school has a willing band of workers in its teachers and officers; but there is room for more scholars; and the Church would be doing a grand thing in helping us obtain them. One good step in advance has been achieved during the last quarter of '91, in the establishment once more of a young men's class, which experience has taught us is the most difficult to sustain. Mr. C. M. Woodworth, who has charge of this class, is meeting with encouraging success

Our Librarians, Messrs. Barnstead and Yates, have done excellent service in this important branch of work. The only thing to be desired in this connection is an addition to the library.

The Secretary! what shall be said of him? "Instant in season and out of season"; always at his post; painstaking and accurate in his keeping of the records; prompt and regular in the performance of the many duties incumbent upon a live secretary. To Mr. Toale is due, and is unhesitatingly given, the warmest appreciation of the teachers for the efficient work so cheerfully given.

Ten years ago, the average weekly collection was 90 cents. In recent years, since the adoption of the envelope system, it has reached over \$2.00, last year's average being \$2.18, while that of the last quarter was \$2.52 per Sunday. Of the money contributed, \$50.00 is devoted to Missions. \$16.91 has been given by the primary class for the support of a little boy in India. Besides this the class has contribuild about \$6.00 to the general fund of the school. Mission work has not been prosecuted so vigorously as heretofore--the Mission Band, the past year and a half or more, having lost its identity, and become part of the Sundayschool; about the only work done in this way being two quarterly services and the four collections taken on the last Sabbath of each quarter. In order to do effective work, this matter of organization seems to demand serious attention.
