

"Some Coat Believe Me"

So a gentleman said the other day when he was buying one of our Smart Trench models. The same can be said of every other model we have and they embrace quite a range. We are showing a new idea this year that is an outcome of the slip-on coat. 'Tis one of the cleverest conceptions we have ever seen and commands instant attention. You'll like it when you see it, and lest you forget, just ask for model "one o four." Then there is the smart Short-Cut Form-fitting, Two Button D.B. Coat, called the "Jutland." It's a winner and no mistake, made from fabrics that suggest a wealth of warmth and comfort. Our price range this season runs from \$18.00 to \$60.00, and we have never had a finer showing at any stage of our history. Dollar for dollar you can't beat our values.

FARMERS TO BACK FOOD CONTROLLER

Representative Men Promise to Help Stimulate Hog-Raising Industry.

CAMPAIGN LAUNCHED

Doctrine of Greater Production Will Be Preached Thru-out the Country.

Representative farmers of the County of York who met in the county building, Adelaide street, yesterday, unanimously endorsed the plan outlined by Food Controller Hanna at a recent meeting in the parliament buildings to add to the food supply available for shipment to the allies by the increased production of hogs in the province and throughout the Dominion. Yesterday's meeting was attended by two farmers from each township in the county, and the plan of the food controller was discussed at length. As a result farmers of the county will be informed thru township meetings to be held next week or by individuals elected for the purpose, of the present need for food and they will be asked to co-operate in the plan for increased production. J. C. Stackley, district representative of the department of agriculture, president, C. F. Bailey, assistant deputy minister of agriculture, outlined at length the proposal of the food controller. He emphasized the need for increased production by quoting from a statement recently issued by Mr. Hanna showing that France would require during the next year to import 40,000,000 hundredweight of carcasses alone. Bacon, as a compact form of food and quickly prepared for the market, was desirable, and he urged all farmers to increase their herd of hogs by keeping at least an additional sow. No Relief From States. R. W. Wade stated that the entrance of the United States into the war would not relieve the food situation in France, as food would now be required by the American soldiers in France and less able to be available for the transportation of supplies. "We do need to do all we can in the way of producing," he said. "There won't be a surplus sow to give us another hog next October if the young sows are not kept now. If we have pigs next year there is no question but that we will get a fair price. The United Empire Loyalists went into poverty for an ideal. Surely there is enough stored in the British-born of Canada to enable them to keep on doing their bit in the best way possible."

The Food Question. A discussion arose as to the feed supply. It was pointed out that feed would be obtainable in the United States as a result of the enormous corn crop of the present season. Government action was also desired in order to permit farmers to buy feed at reduced prices and middlemen from millers.

Mr. Stackley explained the plan to assist farmers in the country with the present situation, and each farmer present signified his willingness to aid in the work. E. Stonehouse stated that even if he did not make one cent more he would raise as many hogs as possible to relieve the food situation.

"It pigs will win the war let's raise them," was the suggestion of Mr. Ramsay, which was received with general approval. The scarcity of labor was a handicap to greater production, stated John Quindhouse. Referring to the exemption tribunals he stated that in some cases young men who were real farmers and producers had not received permission to remain on the farm. He could do as much work with one skilled farm laborer as with half a dozen of the ordinary variety. Farmers, he continued, realized the situation and the responsibility resting on them. The average farmer, his wife and family, were doing one-half more work now than they should have to do, but they were ready to try and produce to the uttermost.

Arthur Wheeler given over to Americans. True Bill found by jury, but United States asked to have soldier transferred.

A true bill was returned against Arthur Wheeler in the assizes yesterday on a charge of manslaughter. Peter White, K.C., counsel for the crown, moved on behalf of the attorney-general that the indictment be stayed and the accused handed over to the United States authorities. Wheeler is an American attached to the Royal Flying Corps in Canada and, while driving one of the R.F.C. trucks, ran down and killed William Eccles. The coroner's jury exonerated him of all blame, but he was committed for trial.

The United States authorities have submitted their request, thru the British ambassador at Washington, said Mr. White, "representing that as Wheeler is not in any sense connected with the British army, but belongs to the American forces, they should deal with the case. The attorney-general thinks that in view of the fact that Great Britain and the United States are now allies it is desirable to avoid any possible cause of conflict, and that in the public interest Wheeler should be handed over to the military tribunals of his own country for trial. I mention this in open court, that there may be no suspicion of secrecy or of having hushed up the serious charge which had been laid against this young man."

Justice Kelly being willing, Wheeler was given into the custody of a guard from the Royal Flying Corps. The Canadian courts have now dropped all proceedings against him and he will have to answer for the boy's death in his own country.

