## DIG INCREASE IN CARS PREDICTED

Benjamin Briscoe Believes There Will be 5,000,000 Automobiles in Use in 1919

Five million automobiles in America by 1919, or 2,600,000 more than the number now in use, is the forecast made by Benjamin Briscoe, president of the Briscoe Motor Corporation, in his book Looking Forward in the Automobile Industry, advance copies of which have just come from the press. Mr. Briscoe estimates that the output for 1916 will aggregate 1,200,000 cars, and, to illustrate the gigantic strides which the industry has made, sets this enormous figure alongside 3,700, the number of cars of all makes produced in 1896.

"We have in use today practically 2,400,000 automobiles," says Mr. Briscoe in his book, "and the estimate of production for this year is 1,200,000. This estimate probably is somewhat extravagant on account of the difficulties experienced by many manufacturers in obtaining material and labor. The automobiles made in 1911 will have gone out of commission some time in the course of 1916, so if there should be, say, 1,100,000 cars made this year the increase in the number of automobiles at the end of 1916 would be about 800,000. This would start 1917 with 3,900,000 cars.

"For the year 1917 we would deduct the 1912 production of 400,000 and add 1,100,000 cars, which probably will be the production for 1917 (production still being influenced by shortage of material and labor), giving us a total at the end of 1917 of 4,000,000 cars in use. At the end of 1918 deduct the production of 1913 on approximately 500,000 and add 1,500,000, making a net increase of 1,000,000 cars. Therefore, July 1, 1919, there will be 5,000,000 automobiles in use. Estimating these figures as being approximately correct (and they may vary up 500,000 or down 500,000), there will then be 'rolling in the United States a total number of about 5,000,000 automobiles'.

Mr. Briscoe concludes from income statistics, population increases, wealth gains, etc., that the "saturation" point is more likely to be 8,000,000 cars than 5,000,000. He states that half the machines now being sold are bought by farmers, and that of all the farmers in America at least fifty per cent eventually will have automobiles within the next few years, giving more than 3,000,000 automobiles to the agriculturists alone.

Going further into the future, Mr. Briscoe says that in 1920 the 1915 cars will have to be replaced. He estimates the number at 900,000. To this will be added the sales from the increase in

## SUGGESTIONS TO SICK WOMEN

How Many Are Restored To Health.

First.—Almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements, pain in the side, burning sensation in the stomach, bearing down pains, nervousness, dizziness and sleeplessness.

Second.—The medicine most successful in relieving female ills is Lydia E. Pinkham's Vegetable Compound. It regulates and strengthens the organism; it overcomes disease.

For forty years it has been making women strong and well, relieving backache, nervousness, ulceration and inflammation, weakness, displacements, irregularity and periodic pains. It has also proved invaluable in preparing for childbirth and the Change of Life.

Third.—The great number of unsoothed testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Fourth.—Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, will bring you health and may save your life.

roughly safeguarded that not a single life has been lost during the sea passage. When Mr. Peterson was paged at St. Paul, Minn., hotel to answer a telephone call seven men of that name were found in the lobby. The man wanted was among them.

## What the HOOSIER Cabinet Will Do For You

- Places for 400 articles all within arm's reach.
- 40 labor-saving features, each like a helping hand.
- The Hoosier will cut your kitchen work in half.
- Will save you miles of steps.
- Will save you hours of weary toil.
- Will make it a pleasure to cook and bake.
- Will save your energy and beauty, and keep you feeling young and strong.
- Will help you get good meals quickly.
- Will help you tidy up in just a few moments when the meal's over.

- Join the Club Today
- 1.—\$1.00 puts this Hoosier cabinet in your home.
  - 2.—\$1.00 weekly quickly pays for it.
  - 3.—The low cash price fixed by the factory prevails strictly.
  - 4.—No interest or extra fees.
  - 5.—No collectors going to your home.
  - 6.—Only a limited number will be sold during this sale.

**The Immediate Closing**  
of this sale may be caused by tomorrow by the number of women who enroll on this Hoosier Plan. If all the women who need Hoosiers should come tomorrow our allotment would be taken by night and the sale would close. This has happened in many similar sales throughout other cities. On the other hand, if women delay, the sale may last all week. This, too, has happened. Which now is best for you, to delay and take chances of missing this opportunity or come today and find out about this cabinet so you can decide before it is too late.

## A Centralized Storehouse

The Vital Part of Your Cabinet

The picture above shows how the scientific arrangement of the Hoosier makes it a real helper. Storage space is above and below. There is plenty of unhampered room above and around the aluminum work-table.

There are no useless little partitions to chop up the space and leave no room for work. Your cabinet must have big table space to work on. The Hoosier gives it.

Come and see these six exclusive Hoosier features:

- 1.—The all-metal glass front flour bin.
- 2.—The gear-driven shaker flour sifter which makes flour light and fluffy.
- 3.—Scientific arrangement—articles needed most frequently easiest reached.
- 4.—Revolving caster (shown in center of illustration).
- 5.—The ingenious, big-capacity sugar bin—holds more than twice as much as most other bins.
- 6.—Finally, either doors with a handy rack for small utensils, or rolling doors.
