## **Bible Society** Annual Meeting

Particulars of Work Done Dur-Ing the Year Nere and Abroad.

Election of Officers-Presentaion to be mude to the King.

The annual meeting of the British and Foreign Bible society was held in the Metropolitan Methodist church last evening. Mr. N. Shakespeare occupied the chair. In the course of his remarks he stated that the British and Foreign Bible society will present a Bible to the King at his coronation, His Majesty having consented to accept it. The election of officers resulted as follows:

President, N. Shakespeare; secretary-treasurer, Arthur Lee; executive committee, Mr. Price, C. T. Peuwell, Thornton Fell, Robert Rendall, George Carter, Wm. Scowcroft, Donald Fraser, The annual meeting of the British ton Fell, Robert Rendall, George Carter, Wm. Scowcroft, Donald Fraser, Leonard Tait, D. McLean, J. B. McKilligan, R. L. Drury, Arthur Lee, S. M. Okell, L. Leigh, N. B. Deanville, N. Shakespeare, J. McKenzie, Wm. Gregson, R. C. McRae, E. A. Jacob, R. S. Day, Chris. Spencer, D. Ballantyae and the pastors of the various churches represented.

MECHANIC OF EMPIRE LEAVE.

STORY OF THE PROPERTY OF THE PROPER

These are the local nicknames by which the two railways at present being constructed down into Republic camp are known up in the Boundary counter. Possibly some local prejudices are at the bottom of it all. However, the rivairy is very warm, and the story of the construction work of the nest sumrivalry is very warm, and the story of the construction work of the past sum-mer, if the stories coming down to the Coast be true, have been punc-tanted by rifles, shotguns, armed followers and sundry other alarm-ing items. At present, however, the fight has been transferred to the grave, quietude of the law courts, which an injunction has been granted which an injunction has been granted

restraining the Sure Thing people from pushing their road acress a farm, and another forbidding them to build over the Hot Air right of way. The grounds for these orders are said to be in part that the V. V. & E. charter is being always by the Great Northey. being abused by the Great Northern Railway company in building a short piece of road up in the Kettle River val-ley, instead of constructing a line, as the charter authorizes, from the Coast up to Kootenay. Certain irregularities regarding the filing of plans, the date of the beginning of construction, etc., are

also alleged.

This injunction has been appealed against, and a hearing of the appeal by the Full court has been set down for the 21st instant.

Mr. A. H. MacNeill, of Rossland, reached town yesterday morning and will act on behalf of the V. V. & E. people, while Manager T. T. Holland, of the Grand Forks & Kettle River road, is also down from Grand Forks with his secretary, and also be company's solicitor, George H. Cowan, of Vancouver.

School Trustees Favor Secre **Belioting Among Pupils When** Elections Come Around.

A mall Grist of Minor Business Receives the Board's Attention.

The School Board held a meeting last evening, Dr. Lewis Hall presiding. Superintendent Eaton was present, also Trustees Jay, Drury, Matson, Boggs and Mrs. Jenkins.

A communication from the City Council was read to the effect that it was the intention of the council to provide the sum of \$5,000 for extraordinary expenses for the heating apparatus, etc., of the new High school, but the council regretted that such an expenditure would entail extra taxation upon the ratepayers.

The letter was filed and a motion authorizing the completing of the contract

The letter was filed and a motion authorizing the completing of the contract for the heating apparatus for the mew High school, was then carried.

A letter from W. H. Huxtable, janitor of the Central school, reported that the Water commissioner had sent a man to turn off the water from his house as the water fates had not been paid.

Regarding this, it was explained that no one had ever paid for the water for the caretaker's house, but as the matter had now to be definitely settled, it should be looked into and accordingly was referred to the Building and Grounds committee with power to act.

total, 65c.
Intermediate Grade—Second Render, 35c.; Third Reader, 40c.; total, 75c.; Senior Grade—Fourth Reader, 50c.; Tales from Shakespeare, 30c.; Evanheline, 15c.; Grammar, 35c.; Composition, 40c.; History of England and Canada, 30c.; Geography, 90c.; Arithmetic, 30c.; Physiology, 50c.; total, \$3.70.
In addition to the above text books the course of study calls for 10 copy books and five drawing books during the course at 10c. each; total, \$1.50. Grand total, \$6.55.

Assuming that it takes a child eight years to complete the course, the total cost of text books, copy books and drawing books required by the Regulations of the Council of Public Instruction is \$6.55, or an average of \$2 cents a year. 6.55, or an average of 82 cents a year The board adjourned at 9:15 o'clock. My friend, look here! you know how weak and nervous your wife is, and you know that Carter's Iron Pills will refleve her, now why not be fair about it and buy her a box?

Large Entry Passed at Winnipeg Last

Week.

