GOOD TIMES ARE COMING

Visiting Real Estate Men Optimistic re Outlook—Good Times Near.

(Toronto Mail and Empire.)
Confidence predictions that Canada is about to enter upon a period of great prosperity and development marked a number of addresses delivered at the monthly meeting of the Toronto Real Estate Board, held last evening at Bingham's. Representatives of various real estate boards in cities throughout the province were guests of the Toronto Board, and the remarks of all of those were marked by an optimistic outlook on the future of the dominion.

Noteworthy among these was the address delivered by Alexander Simmers, of Windsor, Ontario. Real estate business during the past twelve months had suffered somewhat of a slump, but he asked his hearers to remember that these times of depression were the stepping stones to greater development.

"We are at the present time," he went on, "at the parting of the ways. We are practically the only country in the world where American capital can be invested with reasonable safety. Here we are next door to a country which has millions of dollars stored up, and money isn't earning very much when it is stored up."

"I am told, and I believe it is true, that we can manufacture as cheaply in Canada as in the United States. Just the other day an American manufacturer told me that they intended coming into Canada because of the preference within the British Empire. Is there any thing to stop an era of prosperity all over Ontario?"

A Fair Exchange.

Martha—I thought you told me that you wouldn't give away that secret I told you last night.

Martha—I didn't give it away. I exchanged it for another one and an ice cream soda.

Marquis & Co., Ltd.
