

A Re-Creation of Business Opportunities

The commercial opportunities opened up by the Canadian Northern Railway System are unequalled in the British Empire. In 1897 the Canadian Northern operated 100 miles of railway. It now controls 5,000 miles in the most promising parts of the country. Hundreds of new townsites have been created west of Lake Superior and many new enterprises have been made practicable in Nova Scotia, Quebec, Ontario, Manitoba, Saskatchewan and Alberta. All these newly developed territories are bristling with business opportunities for the enterprising and they are clearly described from the commercial viewpoint in the new edition of the publication—
