrs. Pineson, who will soon resume her mission work in China. The affair was held on the beautiful grounds surrounding the residence of Mr. C. H. Hutchins, LeMarchant Road, and a very enjoyable time was spent by the many who participated. The devotional exercises were hearty, pleasing conversation was indulged in and refreshments were served on the lawn.

## To-Day's Marathon.

The Marathon in connection with the Mount Cashel garden party will start at 2 p.m. to-day from the C. L. Amory on Harvey Road and will finish at St. George's Field. The entries for the race are E. Way, J. Kenworthy, E. Robertson, R. A. Parsons, W. Tucker, W. Newborough, R. Chate, E. Hilmore, W. Lever, J. Ball, E. Bailey, H. Clinton, S. Kendrick, J. Green, A. Wheeler, W. Sullivan, J. St. Clair, T. Ring and J. Kavanagh.

## One-Sided Criticism.

Editor Evening Telegram: Dear Sir:—In this morning's News a most one-sided criticism of the anti-union movement is given. The Daily Telegraph supports the unionists and severely denounces the insult offered the Premier yesterday as a disgusting exhibition of bad temper and worse manners. The Post, Standard and other Unionist organs, representing the insurgent side, however, exhibit not the slightest compunction; instead they attack Asquith in most bitter terms as an unscrupulous political adventurer, for what they describe as shameful abuse of his powers in obtaining the King's consent to create Peers. Evidence accumulates of increasing strength in the insurgent movement, many letters from peers, members of House of Commons and others, advocating no surrender policy, appear in the papers this morning. It is learned that Balfour's meeting has been postponed because the committee in charge have been unable to agree on the terms of motion to be submitted at meeting. On the other hand, organizers of a banquet to Lord Halsbury are so overwhelmed with applications for tickets that they have been compelled to engage a larger hall, capable of seating 700 guests. Austin Chamberlain's promise to attend the dinner has greatly strengthened the insurgent movement. The crisis is causing general disorganization of political and social engagements, even the King has postponed his intended visit. The Times says the gravity of the crisis cannot be exaggerated. There is no doubt that Balfour is in absolute agreement with Lansdowne, and will take early opportunity of making public announcement; but, continues the Times, in best informed Unionist circles it is now feared that the creation of Peers can scarcely be avoided, unless there is marked change of opinion within the next few days. It is estimated, says the Times, that 129 Peers will support Earl Halsbury, and it is now expected when the Bill comes before the Lords again that Lansdowne and his supporters will abstain from voting, in which case the Bill would be rejected, unless sufficient Peers have already been created.

## Cable News.

Special Evening Telegram.

LONDON, July 25. Lansdowne has sent a circular to all Unionist Peers asking whether they are prepared to support him, and up to date one hundred and nine have replied in the affirmative. Londonderry, in a letter to the press, urges his party to support Lansdowne, on the ground that acceptance of the parliamentary bill would still leave the Lords power to delay the Home Rule Bill for two years, while if the Peers were created wholesale, an Irish parliament might be established in Dublin next year, and if once established could not be abolished without difficulty and danger. The Daily Telegraph supports Lansdowne and severely denounces the insult offered the Premier yesterday as a disgusting exhibition of bad temper and worse manners. The Post, Standard and other Unionist organs, representing the insurgent side, however, exhibit not the slightest compunction; instead they attack Asquith in most bitter terms as an unscrupulous political adventurer, for what they describe as shameful abuse of his powers in obtaining the King's consent to create Peers. ## Wedding Bells.

A pretty wedding took place at Ladle Cove at 5 p.m., on the 20th inst., when Mr. C. I. Winsor, of Wesleyville, cousin of Const. B. Mann of the Eastern District of St. John's, led to the altar Miss Mildred Welton, daughter of Mr. Thos. Welton, of Ladle Cove. The ceremony took place in the Methodist Church. The bride was dressed in white satin and orange blossoms, and carried a beautiful bouquet. Dr. C. Whiteway, cousin of the bride, was best man, and Miss Lizzie Winter assisted the bride. Miss Sadie Whiteway acted as flower girl. The bridegroom's present to the bride was an organ, a beautiful instrument, and to the bridesmaid and flower girl a birthday ring and gold pieces respectively. The bride and groom received many valuable presents, including a substantial cheque from firm of Bishop & Sons. A happy time was spent by many of the friends of both, who remain a week at Wesleyville after which they will come to St. John's and will reside in future at 15 Atlantic Avenue. The Telegram tenders its congratulations.

