

Special Alteration Notice

In order to facilitate extensive alterations which are to take place immediately in the Kodak Store, we beg to notify our many customers that for the next three or four months our business will be carried on in our Studio premises at 310 Water Street—5 doors east of the "Kodak" Store, where all orders will be received and carried out with the promptness and efficiency which is one of our special features. We may be a little cramped in our space for the time being, but we are still able to handle all the work as before—so bring along your developing and printing to the "Kodak" Studio, if you want it done quickly—and done well.

TOOTON'S The Kodak Studio
310 Water Street
Five Doors East of Kodak Store

A can of Beans costs15c.
A can of Fairly Good Beans costs20c.

It's really worth your while spending the extra 5 cents to discover the incomparable good quality of

Del Monte Baked Beans.

GET THEM FROM YOUR GROCER.

COLIN CAMPBELL, Limited.

All Veterans' Team.

The following cable was received from Halifax last night:
"Telegram" St. John's, N.F.
Visiting Hockey Team is not representing the G.W.V.A., Halifax, but a team using our name without authority. Please give full publicity.
G. R. McLEOD,
Vice-President.
J. F. BROWN,
Secy. Halifax Branch.

The "All Veterans" Team has never been named as representing the G.W.V.A. of Halifax. They are as their title implies "All Veterans," and need not necessarily have any official connection with the G.W.V.A., but are "Veterans" all the same. They comprise: Manager, Capt. G. McDonald, M.C.; Hurley, Goldie, Martin, Beazely, Wyatt, Eagles, Fraser, Stajton and Whelan. The Rosalind, by which ship the players are coming, is due at 3 o'clock this afternoon.

At the Majestic.

An all-Fox service comprised the show at the Majestic last evening. Peggy Hyland, in "Cheating Herself," a William Fox production, appeared on the Majestic screen for the first time, and it goes without saying that she scored in it. Peggy is the daughter of a wealthy, aristocratic gentleman who is out of sympathy with her ideas (put into her head by her father's secretary) on leading the "simple life." Entering into a conspiracy with the secretary, she attempts to steal her father's fortune for a while and thus give him a real taste of the "simple life." Unfortunately for her the scheme turns out—but see it to-night! In addition there is a comedy with Tom Mix in the lead. Mix is as good as comedian as he is a gunman—that's saying something. The show is worth seeing.

Old Resident

Heard From.

The many friends of Mr. and Mrs. Nils Ohman, will be greatly pleased to hear that both of them are enjoying excellent health. They live at Westmount, the suburban city of Montreal, with their son, who was a Lieutenant in the Royal Air Force during the war, and is now organizing a company for the establishment of an aerodrome at Westmount. Mr. Ohman has a splendid business, built up since he left St. John's about twenty years ago, during which time he has been domiciled in Westmount. A copy of the Evening Telegram containing the article "Scotchmen in Newfoundland" by Mr. H. F. Shorlis, revived memories of thirty years spent in the Dominion by Mr. Ohman, the recollections of which will never be effaced. Mr. Ohman is a Commissioner of the Superior Court District of Montreal.

Personal Mention.

Cyril J. O'Keefe, of the firm of O'Keefe Bros., has entered one of the best Hat cleaning establishments in Canada and is taking a course in Hat cleaning, drying and blocking. So that in addition to French dry cleaning, etc., O'Keefe Bros. will be in a position about April 1st to make new Hats out of your old ones.

The wedding of Mr. Bernard Norris, second son of Mr. Jas. Norris, of Three Arms, N.D.B., and Miss Alicia Fitzpatrick, daughter of Mrs. and the late Capt. T. Fitzpatrick, was to have taken place this afternoon, at 3 o'clock, in the Chapel of Our Lady of Good Counsel, Cathedral Square.

Mr. Joseph Peters received a cablegram yesterday advising him that his daughter, Helen Smith Peters, had graduated as a nurse, at the Montreal General Hospital. Miss Peters will practice in Montreal for some time before returning home.

Mr. W. Milley of Bishop and sons Hardware Department, arrived from New York and other cities, whither he had been on a business trip.

Mr. K. J. Menzies, English buyer for the same firm, reached the Old Country yesterday.

That Film on Teeth See How They Look Without It

All Statements Approved by High Dental Authorities

Free

A Ten-Day Tube of Pepsodent is sent to any interested person. Send the coupon for it. See for yourself what it does.

Watch Them Whiten
As the film disappears. You will know then what clean teeth mean.

Your teeth are not clean. You can feel a filmy film. Probably the film has dimmed them—some tartar may have formed.

Your present methods of brushing do not end film, and that is the teeth's great enemy. Now we ask you to try a new method—try it at our cost—and compare results.

Film Can Be Ended Now

Most tooth troubles are due to that film. It is film that discolors—not the teeth. It is the film of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. The film clings to the teeth, enters crevices and stays. Brushing does not end it. No ordinary tooth paste can dissolve it. Night and day it may do a serious damage. And millions find, as a result, that ordinary brushing does not save the teeth.

Now dental science, after many years, has found a film combatant. The facts have been proved by convincing clinical and laboratory tests. The method is today approved by leading dentists everywhere.

For home use this method is embodied in a dentifrice called Pepsodent. And we are mailing 10-Day Tubes to all who ask, to let everyone see its effects.

The Pepsin Method

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to dry by day combat it.

Science has found a harmless method of activating pepsin. The usual method is an acid harmful to the teeth. So pepsin long seemed barred.

Now pepsin can be constantly applied—can be left to its work between the teeth. Now you can every day combat this film in a simple, dainty way. Millions of teeth are being cleaned in this new way. You can see them everywhere—white, glistening teeth. Send this coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the filmy film. See how the teeth whiten as the film disappears. Learn what clean teeth mean—see how they look. Then decide for yourself between the old methods and the new. Cut out the coupon now.
