VOL. XXXVI.—No. 12,901

WAR TAX ON AMUSEMENTS IN ONTARIO

FIGHTING WITH LITTLE CHANGE ON FRONT NORTH OF VERDUN
NIAGARA FALLS PLANT BLOWN UP; 5 PEOPLE KILLED

PLANT AT FALLS BLOWN UP AT LEAST FIVE LIVES LOST

Second Attempt to Dynamite Castner Electrolytic Alkali Works Results in Complete Destruction of Factory—May Order Out Militia.

Special to The Toronto World. NIAGARA FALLS, Ont., March 7.—The Castner Electrolytic Alkali Co.'s large works situated on Buffalo avenue and 24th street at Niagara Falls, N.Y., were completely blown up about 10:30 p.m. The explosion completely demolished the plant, killing five men and injuring more than a dozen other persons so far as known. There were some seven or eight distinct explosions following closely one after the other. The plant manufactured caustic soda and material for high explosives, employing a number of men working day and night shifts.

A general fire alarm was given calling out the entire city fire and police departments.

An attempt was made some six weeks ago to blow up the same plant with dynamite, a part of which only went off, causing slight damage to a part of the building, but the work this evening was successful.

It is feared twelve or more lives may be lost.

The greatest excitement prevails at Niagara Falls, N.Y., and is expected the state militia will be ordered out.

Guards on Alert. The noise of the explosions was heard on the Canadian side and guards were rushed to the various bridges and other points to forestall any possible pro-German demonstration, the name having spread that the plant was blown up by pro-German agents.

Three weeks ago one of the walls of Castner Alkali Co.'s plant was wrecked by an explosion, and the police subsequently found several sticks of dynamite with fuses attached in other parts of the building. Both firms make bleaching powders. At that time it was said that the electro-chemical companies were making a high explosive from by-products which was being sold in Europe, but this was subsequently denied by officials of the Castner Co.

BERLIN MAN CRUSHED IN STORE ELEVATOR

BERLIN, Ont., March 7.—Chris Engel, 26-year-old, a member of the new firm of Gross and Engel, who are opening up a store on East King street, nearly met his death this afternoon while ascending an elevator in the store. He fell a compound fracture of his right leg was broken and he was badly hurt. He was taken to the hospital and is expected to recover.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

AS the Germans continue to bring up fresh troops against the forward positions of the French on the western bank of the Meuse, they keep on gaining a little position here and a little position there, but they have not yet seriously tackled the first strong lines of defence constructed in this region by the army of General Joffre. When they come up to these organizations, Deadman's Hill and Goose Hill in particular, they will land up against a tough proposition, it is predicted in Paris, and the fighting then will be serious. The Germans omitted to mention, contrary to all precedent, the success that they gained at the Village of Forges, in their official report of yesterday, and their silence on this progress may be due to the suspicion that the French are leading them into a trap, their reluctance to mention the fact that any serious fighting has been going on in this region, and their timidity in risking the creation of hopes in Germany that will be dashed to the ground.

The later tendency of the Germans to diminish the magnitude of their communications on every slight success may be due to the increasing anxiety which is awakened in Germany whenever reports of heavy fighting are spread about, for the heavy losses which the German troops have incurred by their unsentimental tactics of massed assaults cannot be wholly kept secret, because they are felt in every German community. The war to the German people now seems to drag on for the sole purpose of losing more men. As more elderly men are thrown into the melting pot of the combat, the tendency will be for discontent to grow more widespread. If the allies go on with the killing of a few hundred thousand more Germans and Austrians discontent with the war will grow, perhaps, beyond bounds in the central empire. It is said that by this time the dead losses of the Germans are close on four millions of men. They have had over one million killed or died of wounds or of disease. Adding half a million more to the killed and a million and a half more to the main-

BORDEN HOLDS SHELL INQUIRY NOT ADVISABLE

If Imperial Government Gives Consent, However, Steps Will Be Taken.

DEMAND BY LAURIER

Premier Accused Opposition Leader of Relying Entirely on Newspaper Clippings.