## Brothers Overboard.

About 7.30 p.m. yesterday two brothers who reside at the Battery and who were very much under the influence of drink, being scarcely able to stand, jumped into their boat at Balne Johnston's wharf to proceed home but toppled over together and went into the water. It was fortunate for them that Watchman Egan and one or two others were on the premises or the men would drown, as they could not help themselves. They were rescued after the utmost difficulty but still wanted to go home. Consts. Stamp and Tucker were called to the place and arrested both. On going to the lockup the saturated clothing was taken off the men and they were put in rugs in the cells while their apparel was drying. If they had gone down the harbor in their boat they would certainly have turned her over and been drowned.

## Another Fire Alarm.

Because some stage powder alight fell amongst the boughs on the arch at the foot of Casey Street at 10 o'clock last night, an alarm of fire was turned in from box 34, at the corner of Waldegrave and George Streets and brought the Western and Central men with their apparatus to the scene, though their services were not at all necessary. Thousands of people thronged New Gower Street in the neighborhood of the arch, and but that the firemen driving along exercised great caution, some persons might have been killed. Needless to say the firemen were disgusted to be called out under such circumstances.

ASK FOR MINARD'S AND TAKE NO OTHER.

Special to Evening Telegram. PORT AU PRINCE, Hayti, July 25. General Leonce reached Cape Haitien yesterday, and has been proclaimed Commander-in-Chief. In a resolution adopted by the great majority of revolutionary forces, an advance guard of the revolutionary army occupied Croix Des Bouquets, when revolting peasants ran down and murdered all former military leaders.

Special to Evening Telegram. BAY CITY, Mich., July 25. Last night a snow flurry occurred southwest of Bay City, being the only snow ever recorded during July in this part of the State.

## ADDRESS

To The Rt. Rev. Michael F. Power, D. D., Bishop of St. George's.

My Lord:—On this happy and auspicious occasion when you are the recipient of so many testimonials of affection and appreciation from all classes it is very fitting that your classmates in St. Francis Xavier's College should be accorded the privilege of extending to your Lordship their felicitations. We feel that no one will accuse us of exaggeration when we state our honest conviction that the joy and satisfaction which this happy occasion brings to all your friends, is shared in by your confederates of student days to an extent unsurpassed.

In your promotion to the Episcopate they have the supreme satisfaction of seeing their own appreciation of your sterling qualities confirmed by the approbation of the Holy Church. They have the additional gratification of holding their Venerable Alma Mater, the University of St. Francis Xavier, honored in the person of one of her most distinguished sons.

The good that has been accomplished by this illustrious seat of learning is too varied and extensive to be dwelt upon in so short a compass of words. Be it mentioned, however, that among its many achievements it has always regarded as the most noteworthy, the fact that it has rendered signal service to the advancement of God's Kingdom on earth. In its halls have been trained men who have distinguished themselves in every walk of life; men, famous in literature, in statecraft, Judges for the Bench and Bishops for the Pontifical Throne. Need we say that this last it reckons as its most glorious achievement? For, in a Bishop we behold not merely the dignity which the church bestows; he is a ruler in a higher Kingdom, one of whom Holy Writ assures us that God has placed him among the princes of His own people. The great mission to which God has called you, My Lord, the uplifting of faith and fatherland, calls for the heart of a prince in order to ensure its worthy fulfillment.

If, therefore, all the friends of your Alma Mater look upon this day as one of the brightest in the annals of its history how much greater reason have we, your classmates, to regard it with feelings of the deepest gratification, the day on which the first of their number has been elevated to the lofty dignity of the Episcopate.

Be pleased, therefore, My Lord, to accept this little token of our esteem and affection. The gold which it contains is but a feeble symbol of the earnest good wishes which every one of your classmates entertains, together with the fervent hope that God may bless you with a long, fruitful and glorious Episcopate.

