† Which Trade is carried on by 34 Sail of Ships, navigated by about 400 Men

---

are in the *unmanufactured* Produce of that Country ; which single Circumstance of their being unmanufactured, doubles their Value to us, by the Employment it affords to our Manufacturers, whose Labour is one of the chief Sources of our national Wealth. As to the Quantities both of those *Commodities*, and the *Returns* for them, the least Attention to the Circum-