By a Staff Reporter. OTTAWA, Ont., March 7.—Sir Robert Borden as head of the government announced in the house of commons tonight that no parliamentary investigation would be ordered into the transactions of the shell committee. The shell committee, he said, acted for the British government and the moneys it expended were the moneys of that government. The British Parliament had an undoubted right to make the investigation and that being true it must be evident that the Canadian Parliament had no duty to perform in the premises.

As a matter of fact, he understood that the British authorities were entirely satisfied with the work of the committee and that the prices paid for munitions in Canada were, on the whole, lower than the prices paid in England and the United States. If an investigating committee were appointed it would have to enquire not only into transactions of the British government in Canada but also into transactions of the British government in the United Kingdom. No investigation certainly could be ordered without the sanction and approval of the imperial authorities.

Laurier's Resolution. The prime minister's announcement came in the course of his speech in the debate that arose today upon a resolution offered by Sir Wilfrid Laurier calling for the appointment of a special committee to enquire into the purchase of shells, munitions, and other supplies by the shells committee. The debate was opened by Sir Wilfrid Laurier himself, who argued

SITUATION UNALTERED IN SOUTHERN ARABIA

Small British Flying Column Recently Had Clash With Turks.

LONDON, March 7.—The situation at Aden, southern Arabia, is unchanged, according to an announcement made tonight by J. Austen Chamberlain, secretary for India.

"There have been no recent operations," says the announcement, "except a brush with the Turks Feb. 24, in which a small British flying column inflicted casualties on the enemy."

SASKATCHEWAN WILL HAVE COURT OF APPEAL

It Will Consist of Four Judges—Stipends Are Attractive.

By a Staff Reporter. OTTAWA, March 7.—Hon. C. J. Doherty has given notice of a resolution for the establishment of a court of appeal for four judges in Saskatchewan, in addition to the present supreme court of six judges. The chief justice of the court of appeal will get \$8000 and the three puisne judges \$7000 each. The chief justice of the court of King's Bench also get \$7000 and the five puisne judges of the same court will get \$6000 each.

RESPA IS ON HIS WAY TO KINGSTON FOR LIFE

Convicted Windsor Dynamiter Spent Night in Toronto Police Station Cells.

Charles Respa, convicted Windsor dynamiter, and William Lefler, an accomplice, who were sentenced to life and to ten years in the penitentiary respectively, arrived in Toronto at 11 o'clock last night in the custody of Inspectors Boyd and Miller and Provincial Constable J. H. Smith of Walkerville, and were lodged in the cells at Court street police station. The prisoners were handcuffed to the policemen, and came from the Union Street in a taxi. They will be taken from Court street this morning, thence to Kingston.

The charges against Respa were: Dynamiting the Peabody Overall factory at Walkerville, June 21; conspiracy with Albert Kalschmidt to blow up the Windsor armory, and placing a bomb under the Windsor armory.

He was tried on the above charges by Chief Justice Falconbridge, Sandwich, contested and was sentenced immediately.

Lefler was chief witness for the crown. He identified Respa as the man who called at the Tate factory for the suitcase and dynamite on the night of the explosion at the Peabody plant, and the firing of the unexploded bomb under the Windsor armory. He also said that he had met Respa and Kalschmidt in Detroit on the morning of the explosion, when they asked what damage had been done.

The prosecution also submitted a letter which Respa had thrown into the river at the time of his arrest at Bois Blanc Island, in which he told Fred Bonninghausen of West, Ho-Nese, N.J., to address his letters to "Frank Respa," as he was afraid those addressed to him as Schmidt were being opened. Respa admitted planting explosives under the Walkerville plant.

GEN VON LOTTERER KILLED AT VERDUN

LONDON, March 7.—Major-General Von Lotterer, commanding the German artillery division at Verdun, is reported to have been killed in action, says a dispatch from Amsterdam to the Exchange Telegraph Co.

