A wireless received today from the steamer "New York City," now on her way from Wales, indicates that she will be in St. John by Friday morning with a large consignment of Welsh Semi-Anthracite for the Consumers Coal Company.

The Consumers Coal Company report that they have just about completed partial deliveries on their orders, in accordance with the Fuel Controller's demands, and that, starting early next week, they will be in a position to make complete deliveries of all their orders, and will also be able to supply a great many other customers as well.

The retail price has not been set on this cargo yet, but it is hoped that it will be in the vicinity of 60c. less than the last shipment, which will be welcome news to those who had to wait for the balance of their coal. 10-18

Then you'll be able to see what you save in money as well as time these days with coal sky high and scarce, and flour up again in price. It is always up, the way you have to buy your ingredients as compared to the carload savings Robinson's is able to share with you on top of wholesale cooking.

Bread of the Robinson class has induced by far the majority of housewives, in city and town throughout America, to study out the savings in work and expense provided by such community baking as you have
