The homely Suet Pudding, or the Dumplings for the Stew are lightest when raised with

"Paisley Flour"

The SURE raising powder.

The most digestible and enjoyable suet puddings are made by adding one part of "Paisley Flour" to eight parts of ordinary flour before mixing the dough. Steaming instead of boiling also helps to make puddings lighter.

"Paisley Flour" mixed 1 part to 12 of ordinary flour, makes delicious light piecrusts and plain pastry for tarts—no doughiness.

"Paisley Flour" is packed in 22c., 14c. and 5c. tins.
The 22c. tin contains 14 ozs. and will raise half a stone of flour.
" 14c. " 7 ozs. " 3 1/2 pounds of flour.
" 5c. " 2 ozs. " 1 "

The Tale of Perfect Time in a Watch

From Misapprehension to Misapprehension, between them lies the secret.
The Mainpring is the power which it transmits to the active parts of the watch. The Mainpring has the control and regulates the motion. The lifting is most delicate; it is a hair, impossible to break. Yet it is so strong that it is not interfered with in its performance, so wonderful is its adjustment. The friction from accumulating dirt; lack of oil, etc., destroy these perfect fittings. Do not let your watch run to ruin from neglect. Remember our business is the care of watches, and our opinion counts nothing.
