VISIBLE WHEAT SHOWS DECREASE

Chicago Prices Marked Up Vigorously on Receipt of News

CHICAGO, April 2.—A large decrease in the world's visible wheat supply gave strength to the market today. Prices made a net gain of ⅝c to ⅞c. Corn closed at a net advance of ⅜c to ⅝c; oats, ⅜c up and provisions 7½c lower to 2½c higher.

Decrease of 3,514,000 bushels in the world's visible supply caused buying activity in the wheat pit at the opening. Purchases of good lots by local speculators brought an advance of ⅝c to ⅞c in the first hour, after which the market became dull. Foreign crop advices were rather bullish and this helped maintain firmness here. Reports from the winter crop belt also were excellent except that advices from Kansas told of some slight damage from Hessian fly.

Reports for two days on primary receipts of wheat showed 948,000 bushels, as compared with 650,000 (one day) last year.

Corn developed strength because receipts from the interior were light. Improvement in the cash situation was noted. A little better shipping call gave firmness to oats.

The provision market was irregular and prices moved within a narrow range.

WINNIPEG GRAIN EXCHANGE.

WINNIPEG, April 2.—After the steady advance in wheat values for some days recently, a reaction occurred during the earlier hours of business. Opening figures were ¼c to ¼c lower, and further declined ½c to ⅝c, but the close was unchanged to ½c lower. Cash wheat was in good demand. Exporters bought for delivery ranging from opening of navigation till August.

Oats were firm and prices higher. Cash oats closed ¼c to ⅝c higher. Flax was again weak, owing to the extremely heavy offerings. Cash flax closed ⅝c lower for all grades.
