

1st MONTH,

JANUARY,

HATH XXXI DAYS.

THE SUN.—The centre of our Planetary system, the source of light and heat, is about 880,000 miles in diameter, and turns on its axis in about 25½ days. It is more than 500 times larger than all the planets and comets of our system. (Were its light extinguished, desolation and death would reign throughout many worlds.) There is another Sun which gives light and life to the human soul. Jesus Christ is that Sun. *The Bible* is the medium through which his light passes to the mind. *Read it,—endeavour to understand it—believe it—obey it—and you will live for ever.*

MOON'S CHANGES.

Full Moon, 5th day, 0 hours, 38 minutes, evening.

Third Quarter, 12th day, 4th hour, 35 minutes, evening.

New Moon, 19th day, 1st hour, 22 minutes, evening.

First Quarter, 27th day, 7th hour, 35 minutes, morning.
