The press was well represented at the ball game Tuesday. Pettypiece, of the Forest Free Press; McIntosh, of the Standard, and Williams, of the Watford Guide, were interested spectators.

BASE BALL.

Watford Shut Out by Arkona.

For the first time in its history a base ball team representing Watford failed to score. Arkona did the trick at the Park Friday afternoon. The local team gave a punk exhibition of hitting, 13 of them failing to swat the ball, and coupled with freight car base running accounted for the row of ciphers. A small and unprofitable crowd witnessed the game.

Arkona Won The First.

The first of the three games to decide the East Lambton Championship was played at Arkona on Tuesday afternoon between the Arkona and Forest base ball teams. The game was witnessed by a large crowd, business being suspended while the game was in progress. The local nine, who have not lost a game so far this season, kept up their reputation and won out handsily by a score of ten to six.

Arkona had the best of the hitting and bunched their knocks when it meant runs. Waddell pitched a good game for Forest, but his support was not the best. The second game of the series will be played at Forest on Thursday, and in the event of a tie the final game will be pulled off at Watford.

A MOTHER'S STORY.

She Tells How Dr. Williams' Pink Pills Saved Her Daughter.

Anemia is the doctors name for bloodlessness. It is an ailment that affects almost any girl in her teens. Womanhood makes new demands upon her blood supply that she cannot meet. Month after month her strength, her very life, are being drained away. No food and no care do her any good. No common medicine can save her. She needs new blood. New blood is the one thing—the only thing—that can make a healthy woman of her. Dr. Williams' Pink Pills actually make new blood. That is why they never fail to cure anemia. That is why they save from an early grave scores of young girls whose health and strength depend upon their blood supply. Mrs. Anson Clark, Arden, Ont., says:—“Dr. Williams' Pink Pills have been a great blessing in my family as two of my daughters have used them with marked success. When my eldest daughter was about seventeen she began to fail in health. Her blood seemed to have turned to water. She was troubled with headache and dizziness; the least exertion would cause her heart to palpitate violently and she could not walk up stairs without stopping to rest. She doctored for upwards of a year, and the doctor said she did not have as much blood in her body as an ordinarily healthy person would have in one arm. The doctor's treatment did not do her a particle of good. She seemed slowly fading away. Then she became afflicted with salt rheum and her hands were almost raw. About this time a neighbor advised the use of Dr. Williams' Pink Pills and she began taking them. After using the pills for a few days we could see an improvement, her appetite began to improve and a trace of color came to her cheeks. She continued using the pills until she had used thirteen boxes when she was as well and strong as ever, every trace of anemia and salt rheum had disappeared and she has since enjoyed the best of health. Later on my youngest daughter began to lose her health, but thanks to our experience with Dr. Williams' Pills we knew where to look for a cure and after four boxes of pills she was alright again. I have also used the pills myself for nervous troubles with complete success.”

Rich red blood is the secret of health—Dr. Williams' Pink Pills is the secret of rich red blood. They actually make rich red blood, that is why they cure anemia, headaches and backaches, indigestion, nervous prostration, heart palpitation, neuralgia, rheumatism, sciatica, St. Vitus Dance and the ailments that makes the lives of so many women and growing girls miserable. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

BARNES BURNED.

Mr. Dan Thompson, lots 20 and 21, con. 3, N. E. R., Warwick, met with quite a loss when all his out buildings were destroyed by fire on Friday evening last. He was engaged in milking the cows when flames were noticed bursting from the barn, and in a short space of time the adjoining buildings were all in a blaze. The buildings burnt included a barn 26x90 ft. with a 15 ft. lean to, brick foundation; and horse stable and drive shed, 30x60, brick foundation, nearly new. The contents included 50 tons of hay, 16 loads of oats and about \$250 worth of implements, and 125 thoroughbred Leghorn chickens. The total loss is estimated at \$5,000, with an insurance of \$2,500 in the Waterloo. It is supposed that the fire was caused by

spontaneous combustion, as, like many others, the oats were harvested in a damp condition. We understand Mr. Thompson is arranging to rebuild at once.

KINGSCOURT.

