Indeed one of these, the establishment of an Imperial Parliament of Parliaments, has approached a slight step nearer to realisation since Mr. Chamberlain declared at Wakefield in December last that he hoped "ere many years" had passed away to see a federation of the Empire with Colonial representation in the Imperial Parliament." But much has to be done in establishing better means of communication, and closer trade relations within the Empire before such a consummation can be hoped for. Meanwhile, The Imperial Unity League must continue by the spread of literature and otherwise to obtain adherents to its principles. With the present Circular a copy of a pamphlet entitled: "Imperial Consolidation in Commerce and Defence" is distributed, which it is hoped may be instrumental in advancing the objects of the League. All who approve of its principles are requested to become members. Appended to this Circular will be found the application for membership, which those favourable to the objects of the League are requested to fill up and send to the Secretary, remitting at the same time \$1.00 each as the annual subscription. Those who are already members are requested to remit their subscriptions for the present year and to make an effort to induce others to join the League.
