Here are two cases reported by Mr. Skinner which tell of continued failure to cure indigestion by dosing the stomach. Both were cured thoroughly by using Dr. Chase's Kidney-Liver Pills.

Mr. A. C. Skinner, Atlantic street, Hardwoodhill, Sydney, C. B., writes: "My wife was troubled with indigestion and tried all sorts of medicines in vain. Hearing about Dr. Chase's Kidney-Liver Pills, I got her to try them, and to our great delight she was cured. We would not think of being without them in the house for use when the liver and bowels became sluggish.

"I told a friend about them and gave him a box. He had suffered from indigestion for years, and tried most overything he could get. Dr. Chase's Kidney-Liver Pills were also successful to his case, and he says they beat any medicine he sayer came scross."

The Naval Question.

As for the navy question, the Government, said Mr. White, had been so busy considering the bill of repairs to the existing navy that they had had no time to formulate and mature a naval programme. The late government deserved some credit for having taken up the question, but the way they had dealt with it was "not only not satisfactory to the people of Quebec, it was not satisfactory to the people of Ontario or any of the other Provinces. It was a source of great expense in peace, and absolutely useless in war." Mr. White announced that it was the intention of the Premier to consult the British admiralty, after which he would be question.

The attack upon the cabinet, he continued, had been carried fur-ther than he had been able to find any precedent for. "If there are dis-sensions in the cabinet," he said, "it is strange that none of the ministers have heard of them." Their deliber-

In concluding, Mr. Oliver declared that the rejection of reciprocity had meant a loss of \$12,000,000 to 'he farmers of the three wester, provinces. Dealing briefly with the naval question at the close, the ex-minister of the interior emphasized the fact that a time in the history of the empire graver than any hace the time of Napoleon I. found Canada represented by a Government which, though elected on a loyalty cry, was not only without a policy to aid in the defence of the empire, but, from its own admission, had no intention of having such a policy, at least for a year or two.