IRISH PROTESTANT BENEVOLENT SOCIETY. Members and friends of the I.P.B.S. are reminded of the open meeting of the society to be held on Monday evening, 19th inst., in the auditorium of the Normal School Building (Gould street entrance). An excellent program has been prepared. Archdeacon Cuddy will deliver an address on "The New Era in Canada." Miss Pearl Newton, elocutionist, Miss Lilian Dryden, contralto, and Mr. Edward L. Crawford will take part in the entertainment.

JEW'S FOUND NOT GUILTY. L. Drilleck, J. Coperberg, Ashur Sherman and M. Rosenfeld, four Jews, were found not guilty of conspiring to limit the facilities for trade of Y. Gold, in the assizes yesterday.

The evidence showed that Gold had broken one of the rules of the "junk sorters' union" in allowing men from his home town, Petrograd, Russia, to work for him. To punish him for this the four prisoners tried to prevent him from doing any business. Considerable difficulty was experienced in getting some of the evidence, but after an interpreter had been requisitioned things went along smoothly.

WORLD'S FOOD SUPPLY AWAY BELOW NORMAL. France Will Have to Import Forty Millions of Hundredweights of Cereals. In order to impress upon Canadians the seriousness of the food situation and the necessity for decreased consumption of foods vitally needed overseas Food Controller Hanna, in a communication to Sir William Hearsey, minister of agriculture, quotes figures issued by the minister for general re-venturing of France, showing the enormous decrease in the French crops for this year over former years. With the utmost economy France he states, will require to import forty million hundredweights of cereals during the coming year. The 1917 wheat crop was 39,000,000 hundredweights, as compared with the 1916 wheat crop of 57,500,000 hundredweights and the 1916 crop of 88,410,000 hundredweights. The 1917 production of all foodstuffs in France, including all cereals, potatoes and beetroot, was only 222,000,000 hundredweights as against 358,000,000 in 1916. From the above figures it may be seen that there has been a serious decline in production, and Canada will undoubtedly be called on to partially make up the difference.

Keeping the Quality Up. LAXATIVE BROMO QUININE, the World-Famous Cure for Colds and Grippe, is now 15c per box. DAVID LOWERY IS FINED ONE HUNDRED
Driver of Motorcycle Charged With Doing Grievous Bodily Harm Did Not Know Rules.

David Lowery, who was on trial in the assizes yesterday in connection with the death of Joseph Coop and with doing grievous bodily harm to George Alexander, was found guilty of doing grievous bodily harm and was fined \$100 by Mr. Justice Rose.

The charge arose out of a collision at Gould and Victoria streets on July 9 last between a motorcycle driver by Lowery with Coop in the sidecar, and Alexander on the axle, and a truck driven by Edward Woodson, against whom the jury found no bill on an indictment charging him with manslaughter.

"I did not know the rules of the road," said Lowery when asked why he had not stopped to allow the truck to pass, which was closer to the intersection than he was, and had the right of way under the new traffic rules.

KENNEDY IS GIVEN THREE-YEAR TERM
Sentence for Conspiring to Procure Illegal Act on Hughey Girl.

Byron S. Kennedy, convicted of having conspired to procure an abortion on Miss Mabel Hughey, was sentenced to three years in the penitentiary by Mr. Justice Kelly in the assizes yesterday. "You're a deliberate act, a sordid attempt to earn money," said Justice Kelly. "Morally is the very foundation of our civilized life, and you and people like you enable young girls to do wrong and then escape the consequences. It would be a travesty of justice not to punish you after the jury has found you guilty of this very grave offence. The public must be protected and others like you must be warned."

In an effort to shorten his sentence Kennedy's counsel pointed out that Kennedy was 66 years old and previous to going into this business ten years ago had a clear reputation. Sentence Deferred.

Sentence was deferred in the case of Dr. Cecil Clemmer pending his lordship's decision on the application of Clemmer's lawyer for a stayed case. Clemmer was convicted of having committed an abortion on Mabel Hughey. A member of the jury called Clemmer a "scoundrel" and to Clemmer's character. Among them was Major R. McCormack, who told of the good work Clemmer had done for returned soldiers.

T. C. Robinson, Clemmer's counsel, said that his client, who is an ardent soldier, would be willing to join the army if his sentence was suspended.

GOVERNMENT CATCHES UP WITH FISH ORDERS
Is Able to Supply All Demands for First Time Since Undertaking Work.

The provincial fisheries department was able yesterday, for the first time since the inauguration of the government campaign several weeks ago, to supply citizens of Ontario with cheap fish to meet the demand for all local dealers. About 20 tons of fish from Lake Erie, Georgian Bay, Lake Nipissing and Lake Nipigon arrived in the city yesterday, of which a portion was redispensed to other cities. Of this supply one Georgian Bay fisherman alone supplied 17,000 pounds of whitefish. Citizens who are unable to secure any government fish for the week-end may therefore place the blame on their dealers rather than on the government.
