

HON. W. E. FOSTER, Premier of New Brunswick

## To The Women of New Brunswick

For the first time in provincial affairs, the full and free right to the franchise is extended to women and all those registered have the privilege of voting on October 9. Many women will thus cast their ballots for the first time and it is fortunate that the issues in this election are so clean-cut and clearly defined. Women electors must choose between the two parties, the one led by Hon. W. E. Foster, the government party, and that led by J. B. M. Baxter, the Opposition party.

Governments are judged on their records. Oppositions must be judged on the records of the men composing that opposition coupled with their pledges for future performance. Consider the record of the Foster government:

1. They gave the provincial franchise to women.
2. They have greatly extended and enlarged the beneficial work of the Women's Institutes in New Brunswick.
3. They enforced the Prohibition Act of 1916 and granted a plebiscite which will result in the act being strengthened and made permanent.
4. They have protected the family of the workingman through the creation of a Workmen's Compensation Board which does away with the necessity for legal action before the injured workman is recompensed for time lost and for doctors' bills, hospital fees, etc.
5. They have cleared the province of small-pox, rendered practically the whole school population immune from the disease and introduced a system of medical inspection of schools unrivalled by any other province of Canada.
6. They have taken steps to prevent the spread of social disease and through progressive legislation put in force the proper keeping of vital statistics, thus assuring every child born in the province its own legal rights.
7. They have increased materially the government grant to teachers and made adequate provision for technical training in Vocational schools.
8. They have raised the whole standard of rural life through proper attention to Road building, both back and front roads, making possible as well as more ready sale of, and better prices for, Farm Produce.
9. They have guarded the finances, preserved the Crown Lands and have taken the first and most important steps for the development of our Water Powers which means eventually more work and better wages in industrial centres.
10. They have conducted the affairs of the province throughout three and one-half years in an honest, business-like manner without breath of scandal or suspicion of wrong-doing.

### NOW WHAT OF THE OPPOSITION?

Their record while in power was strikingly bare of Progressive Legislation while they must face responsibility for the timber limits scandal, the Valley Railway scandal, the Southampton Railway scandal, the Patriotic Potatoes mess, and other unsavory transactions which took altogether some \$500,000 from the people of the province.

And yet the Opposition party, so far, has produced no platform but this slogan:

### "WE STAND FOR THE SAME PRINCIPLES"

Women surely stand for purity in politics and all that is best in public life. Need they hesitate?

The leader of the government, Hon. W. E. Foster, is a man with private life above reproach who, at an early age, assumed the full duties of citizenship and who is known everywhere as a man of high ideals and rare qualities. He and members of his government are worthy of every woman's confidence.

## A HANDY MAN TO HAVE AROUND

Street Watchman Opens  
House Doors in Madrid  
When Occupant Comes  
Home Late.

Madrid, Sept. 11.—(A. P. Correspondence)—The serenos—or night watchmen—of Madrid feel highly flattered by the announcement that London is about to follow the example of Spanish towns and organize a corps of guardians and key-holders in order to prevent burglaries.

Since the year 1798, the corps of serenos has existed in Madrid. From 10 o'clock at night until 7 in the morning, in winter, and until 6.30 in summer, the sereno is on duty around every block of houses in the city. Citizens arriving at their house doors after 10 in nearly all cases find them closed and as it is unusual to carry a key—generally of inconvenient size—they are compelled to call the watchman. This is done by clapping the hands, a call which brings him to the scene with his lantern hanging on a kind of lance and the keys of all the houses hanging in a bunch. In most instances he knows the occupants of the houses and he precedes them to their flats if they have not the apartment key in their pocket, or gives them a small taper lighted from his lantern to light them up the stairs if they do not need his master-key.

The payment is small, usually two cents for a pedestrian, but double that amount for persons arriving in a carriage. Boarding house keepers generally pay so much monthly to the sereno.

The custom of the sereno calling out the hour and weather throughout the night has died out in Madrid, but continues in the country.

