## WHAT DYSPEPTICS SHOULD EAT

ADVERTISEMENT.

A PHYSICIAN'S ADVICE. "Indigestion and practically all forms stomach trouble are, nine times out of tem, due to acidity; therefore, stomach, due to acidity; sufferers should, whenever possible, avoid eating food that is acid in its nature or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all. obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or ods which you may like, in moderate abount, taking immediately afterwards teaspoonful of bisurated magnesia in a tle hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fulness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medi-cine whenever necessary, but I must ad-mit that I want to the same of designs. mit that I cannot see the sense of dosing inflamed and irritated stomach with the cause of all the trouble. Get a little bisurated magnesia from your drug-gist, eat what you want at your next meal, take some of the bisurated magas directed above, and see if I'm

## The Women Workers

The Veterans of '66 Chapter, I.O.D.E., altho a very young organization, are doing excellent work for the Women's Patriotic League. The regular meeting was called yesterday afternoon at 3 o'clock in St. George's Hall, with the regent, Mrs. William Fahey, in the chair. Miss Owen, the secretary, gave an account of the articles already sent in to headquarters, and announced that there was still considerable work to follow. Miss Owen stated that all work which was to be sent with this week's consignment to Valcartier would have to be sent to W.P.L. head-quarters not later than Thursday at 5 p.m., and urged the members to continue their industrious knitting. Mrs. Fahey and Mrs. Taylor were appointed to purchase all necessary supplies, and Mrs. Phillips offered to take tharge of the distribution of supplies. A request was read from Mrs. Gooderham as regent of the Municipal Chapter, asking the daughters to avoid giving dances and card parties as a means of raising money in aid of the funds. She does not consider it wise to give social entertainments under the auspices of the I.O.D.E. As this was the first regular business meeting of the chapter for the year, the secretary's and treasurer's reports were submitted, and financially as well as in all other respects the energetic young chapter is making excellent progress.
