### THE ROOF

Is the most important part of a house. No matter what your house cost, it is all thrown away if the roof is leaky. Don't be Penny wise and Pound foolish. Quit using Felt.

### Certain-teed Roofing

### Patriotic Dance.

A grand dancing assembly will be held in the C.C.C. hall on next Tuesday night, the proceeds to be devoted to the Red Cross Fund. Elaborate arrangements for the event are now being made by Privates Gordon Green and James Tobin, two Gallipoli heroes who are home on sick furlough and who so well recognize and highly appreciate the valuable and self-sacrificing work of the noble band of Red Cross workers. The C.C.C. band will supply the music on the occasion and are now preparing new selections. Apart from the worthy object of the affair we are safe in promising those who attend a very enjoyable time. We trust, however, that the efforts of the promoters of the dance will be attended with a full measure of success.

### McMurdo's Store News

WEDNESDAY, June 21, 1916. At this time of year, nothing is more refreshing than a thorough shampoo. Shampooing takes the dust and dandruff out of the hair, and leaves the skin of the head cool and fresh. One of the best shampooing mixtures is the Palmolive Shampoo, which is always ready for instant use, gives a remarkably white and thick lather, and has exceptional cleansing qualities. Large bottle 60 cents. We have just opened a splendid line of Vacuum Bottles—the Univorsal. These bottles are of good manufacture and will give full satisfaction.

### Arrested for Theft.

Last night a young man named Hollett, of 29 Summer, was landed in the toils by Detective Byrne for larceny. Hollett has had a falling out with work, bears an unenviable reputation in police circles and is capable of "lifting" anything from a needle to an anchor. Not long since he was discharged from the Penitentiary, after serving a term of a year and a half, having been convicted of a series of burglaries and larcenies. The night before last he boarded a vessel lying at an east end waterfront premises and made "love" to a couple of suits of clothes, and in fact everything that he could lay hands on belonging to the crew. Hollett was seen going ashore and a description of him was given to Detective Byrne, who, with typical promptness, rounded up Hollett and the "goods."

### St Bon's Will Clash With St. Andrew's.

The next football match, the second of the series, will take place on St. George's Field, to-morrow evening when the St. Andrew's and St. Bon's will try conclusions. Both teams, we hear, have strong combinations and are well practised so that a lively exhibition may be anticipated. The exact personnel of the sides is not yet decided on.

### Rev. Dr. Foley's Clarion Reminder

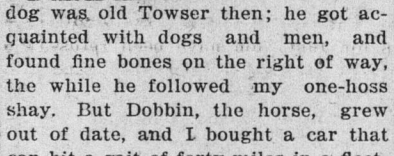

A Clear Call to Women of St. Mary's Parish to Patriotic Service to the Exclusion of Selfish Pleasure.

Preaching yesterday in St. Mary's cathedral Dr. Foley, the rector in a sermon which deeply impressed those who heard it, uttered a clear call to the women of the parish to patriotic service to the complete exclusion of merely selfish pleasure. He spoke eloquently of the gravity of the times when every day comes news from overseas which may well make the most superficial pause and ask herself—"What can I do to help? How can I serve our common cause?" Reference was made to the terrible news of the past week and to the fact that everywhere one turns the sob of the mourner is heard, the face of the sorrowful seen. Then how dare women in the face of it all go lightly on frittering away their time in social pleasures, crowding the theatres bent purely on "killing time" and amusement.

There is work—work demanding the prayer, the thought, the energy of every woman in the city, the province the Dominion.—Halifax Mail June 20.

### TOWSER.

I drove a horse for a long, long time; through the summer dust and the winter rime I jogged along in my one-hoss shay, and never dreamed that a better way of locomotion I ever would find, and Towser trotted a 1 o n g behind. A happy dog was old Towser then; he got acquainted with dogs and men, and found fine bones on the right of way, the while he followed my one-hoss shay. But Dobbin, the horse, grew out of date, and I bought a car that can hit a gait of forty miles in a fleeting hour, a thing that throbs with resistless power. Old Towser followed the car one day, as I scorched the road on my towardward way; he kept in sight for three parasangs, and then he muttered some bow-wow dangs, and sneaked back home with a broken heart, and died the death 'neath a one-hoss cart. Alas, old dog, 'twas a bitter end, for one that long was a faithful friend, but the world moves on, and that dog must fade that is too slow for the great parade; must lay him down 'neath the buttercup—and it's true of men, just as well as pups.

BARRECKS FIRE-PROOF.—At the Volunteers' Headquarters there is little danger of an outbreak of fire, owing to the excellent protection that is there. Every night a fire picket is on duty at the barracks and with the new water system recently installed and all the necessary equipment on hand there is little cause for alarm.

## War News.

### Messages Received Previous to 9 A.M.

### ST. PIERRE BULLETIN.

PARIS, June 20.  
On the right bank of the Meuse the Germans attacked three times our positions northwest of Hill 331. All their attempts were shattered by our machine-gun and curtain fires. Heavy bombardment in Vaux, Chapitee Wood District, and also in Chattancourt sector on the left bank of the Meuse. In Vosges a German raid on an advanced sap of Michelbach district, south of Thann, failed.

### RUSSIAN TROOPS CROSS THE SERETH.

LONDON, June 20.  
A Russian semi-official reports that General Pfansen's army has been cut in two and is in precipitate retreat. This seems to be borne out by a Russian official statement that the Russian troops have crossed the Sereth.