PRO-GERMAN PASTOR TOLD TO LEAVE CANADA

BERLIN, Ont., March 7.—It was learned tonight that as a result of the visit of a Dominion police officer to Conestoga, recently Rev. Mr. Man-son, pastor of the Lutheran Church there, was notified to resign his pastorate and leave the country. Pro-Germanism is alleged. He has resigned, but has not left the country, as he was seen in the city this afternoon, but could not be interviewed.

TO EXTEND BOUNDARIES

At a meeting of the Weston Town Council, held last night, it was decided not to amalgamate the offices of clerk and treasurer as had been contemplated. A proposal to extend the boundaries of the town was discussed at some length, but no definite action was taken.

GERMANS GAIN IN WOOD GOOSE TO GOOSE HILL

Violent Infantry Attacks on Several Miles Front Succeeded at One Position.

FRENCH LOST FRESNES

Enemy Driven From Post East of Meuse—Australian Guns at Verdun.

Special Cable to The Toronto World. LONDON, March 7.—A footing was gained by the Germans thru a violent attack of Crow's Wood, southwest of Goose Hill, west of the Meuse, and about nine miles northwest of Verdun, today, while after temporarily capturing a small redoubt from the French in Hardaumont wood, east of the Meuse, the Germans were immediately ejected by a counter-attack.

The fighting on the line, Bethancourt-Crow's Wood-Goose Hill, on the western side of the Meuse, was extremely violent today, with the Germans delivering many violent attacks along the whole front. In only one case did any success come of these onsets, that being in the case of Crow's Wood. Across the Meuse, at a point lower down in Hardaumont Wood, the Germans fired a great many shells, but did not permanently gain any ground.

The artillery bombardment on the French lines west of the Meuse, and German trenches east of Wavviller, continued with big 12-inch shells. Fresnes Lost By French. Fresnes, in French, who report that the enemy occupied the village after an engagement which cost him serious losses.

The French, during the day, carried out a bombardment of Diefenbach, in the Vosges east of Mulhouse, and of German trenches east of Wavviller. The French afternoon statement said that following the bombardment, the German force was able to advance along the railway line in the neighborhood of Regnyville, and that a German division 20,000 strong, captured

(Continued on Page 5, Column 6)

GERMANS TRY TO CUT VERDUN-CHALONS LINE

Immediate Objective of Drive West of Meuse Eight Miles Distant.

COUNTRY IMPASSABLE

Foe Forced to Attempt Impossible in Turkey.

PARIS, March 7, 6:01 p.m.—The immediate objective of the German attacks on the northwest of Verdun, resulting in the occupation of the French advanced post of the small village of Forges, appears to be to take the railway between Verdun and Chalons.

From the Cote de L'Orle to the Chalons-Verdun railway there is eight miles of territory, reported to defend. One great difficulty for the Germans to overcome is it is pointed out, would be the heights of the Bois Douvris, a Charny, on which the French have the aid of all the defensive organizations of the fortress. The Germans now hold in that territory the interior of the loop of the Meuse.

French military critics continue to search for a reason that could impel the German effort against so difficult a position at Verdun and its adjacent defences lines on the right and left. The "Times" concludes that the events in Turkey mark rapid steps in the Russian advance toward the east of Europe. The Russians have opened in Persia Kerman-shah, the door of Mesopotamia. Sibiria will soon be reinforced by the Serbian army and become a threat more and more formidable for the Bulgarians.

It was to counteract the impressions caused by events in the east and against not to imitate the offices of clerk and treasurer as had been contemplated. A proposal to extend the boundaries of the town was discussed at some length, but no definite action was taken.

AMUSEMENT TAX IN ONTARIO ANNOUNCED IN NEW BUDGET

The Budget in a Nutshell

Tax on racetracks increased from \$500 per day of operation to \$1250 per day.

This of one cent will be imposed upon each paid admission to amusement halls, dance halls, moving picture theatres, theatres, baseball parks, circuses and all places of amusement.

The province has a surplus this year of \$271,000, as compared with a \$600,000 deficit last year.