## Football Fast Declining

The League Football Match which was the championship game of the season only brought as a gate the sum of \$22.55. This year has witnessed a great decadence in the interest of the public in the game which is dying out in public favour just as surely as cricket but far more quickly. A few years ago \$100 would not be considered a big gate for a championship match.

## Thrilling Ten Minutes' Hardship.

The hardest 10 minutes work that any person will do will be to row down and up Quidi Vidi Lake on Regatta Day. If you have used Stafford's Liniment while training, for this you will find the strain a great deal lighter. This Liniment not only softens the muscles of the arms, legs, body, back, etc., but invigorates the whole system entirely and makes one feel twice as strong. Now, boys, don't forget to obtain a bottle of this genuine Liniment. The price is within reach of everybody, and can be used freely without causing any great expense.

Sold everywhere. If not you can obtain same at STAFFORD'S PHARMACY, Duckworth St., and Medical Hall, Theatre Hill.

### Boy Shoots Woman.

Because an Auto Ran Over His Pet Bantam.

South Norwalk, Conn., July 20.—Miss Eva Hammond, of Coaticook, Que., lies to-day at the home of her uncle here with a bullet lodged against the base of her brain. Her body is paralyzed, and there is little hope that she will survive. She was shot while automobiling late yesterday, and William Beers, a 12 year old boy, is accused of having caused the injury. Young Beers told the police that a passing auto ran over his pet bantam hen a day or two ago and he had laid in ambush to revenge the death of his favorite with a small rifle in his hand. He hid in the bushes and determined to shoot a hole through the tire of every automobile that went by. This, he said, was his notion of revenge. Miss Hammond's car was the first to pass. She had attempted to hit the tire but the bullet glanced off and landed in the young woman's neck.

TEACHERS.—We are selling for a short time a large stock of Organs, Pianos and Musical Merchandise at cost and charges to admit of changes in business. No better opportunity ever offered to secure an instrument than this. See us early. Sale time is limited. CHESLEY WOODS.

### WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT. Diluted at first, then stronger as the sores began to look better, until after three weeks, the sores have healed, and best of all, the hair is growing well, and is NOT white as is most always the case in horse wounds. WEYMOUTH. F. M. DOUCET.

### Exchanged a Lower

For An Upper Berth in Pullman, and Left \$20,000.

Atlanta, Ga., July 20.—A courteous act on the part of Wm. R. O'Neill, of Bainbridge, Ga., has been rewarded by a fortune. When O'Neill exchanged a lower for an upper sleeping berth with J. T. Young, of Oakland, California, four years ago, when the two men were en route to Florida, where Mr. Young was going for his health, he thought little of the incident. Evidently Mr. Young considered it a great favor, for in his will he left \$20,000 to the Georgia young man, who is 26 years old. O'Neill was in Atlanta yesterday, and was informed of his good fortune by a son of Mr. Young, who had come to Georgia to look for him.

### Public Smoking to Go.

Will Become Obsolete Within Next Twelve Years, Says Dr. Wiley.

Washington, July 15.—Dr. Harvey W. Wiley, the Government pure food and drug expert, has joined the Non-Smokers of America, an organization whose object is to discourage smoking in public. "I predict that within twelve years smoking and tobacco chewing in public will have become obsolete," said Dr. Wiley to-day. "A man has a perfect right to drink, chew or dip snuff in his private sanatorium, but he has not the shadow of a right to inflict unwholesome smoke and his vile breath on the community at large." "There should be a strictly enforced law prohibiting smoking and chewing in public places or on the cars where other persons are obliged to be."

### Freezing Milk in Blocks

New Haven Dealers Experimenting to Guard Against Short Supplies.

New Haven, Conn., July 13.—As a result of the present scarcity of milk, experiments in freezing it are being tried in this city, with a view to providing a supply when delivery is slow. The plan is to freeze the milk into blocks of 250 and 300 pounds, which may be used as necessary. At the present time milk dealers must depend solely on the daily output from dairy farms and are unable to allow for any sudden increase in demand or falling off in supply.

