J. Dasonville & Co., jewelers, Victoria, have sold out by auction and are leaving there.

### Brandon Market.

Wheat:—The few mild days we had last week materially interfered with the delivery of wheat in this market, owing to the snow thawing off the trails in many places. Quite a number who had commenced to draw in from a distance had to quit on this account. The deliveries for the week ending the 25 ult. were 36,369 bushels, making the total for the season over 900,000 bushels. Competent judges think that there is fully one-third of the crop to market yet, and if they are correct our shipment will be considerably over the million bushels. The highest paid this week was 50 cents, but 48 and 49 cents seemed to be the ruling figures.

Oats:—Are being bought in more freely but still hold their own in prices. There is considerable enquiry for extra good samples for seed. We saw a load of extra good black ones sold for 33 cents a bushel. Prices are however as follows: 24 to 26 cents for feed; 27 and 28c for good milling; and 29 to 30c for seed.

Barley:—Very little enquiry except for feeding purposes. Prices are from 30 to 35 cents a bushel.

Horses:—There has been quite a lively time in the horse market during the week not only have a number of carloads arrived but it is stated that there are 9 or ten more on the road for here. Good well matched general purpose teams can be bought at a price varying from \$350 to \$500.

Cattle:—The few that changed hands brought 2½c per pound live weight. Three very nice three year old heifers were offered for \$20 a piece, and cows all the way from \$25 to \$50 a head.

Hogs:—Dressed are now selling at from 7 to 7½c a pound and even at that high figure there are not many marketed.

Butter:—Is in good supply and more than one of our merchants claim to have too much of the article on hand. From 16 to 20 cents a pound is quoted.

Eggs:—Limed or pickled are being sold at 30 to 22 cents a dozen, while few fresh that are being brought in sell readily at twenty-five cents.—Times.
