**FALLS FROM EIGHTH**  
**STORY OF THE REFINERY**  
**AND LIVES TO TELL IT**

To fall from the eighth story of the main building of the Atlantic Sugar Refineries, Ltd., plant at the Ballast wharf, a distance of between 110 and 120 feet and live to tell the tale, was the unique experience of Ralph Smith, a painter in the employ of the E. G. M. Cape Co. He is now in the hospital with a dislocated elbow, a gash on his lower lip and two broken teeth, but otherwise apparently uninjured, although internal complications may develop.

Smith and another painter, whose name is said to be John Mudge, were on a swinging stage suspended by rope from two blocks at the top of the building and were engaged in painting the window sashes on the eighth floor. Without a moment's warning the rope on the end on which Smith was, gave way and before he could realize what had happened, he was falling to the ground more than 100 feet below. Those who witnessed the accident hurried to the spot where the man had fallen, expecting to find him badly injured, but he was dead. But luckily he fell in a pile

**WILL OF SAMUEL WILSON**  
**DIVIDES A \$21,000 ESTATE**

In the probate court today the will of Samuel Wilson, late of Carleton, was proven. He gives all his property to his executors and trustees in trust for the benefit of his wife during her lifetime with power to use a portion of the principal if necessary for her maintenance and after her death to pay to his brother, William Thomas Wilson \$4,000; to his nephew, Samuel Wilson, \$400, and the rest to be paid to his daughter, Gladys Elizabeth Wilson, and he nominates his wife, Elizabeth Wilson, and Walter E. Foster executors and trustees. They were duly sworn in as such. Real estate consists of property on the West Side valued at \$1,000; personally \$20,000; total estate \$21,000. Baxter & Logan are executors.

The court took up the matter of the estate of Mrs. Caroline Tennant, widow of David Tennant, who was St. John Inspector of water meters. Mrs. Tennant died intestate on July 16, 1914. She left one brother, Thomas Moss of Black Diamond, Washington, formerly a miner. There are five sisters, Mary, wife of John Foster; Jane, wife of William Foster; Frances, wife of William Kennedy; Ann, wife of John Holland, and Isabella, wife of Benjamin Burgess, all of whom with their husbands died before her, most of them leaving children, some of whom live in Springhill, others in Sydney Mines, Nova Scotia, Freehold, Pennsylvania, and elsewhere. On the petition of the brother and of Mrs. Mary Canning, of Springhill, a niece, Henry F. Puddington of St. John, barrister at law, was appointed administrator. There is no real estate, personally \$400.

**EARLY BEGINNING OF AN ANNUAL TROUBLE**

John Parkham, seventy years of age, a native of Labrador, was St. John magistrate this morning for the second time within a week, charged with being a common vagrant. He said he came to St. John on a two-masted schooner from Halifax. He was remanded to jail. The magistrate said that Detective Killen should find out what vessel or rafts brought such people to St. John at this time of year, as it seemed to be an annual event to have such men "dumped" here.

**Montreal May Buy**

Montreal, Sept. 15.—The board of control's report in favor of the city purchasing the Montreal Water and Power Company's business at approximately \$7,700,000, definitely decided upon by a majority of the board yesterday, will be considered by the city council on Thursday.

**ENGAGEMENT ANNOUNCED**

Mrs. Louisa F. Ramsey, 27 Murray street, has announced the engagement of her daughter, Rosena, to Henry J. Wagner of Miami, Fla., and now of New York. The marriage is to take place in St. John early in October.

**WOULD FORM BATTALION**  
**OF P. E. I. INFANTRY**

Desire is to Have it as One Unit Under Its Own Officers — The Oats and Money Contributions

Charlottetown, P. E. I., Sept. 15.—Volunteers are now being called for raising a battalion of infantry to go to the front as one unit under its own officers. So far about 250 men have left the island for war service.

**Oats and Money**

Preparations for collecting the 100,000 bushels of oats which the island is presenting to the British government are now well under way, and on the 20th the canvassers will begin work among the farmers. Whilst the Nova Brunswicks government are buying from the farmers the 100,000 bushels of potatoes for presentation to the mother country, the Prince Edward Island government is not called upon to expend any money. The oats are being donated by the farmers, and each man will do his own bagging, as well as his own carting. The oats ordered from abroad, arrive. The expense of shipping, including the cost of the bags and the freight across the Atlantic are being borne by public subscription. For this purpose the Army Field Service Fund was started. Already amounts to \$7,000. The Nova Brunswicks government are among the generous contributors, there being some gifts of \$500 and quite a few of \$250. It is expected that the \$10,000 required will be readily raised. When it is considered that more than 4,000 was raised for the Canadian Hospital Ship Fund and that the Red Cross Fund is now about \$2,000, it will be seen that the people are alive to the need of rendering Britain aid in the great struggle.

The Red Cross movement is just beginning to be taken up in the country districts and in addition to money large grants of clothing &c. will be forthcoming.

So far nothing has been done with respect to the Patriotic Fund for the relief of the wives and families of the soldiers called to the front, but there is no doubt that contributions to this will be forthcoming. The government may devote a portion of the amount received on account of the oats to the Patriotic Fund.

The island year has probably the largest crop of oats in its history, more than 6,000,000 bushels.

