CINCHO-QUININE.

CINCHO-QUININE, which was placed in the hands of physicians in 1869, has been tested in all parts of the country, and the testimony in its favor is decided and unequivocal. It contains the important constituents of *Peruvian Bark*, Quinia, Quinidia, Cinchonia and Cinchonidia, in their alkaloidal condition, and no external agents.

UNIVERSITY OF PENNSYLVANIA, Jan. 22, 1875.

"I have tested CINCHO-QUININE, and have found it to contain *quinine, quinidine, cinchonine, and cinchonidine.*"

F. A. GENTH, Prof. of Chemistry and Mineralogy.

LABORATORY OF THE UNIVERSITY OF CHICAGO, February 1, 1875.

"I hereby certify that I have made a chemical examination of the contents of a bottle of CINCHO-QUININE, and by direction I made a qualitative examination for *quinine, quinidine, and cinchonine*, and hereby certify that I found these alkaloids in CINCHO-QUININE."

C. GILBERT WHEELER, Professor of Chemistry.

"I have made a careful analysis of the contents of a bottle of your CINCHO-QUININE, and find it to contain *quinine, quinidine, cinchonine, and cinchonidine.*"

S. P. SHARPLES, State Assayer of Mass.

In no other form are contained the important alkaloidal principles of Bark, so as to be accessible to medical gentlemen.

It is found Quinidia, which is believed to be a better anti-periodic than Quinine; and the alkaloids acting in association, unquestionably produce favorable remedial influences which can be obtained from no one alone.

In addition to its superior efficacy as a tonic and anti-periodic, it has the following advantages which greatly increase its value to physicians:—

1st. It exerts the full therapeutic influence of Sulphate of Quinine, in the same doses, without oppressing the stomach, creating nausea, or producing cerebral distress, as the Sulphate of Quinine frequently does, and it produces much less constitutional disturbance.

2d. It has the great advantage of being nearly tasteless. The bitter is very slight, and not unpleasant to the most sensitive or delicate woman or child.

3d. It is *less costly*; the price will fluctuate with the rise and fall of barks; but will always be much less than the Sulphate of Quinine.

4th. It meets indications not met by that Salt.

Middleburg, Pa.,
April 13, 1875.

Gentlemen. I cannot refrain from giving you my testimony regarding CINCHO-QUININE.

In a practice of twenty years, eight of which were in connection with a drug store. I have used Quinine in such cases as are generally recommended by the Profession. In the last four or five years I have used very frequently your CINCHO-QUININE in place of Quinine, and I have never been disappointed in my expectations.

JNO. Y. SHINDEL, M.D.

Gents: It may be of some satisfaction to you to know that I have used the alkaloid for two years or nearly, in my practice, and I have found it reliable, and all I think that you claim for it. For children and those of irritable stomachs, as well as those too easily *quininized* by the Sulphate, the Cincho acts like a charm, and we can hardly see how we did without it so long. I hope the supply will continue.

Yours, with due regard,
J. R. TAYLOR, Kosse, Texas.

I have used your CINCHO-QUININE exclusively for four years in this malarial region.

It is as active an anti-periodic as the Sulphate, and more agreeable to administer. It gives great satisfaction.

D. H. CHASE, M.D., Louisville, Ky.

I have used the CINCHO-QUININE ever since its introduction, and am so well satisfied with its results that I use it in all cases in which I formerly used the Sulphate, and in intermittents it can be given during the paroxysm of fever with perfect safety, and thus lose no time.

W. E. SCHENCK, M.D., Pekin, Ill.

I am using CINCHO-QUININE, and find it to act as reliably and efficiently as the Sulphate.

In the case of children, I employ it almost exclusively, and deem its action upon them more beneficial than that of the time-honored Sulphate.

W. C. SCHULTZE, M.D.,
Marengo, Iowa.

CINCHO-QUININE in my practice has given the best of results, being in my estimation far superior to Sulphate of Quinine, and has many advantages over the sulphate.

G. INGALLS, M.D.,
Northampton, Mass.

Your CINCHO-QUININE I have used with marked success. I prefer it in every way to the Sulphate.

D. MACKAY, M.D., Dallas, Texas.

We will send a sample package, for *trial*, containing fifty grains of CINCHO-QUININE, on receipt of twenty-five cents., or one ounce on receipt of one dollar and sixty cents, post paid. Special prices given for orders amounting to one hundred ounces and upwards.

WE MANUFACTURE CHEMICALLY PURE SALTS OF
Arsenic, Ammonium, Antimony, Barium, Bromine, Bismuth, Cerium, Calcium, Copper, Gold, Iodine, Iron, Lead,
Manganese, Mercury, Nickel, Phosphorus, Potassium, Silver, Sodium, Tin, Zinc, etc.

Price List and Descriptive Catalogue furnished upon application.