Total revenue increases for the year were \$1,200,000. Ontario last year gave a total of \$11,102,000 for patriotic purposes.

Ontario's credit is second to that of no state or government in the world.

Provincial treasurer announced that the courts may be invoked to force the Grand Trunk Pacific to live up to their contract with the T. & N. O. Railway.

Ontario's total assets are placed at \$475,000,000. Provincial treasurer intimated that the federal finance minister had gone beyond federal scope in his taxation, and promised an adjustment after the war.

Ontario saved \$592,000 by investigating the Cox estate. In future the penalty of an additional tax of 25 per cent will be imposed when the total assets are not represented.

Succession duties revenues of \$1,615,000 set a new record in Ontario's history.

WILSON POLICY ON SUBMARINES WON CONGRESS

Democrats and Nearly Half of Republicans Back U. S. President.

VOTES OVERWHELMING

Obnoxious Trouble-Making Resolution Killed Amid Scenes of Excitement.

WASHINGTON, March 7.—President Wilson today won his long and arduous fight to compel congress to acknowledge that it stands behind him in the submarine negotiations with Germany.

To the rallying cries of "Stand by President" and "is it Lansing and Wilson or Von Bismarck and Kaiser?" a big Democratic majority and nearly half of the Republicans in the house three times rolled up their sleeves and voted to support the movement to warn Americans of the armed ships of the European belligerents.

The celebrated McLemore resolution, around which anti-administration forces centred their fight, was tabled—in other words killed—just as the Gore resolution in the senate last week.

Wen From Outset. On the first vote, which was a parliamentary proposition to prevent opening the McLemore resolution to amendment, the unlimited debate, 256 to 160. On that 192 Democrats, 63 Republicans and one Progressive voted to support the administration. Twenty-one Democrats, 132 Republicans, 5 Progressives, one independent and Representative London, the lone socialist of the house, voted against it.

This was the crucial vote of the fight, the one point on which administration leaders were uncertain. With victory in hand they moved on to the next proposition, the adoption of a special rule for four hours' discussion of the McLemore resolution. Again they carried the day, this time 287 to 137.

Abolish Whiskey and Vote on Beer

Editor World: As a citizen of Toronto, interested in its welfare, I believe that the complete prohibition will hurt the city from a business point of view. I am willing that the sale of whiskey be stopped all over Ontario in government-owned shops for medical and manufacturing purposes only. I want no sale by doctors. I would have the legislature put this in force at once without a popular vote. But I think the municipalities, outside of those that have already voted to vote whether they want beer to vote whether they want beer to license or not for the time of the war. When the war is over there could be a second referendum. If a municipality voted for beer it would be sold under regulations of the license commission of the province. If a word as a word measure, abolish whiskey by the legislature and have local option on beer. Business Man.

"ONTARIO" SUGGESTED AS BERLIN'S NEW NAME

BERLIN, Ont., March 7.—As a result of the work of the committee which is agitating for a new name for Berlin, the name Ontario is to be given a boost as fit and proper name. The name Bordenhurst, suggested by a Toronto morning paper, when read, brought forth the opinion that it would sound too much like an undertaker and his wagon and therefore did not find favor.

One Cent on Every Paid Admission to Theatres, Rinks, Ball Games—Race Tracks Must Pay \$1250 Per Day Instead of \$500—Surplus of \$250,000 Reported by McGarry

Places of amusement, particularly the racetracks throughout Ontario, are to provide the additional revenue required by the government during the present fiscal year. Provincial Treasurer McGarry, in his budget speech before the legislature yesterday, declared that from these sources must come additional revenue to report a deficit or because it is expected to report a deficit next year, "but because the government wish to have more money from which to give willingly, with the object of terminating this war at the earliest possible moment."

Mr. McGarry said the government had not yet worked out all the minor details of the new amusement tax, but briefly it is intended to place a tax of one cent on every paid admission to theatres, amusement halls, dance halls, skating rinks, and baseball games, and other sports held in Ontario. Entertainment for philanthropic, religious or patriotic purposes will not be subjected to the tax. The government may, by order in council, increase this one cent tax to 25 cents. Altogether the amusement tax is estimated to return additional revenues of over \$100,000 to the province.