### Psoriasis 'All Over Body

Most dreaded of skin diseases was cured by Dr. Chase's Ointment.

Psoriasis is a sort of chronic eczema. The itching it causes is almost beyond human endurance, and it is usually considered incurable. But this case proves that Dr. Chase's Ointment is a cure, in spite of the doctor's prediction. Mrs. Nettie Massey, Conneaut, Ont., writes:—"For five years I suffered with what three doctors called psoriasis. They could not help me and one of them told me if any one offered to guarantee a cure for \$50.00 to keep my money as I could not be cured. The disease spread all over me, even on my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment, and I am glad to say I am entirely cured, not a sign of a sore to be seen. I can hardly praise this ointment enough." Dr. Chase's Ointment, 60 cts. a box, all dealers or Edmanston, Bates & Co., Toronto.

## Newfoundland-er's Sad Death.

About six weeks ago Mr. John Wall, of Harbor Main, a fine, energetic young chap arrived here to see his parents after 13 years spent in mining near Butte City, Montana. He remained a couple of weeks at Harbor Main and in St. John's and then left for Cobalt to try his luck. He was very successful at Butte and made a good deal of money, sending his parents all along regular remittances. Last week his parents had a reminder of their son's goodness, but a few days after received the sad news that he was killed in the recent mining horror there, being entombed with a number of others when the forest fire raged the country, his life being sacrificed in the terrible calamity. A chum, a native of Antigonish, who worked with him at Butte City, accompanied the deceased to Cobalt, and narrowly escaped the fate which overtook poor Wall. From him the authorities learned of the whereabouts of his parents. He was the only son and his parents are inconsolable. He leaves three sisters, two of whom reside in Harbor Main and one Mrs. Thomas Pope, who lives on Barter's Hill, this city. To the sorrowing family the Telegram extends its condolence.

We notice that T. A. Macnab & Co. are offering another shipment of choice currants in package and loose. This firm are very large importers of dried fruits.—July 24, 11

## Collegians Are the Champions.

The postponed match between the Collegians and Casuals was played yesterday evening on St. George's Field, when the former won the championship for 1911 by defeating the Casuals by 3 goals to nil.

Casuals won the toss and played the western goal with a good breeze behind them. At the start the Casuals became aggressive and were several minutes on Collegians' goal, secured a fruitless corner and had a couple of tries for goal. Miller, Shortall, Herder and others had shots for goal for the Casuals but the shooting was erratic and nothing came of it. Retributing the Casuals' aim now had a try for goal. Fenwick's kick, a good shot into too wide, when soon after the Collegians got west and Noonan made a good attempt to score for them. The Casuals now worked hard and made several good attempts at scoring, but the goal tender and Collegian backs were hard to beat. Soon after the Collegians got a penalty kick which the Casual goal keeper handed out, but in a scrimmage opposite goal the ball was knocked in and No. 1 notched up for the Collegians. Soon after Fenwick got a chance and scored No. 2 for Collegians. Then a penalty was awarded Casuals but was kicked too wide by Herder and nothing came of it. The teams crossed: Collegians, 2 goals; Casuals, 0.

## HALF TIME.

There was strenuous play all through this half, the Collegians had the best of the game, but the Casuals, were in hard luck and seemed unable to score no matter how matters went. They secured 3 corners in succession but nothing came of them; when soon after Pike availed of a chance and scored No. 3 for the Collegians, the game ended: Collegians, 3 goals; Casuals, 0.

## Found Drowned

Lunenburg, July 20.—The six year old son of George Mosher was found drowned near a fish house on the harbor this afternoon. The boy was fishing from the platform about the fish house, and was noticed by two boys. A few minutes later he was missed and a search showed the dead body lying in a little water near the shore.

North Sydney, July 20.—A fatal accident occurred at Sydney Mines at 1.30 this morning, the victim being John McIntyre, a resident of the Cranberry District. McIntyre was lying across the track at a point known as the hollow, when the two o'clock workman's train bound to No. 1 Colliery passed over him, severing his legs just above the ankles. He lived only twenty minutes after the accident. He was twenty-five years of age and was a son of the late Donald McIntyre of Cranberry.
