DIAGNOSIS AND GENERAL SURGERY

SUITE 523-24-25 MEDICAL AND DENTAL BUILDING

TIMES-SQUARE

SEATTLE

December 28th, 1927

Sir Arthur Currie, Principal  
McGill University  
Montreal  
Canada

My dear Sir Arthur:

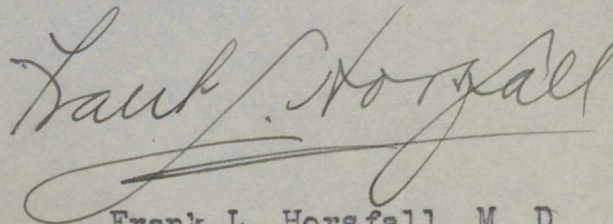

You will probably be a little surprised at receiving a letter from me. My son Frank who is a freshman in Medicine, has told me of your kindness to him last Fall, and I wish to express on behalf of Mrs. Horsfall and myself our very deep appreciation.

You are probably aware that the University of Washington which is located in this fair city, has recently called a new president to preside over its affairs—Mr. Lyle C. Spencer. His inauguration takes place in February, and many of the American Universities are going to have representatives present at that ceremony. It has occurred to me that as there are a number of McGill men in the city, our own Alma Mater might desire to be represented by naming some one who resides here as their official representative, provided of course that it is not intended that some one should come down from the University of British Columbia in a dual capacity of British Columbia and McGill representative. I feel quite certain that Mr. Spencer would consider it a very great honor. He was in charge of the department of Journalism several years ago and I got to know him rather well. I therefore, am taking the liberty of drawing this matter to your attention.

With kindest personal regards and all good wishes for a prosperous New Year and the continued development of the Old Alma Mater, believe me

Very sincerely yours
