> What a difference there is in women what a difference there is in women. The actual number of years they have lived seems to have little to do with their looks. Some women at 45 look and act younger than others at 30. Their eyes are brighter, their complexions fairer, and there are not nearly so many wrinkles. Old Father Time deals gently with a healthy woman, but

when a woman is run-down with the drains, pains, displacements and weaknesses pecu-liar to her sex, she ages fast. The wrinkles come early. The roses in the cheeks van-ish, and an anawholesome pallor spreads ish, and an unwholesome pallor spreads over her features. She becomes nervous, petulant, fidgetty. She loses flesh, and drags about in a most miserable state of body and mind. Such a sick woman needs Dr. Pierce's Favorite Prescription. This medicine will restore the looks of younger days by strengthening her in a womanly way. It will do what powders and paints and "beautifiers" can never do. It is a non-alcoholic and non-narcotic preparation. The stimulation and strength it imparts are permanent. It cures all the distressing permanent. It cures all the distressing ailments commonly called "female troubles." There is no other remedy so good for this purpose. When a medicine dealer

"I have been in poor health more or less all my life." writes Mrs. M. F. Long, of Le Loup, Franklin Co., Kans. "A specialist said I had ulceration of the womb and that an operation would have to be performed. At last I wrote to Dr. Pierce asking advice. I received an answer advising me to try his medicines, his 'Favorite Prescription.' 'Golden Medical Discovery,' and also his 'Piessant Prests.' In one month I gained eight pounds. After taking two bottles of each medicine, I began to look like a woman and not like a wasted skeleton. That weary, tired feeling has all left me."

In regard to the various projects for making the Maritime Provinces of Canada the gateway to Europe, the great fact to bear in mind is that the Intercolonial Railway is a necessary adjunct of them all. Whether the daily transatlantic ferry be established via Newfoundland, Sydney, Louisburg or Halifax, the Intercolonial will play an important and necessary part in the system. It is somewhat significant that the C.P.R. should be scheming to get possession of the Intercolonial at the present juncture. Does it not look as if a new competitor was entering the field, and that the C.P.R. desired to head it off? With the Intercolonial in its possession, the C.P.R. would monopolize Canada's unique transatlantic advantages. No New York syndicate could enter the field with the C.P.R. in control of the Intercolonial. Competition would be stifled and any independent effort to secure a short transatlantic service would be impossible.
