WHEELMEN'S GRIEVANCES

Discussed by the Sub-Committee at the Athenæum Club on Saturday.

A meeting of the sub-committee appointed at the meeting of wheelmen, held at the request if His Worship the Mayor in the City Hall on Tuesday last, was convened at the Athenaeum Club on Saturday afternoon, Chief Consul H. B. Howson in the chair, H. K. S. Hemming, W. B. Campbell, F. H. Doley and E. S. Cork being present. Before proceeding with the regular business the members discussed the action of the civic rulers in permitting the Toronto Construction & Paving Co. to leave the asphalt track allowances put down by them in a state of bad repair all summer and not compelling them to live up to the letter of their contracts.

Mr. Hemming introduced the question of taxation of vehicles, and moved that the Council be requested to take the vote of the people at the January election as to whether they would favor such taxation or not, the proceeds to be used for the construction of roads only. Failing to get a seconder the matter dropped.

A series of motions was then introduced and carried to the effect that the rapid growth of cyclists in the City of Toronto demands immediate and progressive measures to be taken to relieve the crowded thoroughfares and streets upon which the car company have right of way.

Also that protection should be afforded by the Street Railway Company to pedestrians and cyclists by compelling them to have up-to-date fenders attached to all motor cars and not antiquated death-traps, and that measures should be taken to detect and convict all riders and drivers of vehicles who do not dismount or stop when the cause of an accident, and give their correct name and address.

His Worship the Mayor will be requested to call a second meeting at an early date to discuss the question at length.

MORE TRIBUNE TAFFY.

Sir Wilfrid Laurier Followed From Washington by Good Wishes.

New York, Nov. 20.—The Tribune says to-day, editorially: "Good speed and good wishes follow the returning Canadian Premier as he wends his way homeward to the Dominion of 'Our Lady of the Snows.' He has made a friendly and amicable impression on the American eagle, which not even the Vancouver barkings of Sir Charles Tupper, like the wolf's long howl on Ounalaska's shore, can in any serious degree abate. With such Prime Ministers Canada will never find any difficulty in getting on with the United States in the most cordial and satisfactory manner."

Railway Conductor Charged With Theft.

Quebec, Nov. 20.—A railway mail conductor named Hudson and his son were this afternoon arrested on the serious charge of stealing from the mails letters containing money orders. The accused were jailed pending investigation.

Life Insurance Rates to Remain Unchanged

Representatives of several Canadian Life Assurance Companies met on Saturday afternoon in the board room of the Canada Life. They discussed the advisability of advancing rates in conformity with the regulations of American companies, but the matter was left over until the next meeting, which will be held at Hamilton in February. The general feeling was against the proposed higher rates, as those now in use are considered sufficient with our home mortality rate. The regulation was also passed admitting British companies to the society.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also being the principal cause of headache. Parmalee's Vegetable Pills, taken before going to bed for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmalee's Pills are taking the lead against ten other makes which I have in stock." ed

The Old Cibola.

The burning of the Cibola was recalled in Judge McDougall's court Saturday morning, where John Carson sued Abraham Helpert and C. Antipitcky, who bought the hull of the burned boat. Carson claims $100 for work done in connection with the raising of the boat. Defendants say that A. R. Williams & Co. did the work and that plaintiff had been paid.

New York Gossip.

Henry A. King & Co.'s despatch from New York:

There was the usual sluggish Saturday market in stocks to-day, and under such conditions it was inevitable that the price tendency should be downward, especially as the trading was very light, no one seemingly having the disposition to go over Sunday with much of a load either way. The strength of the list yesterday, led by Sugar, impressed traders with the idea that possibly the assembling of Congress would not prove such a bear factor as had been anticipated, especially as the Cuban question seems pretty well settled. The bank statement to-day was an exceptionally good one, with an increase of $4,853,000 in loans and $7,785,600 in deposits, but the market did not rouse from its lethargy on the announcement. It is argued by some that the absence of any weakness in so dull a period is the best indication that could be given of the inherent strength of the situation, and that when any change occurs it must necessarily involve more liberal trading and much higher prices.

McIntyre & Wardwell (John J. Dixon) received the following despatch from New York to-day:

The speculation in stock market to-day continued dull and chiefly of local professional character. The reactionary tendency prices displayed when the room traders endeavored to unload in last hour yesterday showed the lack of substantial support and the elimination of short interest, which, in the absence of any favorable developments to stimulate speculation caused a dragging featureless market to-day. London cables estimated losses by fire there at $10,000,000, but as they fell entirely on English insurance companies and none of the American companies were said to be involved, these advices had no influence on the market. The business was largely confined to room traders in evening up their interests over Sunday, although there was some liquidation noticeable in Sugar and Chicago Gas. There is little change in the general conditions immediately surrounding the market or the general outlook from our previous advices. The market continues in the hands of room traders, and a few of the larger local operators who, in the absence of speculative feeling, are confining their operations to efforts to make small, quick turns. The underlying sentiment is bullish and generally a hopeful feeling prevails, but there is a general disposition to await definite information as to what President McKinley will say in his annual message to Congress. Hence nothing better than a repetition of present small and narrow traders' market can be expected.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat has been very dull, the local traders inclined to sell the market in absence of any outside business. Foreigners have taken about 100,000 wheat. New Orleans reported 149,500 cleared from there. Liverpool futures closed 1d lower and spot, No. 1 Northern, 1d higher. Northwest receipts were 1012 cars, last year 785 cars. Receipts for the week at Minneapolis and Duluth 6764 cars, last year 5188 cars. The range of prices to-day has been very narrow. There was 150,000 spring wheat taken here to-day for direct export. It looks like 1½ million increase in visible Monday, perhaps more. Primary receipts wheat 1,224,000 bushels, against 643,000 a year ago. Minneapolis wires that the cash demand is very light and particularly on low grades. We expect to see little more life in the market next week.

Corn—Dull and without feature. There was some changing of December to May, but the trade was very slow and confined to local operators. The market closed at about ⅛c less for the day and without a feature worthy of note.

Oats—There was some pressure to sell December oats to-day. The bull crowd did not show up. The advance for past few days has resulted in liberal country offerings, and that is the cause of the heavy receipts. New York reports 50,000 taken for export to-day. The market has lacked the snap it has had for several days past, but no doubt it was owing to the dullness in wheat and corn to a great extent.

Provisions—Dull and lower, and they look as though there might be a further decline. Receipts of hogs heavy, 45,000 for next Monday, 190,000 estimated for next week. The receipts at seven principal points to-day 47,000. The only demand came from the shorts. All the packers were selling. We look for lower prices next week.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Chicago to-day:

Wheat—The decline in Liverpool this morning rather abruptly terminated the good feeling that existed among some of the bullish contingent, who, last evening, in defiance of the rigid rules against curb trading, succeeded in getting the market quoted up ½c before they went home to dinner. This morning, however, things were different, and they were main sellers. The market ruled easy and declined about ½c. There were reports late that another lot of wheat had been bought in Duluth for shipment to this market. December trading is growing no larger every day and the shorts are getting under cover. The puzzle is who has been supplying them all along, as there are no indications that the big holders have marketed much. The only items of interest to-day were the large weekly clearances as compiled by Bradstreet and the gyrations of the Liverpool market. We do not expect much change in character of the market in the immediate future.

Provisions—Opened weak and lower. Receipts of hogs liberal at all packing points. Packers sold January and May ribs freely, causing decline to about lowest prices of season. Estimated receipts of hogs Monday 45,000, next week 190,000. Market closes easy at lowest prices of the day.
