

WOMAN SICK FOR YEARS

Wants Other Women to Know How She was Finally Restored to Health.

Hammond, Ont. — "I am passing through the Change of Life and for two years I have not been very well, head-aches, nervousness in the back of head, was constipated, and had weak, nervous feelings. The doctor who attended me for a number of years did not help me, but I have been entirely relieved of the above symptoms by Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pills, and give you permission to publish my testimonial." — Mrs. LOUIS BRADSHAW, Hammond, Ont., Canada.

New Brunswick, Canada. — "I can highly recommend Lydia E. Pinkham's Vegetable Compound to any suffering woman. I have taken it for female weakness and painful menstruation and it cured me." — Mrs. DEVERE BARBOUR, Harvey Bank, New Brunswick, Canada.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultants) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

W.C.T.U. COLUMN

This department is conducted by the local Union, and is under the charge of an Editor appointed by them. This Editor assumes the responsibility for the statements and articles which appear in this column.

"I lately visited a flourishing village, and on expressing to one of the respected inhabitants the pleasure I felt in witnessing so many signs of progress, he replied that one of the causes of the prosperity I witnessed was the disuse of ardent spirits by the people. And this reformation may be assured wrought something higher than outward prosperity. I call on workingmen to take hold of the cause of temperance as peculiarly their cause. These remarks are the more needed in consequence of the efforts made far and wide to annul at the present moment a recent law for the suppression of the sale of ardent spirits in such quantities as favor intemperance.

I know that there are intelligent and good men who believe that, in enacting this law, government transcended its limits, left its true path, and established a precedent for legislative interference with all our pursuits and pleasures. No one here looks more jealously on government than myself, but I maintain that this is a case that stands by itself, which can be confounded with no other, and on which government from its very nature and end, is peculiarly bound to act. Let it never be forgotten that the great end of government, its highest function, is not to make roads, grant charters, originate improvements, but to prevent or repress crimes against individual rights and social order. For this end it ordains a penal code, erects prisons, and inflicts fearful punishments. Now if it be true that a vast proportion of the crimes which government is instituted to prevent and repress have their origin in the use of ardent spirits; if our poor houses, work-houses, jails, and penitentiaries, are tenanted in a great degree by those whose first and chief impulse to crime came from the distillery and dram shop; if murder and theft, the most fearful outrages on property and life, are most frequently the issues and consummation of intemperance, is not government bound to restrain by legislation the vending of the stimulants to these terrible social wrongs.

Is government never to act as a parent, never to remove the causes or occasions of wrong doing? Has it but one instrument for preventing crime; namely, public, infamous punishment, — an evil only inferior to crime? Is government an usurper, does it wander beyond its sphere, by imposing restraints on an article which does no imaginable good, which can plead no benefit conferred on body or mind, which unfits the citizen for the discharge of his country, and which above all, stirs up men to the perpetration of most of the crimes from which it is the highest and most solemn office of government to protect society?

The regular meeting of the W. C. T. U. on February 25th, was held in the Hall of Presbyterian Church, as a memorial service for our great leader Mrs. Frances Willard and an interesting and helpful programme was carried out.

Mrs. A. G. Adams was in the chair.

LETTERS TO THE EDITOR

To The Editor Of The Graphic:

For a number of winters before the fire the high school hockey team of our town always made a splendid showing. Last winter the same team played on the local league. This team under the name of the "Vic orias", and won out without defeat in ten games after which they played and defeated the winners of the New Brunswick League, in one of the fastest and cleanest games ever played in our town. This was a record, and in no part of Canada was there a better hockey team, who had won eleven straight games without defeat, dispute or accident.

This winter the management of the Victoria team had taken on an outside player and had him appointed captain. So far this winter the Victorias lost two games, and won one. The fourth and last one played on Wednesday evening was not finished and ended in a dispute.

Would it not be more creditable to our town to play a strictly local team? A few honorable defeats is better than a lot of rough House", and questionable victories. I think the public and those who attend the rink would be better satisfied.

Yours truly, HOCKEY MAN

To The Editor of the GRAPHIC

Dear Sir: Thanking you for past favors I wish to say a little more for the good of the community. I am sure the GRAPHIC is the paper worth subscribing for. No one should begrudge the money paid for this paper and in fact every one should subscribe for it as it is a very interesting paper and worth reading.