## GRAVE CHARGE MADE BY EX-U.S. TREASURY MAN

Says Millions of Dollars of  
Duplicate Liberty Bonds in  
Circulation.

Washington, Sept. 30.—The startling charge that many millions of dollars in duplicate numbered Liberty bonds are in circulation in the United States was made public in a letter sent to Secretary of the Treasury Houston by J. W. McCarter, who recently resigned as assistant registrar of the treasury.

Mr. McCarter also alleges that millions of dollars' worth of other Liberty bonds, which were paid for by the treasury, but were never cancelled, are also again in circulation.

Many such bonds, he says, have been stolen from the treasury.

If Mr. McCarter's allegations are true, then many bonds now held by some of the 21,000,000 Liberty bond subscribers have already been paid off by the government.

It would appear, however, that this stupendous loss, being due to the alleged carelessness of the government, will fall upon the treasury, and not upon holders of the bonds.

In his letter, Mr. McCarter gives a long list of bonds, which, he declares, are denominated, which, he declares, were redeemed and reached the paid securities vault for destruction, but were never cancelled or marked "paid" in any manner whatever.

## TURKEY IS A PAINTLESS LAND

Unpainted Houses Taxed  
Less, Hence Present Condi-  
tions.

Constantinople, Sept. 8.—(A. B. Correspondence)—Turkey is a paintless land. Most of the houses are wooden and unpainted. This is not a condition growing out of the war. The short-sighted policy of the government in imposing taxes on buildings in proportion to the sightliness of their exterior has encouraged shabbiness.

Even in Constantinople a large percentage of the residences and many of the business houses are of wood. Many of the large apartment houses and office buildings have brick or stone fronts, but wooden sides and backs. Hence the disastrous fires which have laid more than one-third of the city in ashes since the beginning of the war, and the general terror of the population when a fire alarm sounds.

Constantinople and most other Turkish cities would doubtless have been destroyed by fire long ago were it not that the shabby wooden and semi-wooden buildings have tile roofs. These roofs of bright red tile are in striking contrast to the dingy grey walls, rotted and stained by the weather.

In the past Turkish tax assessors frequently imposed twice as high a rate upon a well painted house as that levied upon an unpainted house of exactly the same construction in a similar locality.

**CANADA'S GREAT CROP.**  
According to the threshing returns the general harvest throughout the Dominion is greater in volume than that of last year by 21 per cent. The yield of wheat is approximately 267,000,000 bushels, of oats, 496,000,000 bushels, and of barley, 68,000,000 bushels. The corresponding figures in 1919 were as follows: wheat, 198,000,000 bushels; oats, 294,000,000 bushels, and barley, 56,000,000 bushels.

## BEWARE OF TENDER GUMS

Unhealthy soil kills the best of wheat. Unhealthy gums kill the best of teeth. To keep the teeth sound keep the gums well. Watch for tender and bleeding gums. This is a symptom of Pyorrhea, which afflicts four out of five people over forty.

Pyorrhea menaces the body as well as the teeth. Not only do the gums recede and cause the teeth to decay, loosen and fall out, but the infecting Pyorrhea germs lower the body's vitality and cause many serious ills.

To avoid Pyorrhea, visit your dentist frequently for tooth and gum inspection. And use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

## DISPLAY OF FALL MILLINERY AT THE M. R. A., LTD. STORES

A very authentic showing of what is newest in millinery and women's simply trimmed and hatted hats, is now on view in the costume section of the M. R. A. stores. These hats are in plain and novel shapes, and are in most cases made of genuine velours, duvetyns, plush, velvets and plushes. All the colors most in demand for the new season are evident, and you will be delighted at the variety of hats at popular prices from which to make a very satisfactory selection. On account of the large number of hats showing and the limited space in the millinery salon, this showing will be in the costume section. Be sure and make it a point to see this display. The hats are smart in every little detail, and the values very remarkable.
