INSURANCE COMPANY has been making provision for all who hold **INSUMANCE COMPANY** has been making provision for all who hold its promises to pay. If a business man holds a large amount of a Bank's promises to pay, he likes to feel assured, not merely that the Bank has good *hopes* of earning, in future, enough to meet its notes as they are likely to be presented, but that it actually has the money on hand, or most of it, to meet all claims, even if an unusually sudden call should be made.

all claims, even if an unusually sudden call should be made. Such sudden call has happened to many banks, at various times, and the weak ones have gone under; such sudden calls happened to American Fire Companies at the Chicago and Boston configrrations, and to Canadian Fire Companies at the St. John and Quebec fires, and found many companies unpre-gared to honour their cheap promises. An unusual call may fall, at any time, upon the Life Insurance Companies of this continent, such as has, at different times visited oportions of Europe. So slight an influence as the Epizootic, which visited Canada and the Northern States in 1873, ran the mortality of several life companies up 25 per cent, for one or two years, and caused many the drop their policies. Three large companies paid nearly a million dollars in that one year, in excess of the average of previous and subsequent years.

When the next unexpected call does come to life companies, the wisdom of those insurers who hold policies in the BEST AND STRONGEST COM-PANIES will need no approval, but will then get abundance of it.

It is a good thing to be wise in time, and to err, if at all, on the SAFE side, by commencing while in good health an immediate and safe provision for dependent ones, or your own old age, by one of those popular
