PARK BAND CONCERTS Editor World: As the board of cor trol could not see its way clear to pass any estimates for band concerts in the parks this summer, I venture to throw out a suggestion to the band-masters of the city bands which, I think would be supported by the love think, would be supported by the lovers of music.

My idea is that a committee should be formed of the leading citizens to arrange with the musicians' associa-tions and bandmasters for a series of concerts to be given; that programs should be printed, advertisements con-vassed for, which would cover the cost of printing; a number of chairs provided, for which a small charge could be made, which would go towards the

fund for the payment of the bands engaged during the season.

As there are thousands of people who like to hear a good band, who are glad to get out in the parks on a sum-mer 'evening, I think it would prove a success. I would like to see the Toronto Ad Club, in conjunction with the citizens and musicians, take the matter up, as I think they would make it go. after seeing what the club did in the street parade to provide motor ambulances for the wounded soldiers at the front.