Racetracks Pay More. The racetracks, instead of paying a tax of \$500 per day of operation, as heretofore, will pay \$1250 for each day they do business. The provincial treasurer estimates this will augment the provincial receipts by \$600,000.

There is no tax imposed on the hotel industry because the commission appointed to investigate has not yet reported; pool rooms, he said, are not included because that would be an indirect tax which can only be imposed by the Ottawa government, and no income tax is to be levied because at present the municipalities have this power.

Everybody in the house expected a good year's financial report from the provincial treasurer. Nevertheless, Mr. McGarry's statements and statistics of receipts and expenditures, additional revenues and decreased expenditures, was so optimistic that it surprised the legislature of year ago, with only three months of war to indicate its effect upon provincial revenues. The provincial treasurer reported a deficit of over \$500,000. Yesterday he reported a surplus to the credit of the Ontario Government of well over a quarter of a million dollars.

The minister explained to the house that the splendid financial condition at present enjoyed by the province was brought about by the policy of economy.

CONSTRUCTION PROGRAM INADEQUATE IN VIEW OF GERMANY'S PREPARATIONS.

Churchill Declares Fisher is Needed—Balfour States Situation Satisfactory.

LONDON, March 7.—Winston Spencer Churchill, former first lord of the admiralty, now a colonel and fresh from the trenches, sprang back into the parliamentary arena today in a daring speech, answering First Lord of the Admiralty Balfour, who had just presented the naval estimates, and said that the admiralty lacked driving force and must be revitalized before it was too late, by bringing back Lord Fisher, the former first sea lord to head the admiralty administration.

Great interest attached to Colonel Churchill's reappearance after a period of silence while serving with the army and while the naval policy he had in mind, until he closed amid a scene of much enthusiasm.

Mr. Balfour had just concluded an optimistic statement of the naval outlook, which strongly appealed to the patriotic sentiments of the house, and that Col. Churchill's criticisms were at first coldly received. But he gradually gathered attention and he gradually gathered attention and he gradually gathered attention and he gradually gathered attention.

He referred to his remarks "as a jarring note and warning," which he said had to be given. Since he returned from the front he had received information which was not entirely satisfactory concerning the progress of naval construction. Details must necessarily be avoided, but it could be said that if every capital ship provided for within the power of the admiralty was completed, the navy would be ready, with an ample margin of safety. It was within the power of the admiralty to complete this program, but he expressed doubt whether this had been done. Meanwhile there was an impenetrable veil over the German program.

Germany is Ready. "That is a grave fact," said Col. Churchill, "for, while we know nothing yet, we may be sure that something is being done. That the German navy, built up by the Kaiser's greatest efforts, is remaining idle in the Kiel Canal, without some further supreme effort for its development is unthinkable. We should, therefore, assume that Germany

(Continued on Page 5, Column 4)

INQUIRY REFUSED BY SIFTON GOVERNMENT

Demand for Royal Commission Rejected on Straight Party Vote.

EDMONTON, March 7.—In the legislature today Dr. Stanley, Conservative member for High River, moved for a royal commission to investigate his charges against the government of improper dealings with the liquor interests.

After a lengthy debate the motion was defeated on a straight party division by 30 to 14.

FOUR GERMAN VESSELS SEIZED BY PORTUGUESE

Steamers Had Taken Refuge at Port in Portuguese East Africa.

LISBON, via Paris, March 7, 4:20 p.m.—Four German steamers, which had taken refuge in the port of Lourenco Marques, Portuguese East Africa, have been seized and the Portuguese flag hoisted on them. The crews of the vessels were interned.

Spring Styles for 1917

Newest style arrivals in men's hats from the most reputable makers in England. We are sole agents for the famous Henry Heath, London-made hats. Dinsens, 140 Yonge street.