The Temperance arguments are great and now that the war has begun we must keep it up. For King Alcohol has reigned long enough it is time now that the Temperance was reigning and we must help him all we can. Study the question of Prohibition, make yourself acquainted with what is being done in other countries and advocate its adoption in your own country. The drink traffic is inflicting much injury on the nation day by day and hour by hour. Temperance reform is so urgently needed that this question cannot wait. Before this Parliament is dissolved the drink habit must have been placed under the heels of the people. And that great principle for which this organization has fought so long and so nobly must be embodied in the law of the land. It is better to vote for what you believe in and be defeated a thousand times, than to vote for what you do not believe in and help to win. What cares the liquor traffic about public interest, charities, schools, highways? Nothing. It is the only establishment in a community which has not the public good as a reason for its existence. It sucks the blood from labour, it curses the homes of many, it beggars many a family, it fills the jails with drunkards, sends many a man to the scaffold and arms the hand that is raised to rob and even murder. But the men in the business say: You interfere with our legal rights and in the name of the law we protest. The liquor traffic is a defender of law and order. Which license is granted how many saloons live up to the law. Not one. Vested right. Has the community no rights. If prohibition laws are in order to protect the fish and the game, why are not prohibition laws to protect the boys, the men of weak will and strong appetite, and the envious mothers and daughters who are the victims of the liquor traffic. The liquor shop must

Mr. J. E. Arsenault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Railway, says:

"Four years ago I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up."

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, ointments and lotions I heard of, but instead of getting better I got worse. This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did."

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Such is the nature of the great cures which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, cuts, burns and bruises. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., upon receipt of price.

Q. Why? Because it is an enemy of God, because its foundation is human lust, because it cannot stand before the better instincts of manhood when once they are aroused, because its presence is a bar to highest progress.

New Carlisle, P. Q. March 3rd, 1913.

Editor of the GRAPHIC.

Dear Sir,

The Rev'd W. B. Mac Callum of New Richmond in your last issue writes a letter criticizing the Licensing of the sale of Intoxicating Liquor in New Carlisle. I am very pleased indeed to give Mr. Mac Callum all the information he asks for in his letter.

Summing up his letter very carefully the information he wants is this:

Why does the Municipal Council of New Carlisle at this enlightened day still vote in favor of granting Liquor Licenses.

The balance of his letter is taken up with criticizing the License holders and with the importation of liquor into New Richmond.

Now taking up the first part. Viz: The reason the Municipal Council of New Carlisle vote to have Liquor Licenses. I am not at the present time Mayor of New Carlisle being only a Councilor but I can give my own opinion of the matter which probably corresponds with that of Mayor Hall and the rest of the Council.

There are very few people at the present time who do not regard the selling and drinking of Intoxicating Liquor as an evil. The great difficulty is to find a sure remedy for that evil.

The Temperance party up to the present time have not found a sure remedy. They have simply cut out the sale of Liquor legally wherever possible and have in every instance that I have known simply made matters worse. Where Liquor is sold legally all the "Restrictions" that the Law allows can be evaded; Minors, Habitual Drunkards and others can be prevented from obtaining liquor; also the sale can be prohibited on Sundays, certain holidays, election days and after a certain time in the evening. Now just as soon as this legal selling has been stopped what has been the result: as much liquor if not more has been sold without any restrictions whatever.

Liquor may be adulterated with poisonous preparations and sold at any hour to any one who has the price.

Can Mr. MacCallum show one single instance where the legal selling of liquor was prohibited on in any of our surrounding Municipalities or Towns where the result were to make the situation better? I think not. I can show Mr. Mac Callum many instances where the results have been very much worse

and yet he criticized the Municipal Council of New Carlisle for granting Liquor Licenses. Is Mr. MacCallum as qualified to judge of our civic conditions as well as the councillors themselves some of whom have been nearly 30 years in the Council: or can he guarantee us that if we cut out the Liquor Licenses now in force in New Carlisle that we will not have a worse condition of affairs instead of better.

The proper remedy for the Liquor evil would be to have first the necessary Legislation passed so as to stop the bringing in of liquor into places in which a Prohibitive By-law was in force.

"Mr Mac Callum in his letter says" We have passed a prohibitory By-law protecting us from the sale of Liquors in our own Township 'etc. Does that By-law really protect them?"

Is there no liquor sold in New Richmond? Even if we had no licenses in New Carlisle can Mr.