Harvest all in and everybody thankful.

Mr. Frank Maw, of Wyoming, visited friends at the Court Sunday.

Miss Dougall, of St. Louis, Mo., is spending a few weeks at Kingscourt.

Mrs. Phillips and Miss Dougall are visiting Plympton friends this week.

Miss Louisa McCormick has returned home after a most enjoyable trip south.

PLYMPTON.

Mrs. J. E. Lahiff, nee (Miss Kate Dell), and little daughter, Mabel, of Pontiac, Mich., and Mrs. W. E. Dennis, nee (Miss Mabel Dell), and little son, Dell, of Pt. Huron, have been visiting their parents at Kertch the past week.

Miss Lizzie Dewar, of Kertch, Lambton Co., Ont., who has been visiting Mrs. Monkman for the past month, returned on Wednesday to her home in the east. Miss Dewar made many friends during her sojourn here. She is a school teacher and while here refused two tempting offers. She may, however, return to Manitoba at some later period.—Melita, (Man.) Co operative Experiments in Agriculture.

Material for any one of the five experiments here mentioned will be sent free to any Ontario farmer applying for it, if he will conduct an experiment with great care and report the results after harvest next year. The seed will be sent out in the order in which applications are received as long as the supply lasts.

1.—Testing Hairy Vetches and Winsor Rye as fodder crops.—2 plots.

2.—Testing three varieties of Winter Wheat.—3 plots.

3.—Testing five Fertilizers with Winter Wheat.—5 plots.

4.—Testing Autumn and Spring Applications of Nitrate of Soda and Common Salt with Winter Wheat.—5 plots.

5.—Testing two varieties of Winter Rye for grain production.—2 plots.

The exact size of each plot is to be one rod wide by two rods long. The material for either of the first two experiments or No. 5 experiment will be forwarded by mail, and for each of the other two by express. Each person wishing to conduct one of these experiments should apply as soon as possible, mentioning which test he desires, and the material, with instructions for testing and the blank form on which to report, will be furnished free of cost until the supply of experimental material is exhausted.

Correct Living.

Correct Living is the title of a new book just issued by Van R. Wilcox, the Trans-Continental Tramp. He narrates a few of the exciting and amusing incidents of his long tramp from Atlantic to Pacific Ocean, starting from New York City and walking the entire distance to Santa Monica, Cal., 3687 miles. He explains how he built himself up, from a physical wreck to a strong vigorous man. It contains several chapters on subjects of interest to all, such as “The Science of Eating,” “What Shall I Eat?” “The No-Breakfast Plan,” “Tramps and Trampings,” “Hidden Forces,” &c. While the first edition lasts, it sells for 50 cents.

Since the above notice, Mr. Wilcox passed through the San Francisco Earthquake and Fire, from which experience he adds about four thousand words, making a book about 5x7 inches, in cloth binding. Price 60 cents.

Address orders for either style (Paper Cover, without San Francisco. Fifty cents) to

Sailboat Upset.

A sailboat accident occurred on Thursday in the vicinity of Port Frank, on Lake Huron, which fortunately did not result disastrously.

Mr. Colin C. Moncrieff, of Petrolia, was out sailing with two young boys, when a squall sprung up and the boat was capsized, owing to the rudder breaking and allowing the boat to be swamped in the trough of the sea. They were all good swimmers and managed to clamber on the bottom of the upturned boat, where they drifted for some time, calling lustily for help.

Their cries were finally heard by Mr. McDonald, who put out to them in a row boat and brought them all safely to shore.

Dr. Burley, of Almont, Mich., has bought 500 acres of land on the peninsula east of his father's, S. Burley's, Pt. Frank, for a shooting preserve.

Shoes to Cost More.

Toronto, Aug. 27.—It has been decided by the wholesale boot and shoe traders in Canada to advance the price of their goods. The advance will probably be about 20 per cent., and will be placed on the opening samples issued in October. The reason is said to be scarcity of raw material. On account of the troubles Russia is not sending as much leather to Canada as formerly. The beef scandals, too, curtailed the export beef trade, and not as many animals have been killed.
