"Well, yes, it is," he answered.
"There may be a big accident in this vicinity some day, careful as the railway men are. There is a rule that trains may not leave a station within ten minutes of each other, but it is a rule more honored in the breach than in the observance. Still, what is a company to do? The traffic is there and it has to be handled. Few people have any idea of the enormous freight traffic over the line of the Grand Trunk. I was out past the Cove bridge on a recent Sunday, and within ten minutes four heavy freight trains went in, two of them double-headers. Less than ten minutes after the fourth had passed, the New York express came singing down the grade, going like a cannon ball.

"It probably will do so some time in the not-far distant future. Such a course would relieve the congestion of the traffic to some extent, but not so much as it would were the traffic not all one way. There is practically no freight run west out of London. For all western freight is sent over the main line, through Stratford. Doubletracking would merely relieve the line of its western passenger traffic and

allow freight to be hurried eastward with less delay." "The Grand Trunk has been steadily improving its lines in the matter of double-tracking, and from Montreal to Niagara Falls there is now as fine a piece of double-tracked roadbed as can be found in America. MRS. NATION IS INSANE! TRIO RECEIVED Breaks Down in Solitary Confinement in

Wichita Jail-Physicians Think She Will Recover With Rest. Wichita, Kap., April 30.-Mrs. Carrie Nation, the saloon wrecker, has broken down and is believed to be insane. The crisis in her condition followed a term of solitary confinement and the receipt of the news of her brother's death. It is thought by physicians

who have examined her that she will soon recover, but others believe that her case is hopeless. On Thursday Mrs. Nation had a fight with her friend, Mrs. Wilhoit, who was confinel in the same cell. accused Mrs. Wilhoit of being twofaced and said she was a spy of the saloon men to get evidence against her and that she cast evil spells upon her cause. Mrs. Nation slapped Mrs.

Wilhoit and pulled her nose. Sheriff Simmons was forced to place Mrs. Nation in solitary confinement in the rotary cell. She was also put on the bread and water diet.

On Saturday morning news here that her brother was dying at Lewisburg, and she was advised to accept bail at once and go to him. Jas. Ray, her attorney, and Wilburt Jones, her former bondsman, and best friend. visited the jail and asked to see her They explained the reasons she should accept bond.

Mrs. Nation stared at them, then burst into a hysteric tirade against them and said if she wanted to get out she could fly. This alarmed her friends, who summoned her physician. He stated that she was insane. Nation, her husband, was notified. Her condition improved during the day, and the physician expressed the belief that with quiet she would recover. She would not see anyone durng the day, but spent her time talking to herself about how she was running the world from her place in jail. She did not know the reporters who called, and this was considered a sure

sign of failing mind, as before she had greeted them cordially. Mrs. Nation was much better at night and accepted bail. She was allowed to leave the jail here on her own recognizance, to attend the fuTWENTY DAYS!