### MORE REPRISALS.

LONDON, June 20.  
The policy of a ship for a ship was advocated at a meeting of the London Chamber of Commerce to-day. It was advocated, despite the provisions of international law, that enemy steamers in the possession of the Allies should be held as hostage for damage to our shipping, thus offsetting any advantage otherwise accruing to

### NEWFOUNDLAND AFFAIRS DISCUSSED.

LONDON, June 20.  
Referring to his success in placing the 3 million dollars Newfoundland 3 year 5 p.c. gold bonds in New York, before sailing for this side, Sir Edward Morris, Premier of the Colony, said that the terms were very satisfactory. The Legislature had authorized payment of 5½ per cent. interest. Regarding Newfoundland's attitude toward the past war problems, Sir Edward declared that the Colony will be ready to fall into line with any general policy for unification and solidifying of the Empire from the standpoint of trade and defence. During his stay of several weeks in this country, Sir Edward will visit the colony's contingent on the western front, as well as the one in training in Scotland. Newfoundland was making a special effort to raise more men for the Naval Reserve in order to replace some of the losses in the Jutland fight. The Premier expressed pride in the fact that Newfoundland for the past quarter century contributed voluntarily to Imperial defence by training Naval Reservists, the vote for this purpose in the legislature invariably being unanimous. The loan just raised will be applied partly to paying advances made by the British Government, covering the Island Colony's war expenses, and partly in completing the Government's railway programme.

### NO IMPORTANT EVENT.

PARIS, June 20.  
The War Office communication issued this evening, says there has been no important event worthy of mention on the entire front, with the exception of lively artillery fighting in the region south of Fort Vaux.

### EMPEROR PARDONS LONSDALE.

AMSTERDAM, June 20.  
The Frankfurter Zeitung says that the German Emperor has pardoned William Lonsdale, an English prisoner of war, who was recently sentenced to death by court martial, the sentence being later commuted to 15 years' imprisonment. Lonsdale was condemned by a court martial for an

### attack on the guard at the Dohertiz prison camp. The American Ambassador to Germany and the American Minister at the Hague used their good offices on behalf of Lonsdale.

### TURKISH GARRISON MUTINY.

NEW YORK, June 20.  
A despatch from London, to the New York Journal, says a Rome despatch states that travellers returning to the Italian capital from Levant report the mutiny of a Turkish garrison at Smyrna and almost the complete destruction of the city as a result.

### MINING AND ARTILLERY ACTIVITY.

LONDON, June 20.  
A British official issued this evening says the principal feature during the last twenty-four hours has been the mining activity combined with some bombardments by both sides. In Loos sector we exploded two enemy mines. Our mines are believed to have been fired with good effect against a hostile gallery. A hostile mine destroyed a short length of our trench last night. In the same sector our troops surprised and bombed a large hostile working party, inflicting numerous casualties. There also has been some artillery and trench mortar activity about Angres and Vimy. Otherwise the day passed quietly.

### FRENCH STEAMER SUNK.

NEW YORK, June 20.  
A Havre despatch to the New York Journal says that the French steamer St. Jacques has been sunk, but whether by a mine or submarine is not known. Most of the crew are missing. The St. Jacques was 1,338 tons, and was last reported as sailing from Lisbon for Rouen on May 13th.

### KAISER OFF FOR VERDUN.

LONDON, June 20.  
The German Emperor has left Berlin for the Verdun front, according to a Copenhagen despatch to the Daily Mail.

### THE PROVINCIAL ELECTIONS.

HALIFAX, June 20.  
The Provincial elections took place to-day, and the polling resulted in the return of 29 Liberals and 14 Conservatives. The Government majority in the House stands the same as before the election.

### Our Volunteers.

Activity continues in recruiting circles at headquarters and the men in training are fast becoming proficient in the various drills. Yesterday five more young men offered themselves for King and Empire. The name are:—  
H. L. James, St. John's  
Fred Chas. Picher, St. John's  
Thomas Murphy, Bell Island  
Geo. E. Fitzgerald, St. John's  
George Fraser, Grand Falls.

### Hoped to See His Brother.

SINCE KILLED IN ACTION.  
Relatives of Drummer Phley Richards, First Newfoundland Regiment now in France, received a letter by the last English mail, stating that he hoped in a few days to see his brother, Corporal Wm. Richards, of the 55th Battalion, Canadian C. E. F. Since writing the letter Corporal Richards has been killed in action. An account of his death appeared in this paper Monday, to which this letter adds a pathetic interest. It is not known whether the brothers met.

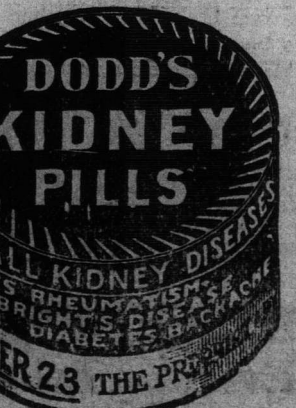

### An Illustrator.

We form but dim conceptions of the actual facts in perusing the daily reports of the titanic struggle now raging around Verdun. In this locality the French has lost 165,000 men on a front extending 13 miles. If it were possible to arrange that number of soldiers, in lines of six, with a marching distance of three feet between the ranks, they would reach from St. John's to Topsail! An imposing array, truly, but it is astounding to know that were we to illustrate in this manner the losses of the Germans, the line would in all probability extend past Holyrood!

### Bankers off Again.

Word has been received that practically all the South West Coast bankers have finished landing their first summer catch and have retired and left again for the Grand Banks on the second trip. All along the S. W. Coast the waters are teeming with caplin.
