

Curious Things About Birds.

To study birds is interesting only one should know something about them. You must read about the habits of the birds.

The following is a scale of the size of the brain compared with the bulk of the body, in some birds and mammals.

Birds, varying with a single glance a considerable extent of country, are often obliged to adapt their eyes to the conditions.

Early Watches. At first the watch was about the size of a pocket watch. The earliest known use of the modern name occurs in the records of 1552.

Curious Signs in London. At a market town in Rutlandshire the following placard is affixed to the shutters of a watchmaker.

Enthusiasm in the Right Place. If some man would only put the same amount of enthusiasm into sewing work that they put into sitting on a plunk and watching sixteen men play ball.

A Wedding Present. Of practical importance would I be a bottle of the only cure for eye-ache - Putnam's Pain-Relieving Eye-Cure.

to transfer insects. These birds are compelled to employ a complex machinery of small bones, by which the tongue is withdrawn, directed on the prey.

How they got the Name. An English author, upon the question of the origin of the name as applied to the turkey, says the first turkeys imported to England.

Early Watches. At first the watch was about the size of a pocket watch. The earliest known use of the modern name occurs in the records of 1552.
