

Father, Mother, Sister, Brother, All Should Use Parisian Sage.

Prevents Baldness—Banishes Dandruff—Stops Falling Hair and Itching Scalp.

PARISIAN SAGE is a family hair tonic and dressing that will do much good in every home.

The man who uses PARISIAN SAGE, if only occasionally, will never grow bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, devour its nourishment and cause the root to die and the hair to fall and thin out.

PARISIAN SAGE is a scientific hair remedy that not only kills the dandruff germs, but gives the hair root just the same nourishment that nature gives it.

PARISIAN SAGE first kills the germs; then nourishes the weakened hair root and causes a growth of healthy hair.

This same nourishment (PARISIAN SAGE) causes the hair to grow vigorous,

which means that the hair becomes full of life and lustre, and grows radiant and beautiful.

Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germ, thrives and multiplies.

Try PARISIAN SAGE for all hair trouble; it means death to the germs; life to the hair. It is pleasant to use and so harmless that it can be used by every member of the family from the oldest to the little tot.

Get a 50 cent bottle to-day, and if you are not satisfied that it is just as good as claimed, your money back without any quibbling. Sold by T. B. Taylor & Sons and druggists everywhere. Girl with auburn hair on every carton and bottle.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

Black—White.

The wedding took place on Wednesday, April 3rd, at the residence of the bride's parents, Mr. and Mrs. Geo. White, Inwood, when Miss Helen White became the wife of Mr. J. F. Black.

only son of James Black of Napanee, in the presence of about sixty guests. The bride, who was given away by her father, was dressed in white, duchesse satin gown with court train and white embroidered bridal veil with orange blossoms.

The ceremony, those present took part in the wedding dinner. Rev. Neil A. Campbell, of Inwood, proposed a toast to the bride and groom. The remainder of the evening was spent in singing, dancing and cards. Presents to the bride consisted of a pearl sunburst, cut glass, silver, linens, cheques and a piece of the crown derby china. The groom's gift to Miss Irene Morley, of Oil Springs, the flower girl, was a turquoise ring, and to Miss Beacom an amethyst of platinum pendant. Mr. and Mrs. Black departed to Napanee and other eastern points. On their return they will reside in Kingston.

What Drainage is Worth in a Dry Season.

Free Assistance in Drainage Again Offered by The O. A. C.

During the exceptionally dry season of 1911 land that was underdrained produced on the average about \$16.50 more per acre than land that was not drained, according to data collected by the Department of Physics at the Ontario Agricultural College.

Reports were received from a large number of farmers, of whom twenty-five were able to give definite figures on yields on drained and undrained land. Three of the number said they saw no difference, but all the others reported increased. Eleven counties were represented in the reports, from Durham in the east to Essex in the west. The value of increases, including straw, was figured at October, 1911, prices, and March, 1912, prices. The former showed an average of \$15.97 per acre and the latter \$17.04, and both together an average of \$16.50.

The three who reported no increase were counted in obtaining the averages.

In wet seasons the results are even more marked, but even at \$16.50 per acre, drains more than pay for themselves in two years.

The O.A.C. is again renewing its offer of assistance to farmers in laying out their drainage systems. The Department of Physics has a special staff of Drainage Advisers for this work. There is no charge for the services of these men, the only outlay to the farmer being the travelling expenses, which are low. As the railway fare is only one cent a mile for this work, and as several surveys are made on one trip the expenses are divided among the several parties concerned. Anyone wishing to have a drainage survey made should drop a card to the Department of Physics, O. A. C., Guelph, whereupon regular application form will be sent, and later on one of the Department's Drainage Advisers will make the survey.

Of the many things you hear, what per cent. do you let in one ear and out the other? Probably you retain much that you shouldn't, and let many good things get away with the chaff.