The largest single entry ever passed at the port of Winnipeg was put through the customs house last week at that place. This was an importation of railway equipment made by the C. N. R. and the total value of the shipment was over \$350,000 and the duty collected thereon was about \$90,000. The equipment was mainly in the shape of box cars, which the railway company is importing for the purpose of taking out its proportion of the grain which is till remaining in the country, and several shipments are expected to arrive later on. It is the intention of the Canadian Northern to go into the manufacturing business on quite an extensive scale in Winnipeg and most of its rolling stock will be built there according to the Winnipeg Free Press. This, of course, refers to the woodwork, as the wheels and trucks will have to be brought in from across the line.

It is believed by the Canadian Northern people that the entry passed by them on Tuesday is not only the largest single entry put through in Winnipeg, but also one of the largest, if not absolutely the largest, ever passed in Canadian.

A man's wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her 'feel like a different person,' so they all say, and their husbands say so too!

A MARVELOUS MEDICINE Having a direct and combined action on both the liver and kidneys. Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine. cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness, liver complaint, Bright's disease, deranged kidneys and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a bar.

Matron Resigned. Miss rones, matron of the Chemainus General hospital, has tendered her resignation, and the hospital committee are seeking the services of another matron for the pretty little hospital at the mill port. Abulications are being received up to April 1,

Phaeton's Cruise Unsuccessful

Steamed Through Stormy Seas Between Honolulu and Victoria.

Italian Bark Cavour's Narrow Escapes From Destruction off the Coast.

H. M. S. Phaeton returned yesterday afternoon from her cruise to Honolulu in search of the missing Condor, which is now believed to have foundered of the mouth of the Straits in that terrible storm of December 3. Nothing whatthe mouth of the Straits in that terrible storm of December 3. Nothing whatever was seen or reported to give any clue to the fate of the lost warship, although the cruiser kept her search light playing over the waters at night as she cruised in a zig-zag direction on both her down and upbound trips. She left Honolulu on February 24, and had a rough passage, the weather being stormy throughout. The Phaeton rolled considerably and on several occasions in the seas came on board and flooded her decks. No damage was occasioned, however. With the return of the Phaeton the Condor is officially posted as "missing"—the shipping term which indicates an unknown fate.

During her voyage the Phaeton cruised around Neckar is and, a small uninhabited pile of rocks which lies to the northeast of the Sandwich islands, to examine that coast as at one time a ship's crew were found on that island. None of the islands of the Pacific to the south of Honolulu were visited, but a close lookout was kept over the surface of the waters. Two lookouts were kept posted continually by day and the search light was kept on the face of the waters at night, to watch for any floating wreckage, but nothing whatever was sighted.

The steamer Manauense will not get an American register as was expected. A despatch from Washington says: The Senate committee on commerce today made an adverse report, through Senator Hanna, on the bill proposing to grant American register to the British steamer Manauense, owned by E. E. Oaine, of Seattle. It was claimed by the committee that the vessel had not been wrecked, and that a though a large amount of money had been expended in repairs, the total amount did not constitute the required three-founths of the vessel's value. The unfavorable report was a surprise, as it was believed yesterday the committee would take favorable ection. It was intended to use the vessel in the Alaska trade from Seattle.

I was completely cured, but to make the cure certain I took four bottles more. It is now over two years since I took the last dose, and have not had the least symptom of the disease in any way. I can from my own blessed experience, recommend Paine's Celery Compound as a sure cure and a very pleasant medicine to take."

THE MOST NUTRITIOUS.

THE KIDNEYS AND THE SKIN. In the spring, the kidneys have much to do. If they are weak or torpid, they will not do it well, and the skin will be pimply or blotchy. That is telling the story in a few words.

Hood's Sarsaparilla strengthens and stimulates the kidneys, cures and prevents pimples, blotches and all cutaneous eruptions.

FURFICEPALAN

STANLEY CUP.

Winnipeg, March 13.—The Winnipeg Victorias successfully defended the Stanley cup tonight in the first match with the Montreal hockey team. Only one goal was scored and that by the Victorias in 12½ minutes after play had started. The ice was in a terrible condition for play, cut up badly and covered in spots by two inches of water. There was very heavy cross-checking by both teams and Referee MacFarlane had Winnipeg men on the fence at very frequent intervals. Liffton and Marshall put up strong hockey for Montreal, while Flett, Scanlan and Bain were the mainstays for Winnipeg. The latter played purely on the defensive during the closing half and won the game 1 to 0. Both goal-keepers did spleudid work and stopped many hot shots. The players were:

were:
Winnipeg Victorias—Goal, Brown,
point, R. Flett; cover point, M. Flett;
forwards, Johnston, Bain, Scanlan and Gingras.

Montreal—Goal, Nicholson; point,
Hodge; cover point, Boon, forwards,
Marshall, Liffton, Hooper, Gargner.
Referee, W. MacFarlane, of Winnipeg
club. Umpires, D. W. McLean, Victorias; S. Fernie, Montreal.