**BUSINESS SLANTS**  
**CAUSED BY THE WAR**

Interesting Communications Which Reach Local Firm

The different effect which the war has on different lines of business is illustrated by announcements being received by local merchants these days. In one mail a business man received communications of this nature from three Canadian firms. One announced that the war would have no effect on the prices of the goods they manufacture; another, feeling the effects of the loss of supplies which cannot be secured from Germany, announces an increase in prices; the third, dealing in articles which may be classed as luxuries and for which the demand may be lessened, offers a substantial discount off the regular prices.

In the same mail he received a letter from a British manufacturer urging the adoption of their line in place of goods made in Germany, and another from a company in the United States urging their lines as a substitute for those formerly secured from Germany.

While the Canadian business houses are pushing the lines they already handle there has not been much evidence yet that they are trying to secure new business to secure the trade which Germany has lost to British and American firms are already active in campaigns of this kind.

**MONCTON BRIDE; THE**  
**6 O'CLOCK FROM ST. JOHN**

Miss E. Madge Belyea and Wm. F. Mackin Married Today

Many friends in this city will be interested in a pretty nuptial event which took place this morning in St. Bernard's church in Moncton, when Miss Madge Belyea, now of that city, became the bride of William F. Mackin of the local post office. Rev. E. Savage performed the ceremony at 10 o'clock in the presence of a large number of friends with whom the bride and groom are very popular. Miss Belyea, who was given away by her brother, Holly Belyea, was prettily attired in white crepe de chene and satin dress with ribbon train, and wore a veil with orange blossoms. She carried a white prayer book. Her sister, Miss Marie Belyea, as bridesmaid was nicely dressed in pale blue chiffon over crepe de chene with black picture hat, and carried a shower bouquet of pink roses. Wm. A. Flaherty of St. John was the best man.

Following the wedding luncheon was served at the bride's home, after which Mr. and Mrs. Mackin left on a honeymoon trip to Boston and neighboring cities. The bride's travelling dress was of tailored grey with black velvet hat. On their return they will make their home at 48 Douglas avenue, North End.

Many handsome and useful wedding remembrances were received, including a valuable piece of furniture from some intimate friends of the groom in I. L. & B. Society. His associates in the St. John post office, by whom he is most highly esteemed, presented to him a purse well filled with gold. The bride was formerly in the employ of J. M. MacIntosh & Co., stock brokers, in this city, and both she and Mr. Mackin enjoy the best wishes of many friends for future happiness.

**THE POLICE**

George McCarthy, charged with interfering with Policeman Dykeman in the discharge of his duty, was fined \$16 by the magistrate this morning. The fine was allowed to stand. The magistrate said it never could be said truthfully of him that he was down on any one of the policemen. He said that if a policeman went beyond his authority he would fine him the same as he would a man who interfered with the police. He had several cases on these points, which were upheld by old English cases, but on appeal he found that in most cases decisions of the House of Lords in England were over-ruled in St. John.

The magistrate said that the people of St. John did not give the police the respect due them and that this attitude formed the nucleus of riots. He said that he had told the safety board ten years ago that when a policeman went out on his beat in the winter he was not half paid.

**NOT A GOOD TIME FOR**  
**GLOBE-TROTTING GAME**

Moncton, Sept. 15.—A young Monctonian, named Arthur Thibodeau, who started out to travel around the world on foot, has reached Moncton, on his way to Halifax, where he expects to sail for Haver, France, and continue on foot through European countries. Thibodeau has until May 1, 1921, to get back to Vancouver, whence he started on May 24, 1913.

In addition to working his way, Thibodeau must secure the signatures of 200,000 persons, also the signatures of 50,000 officials of places he visits.

**RUSSIA TO CANCEL GERMAN PATENTS**

London, Sept. 15.—A despatch from Paris gives the Figaro as authority for the statement that the Russian government has decided to cancel all German patents within the empire.

**DEMOCRATS**  
**CARRY MAINE**

Portland, Me., Sept. 15.—The democratic victory in Maine's state election was measured by 8,587 votes, the plurality by which Governor Chauncey C. Curtis of Portland, defeated Governor William T. Haines, Republican, for re-election, according to the unofficial returns from all but thirty-seven of the 921 cities and towns early today.

All four congressmen, three Republicans and one Democrat, were re-elected.

**IS HERE AGAIN.**

With his many friends about the city and province it would hardly be called an enjoyable summer without a visit from Joe McNamara of Boston, director of the big municipal gymnasium at Jamaica Plain. He has been coming to St. John on a vacation trip every summer for many years and on his arrival yesterday was again welcomed heartily.

**WOULD LIKE A VISIT.**

Residents in the vicinity of Fort Howe are desirous of a visit from the city dog catcher. They say that there are too many unchained dogs about the neighborhood. One night recently the locality was stirred by the continual loud barking of several dogs and it was found that four or five of them had been annoying a cow owned by one of the residents.

**VISITING RUNNER.**

A visitor to the city is Wm. McVicar of Boston, who has established quite a name for himself in athletic circles in the states, notably as a runner. He has won the one mile, five mile and ten mile championships of New England. He has been engaged as coach for the Olympic marathon runners from the United States this year. Mr. McVicar is the guest of Joseph Kiernin, of Spar Cove Road.

**The Direct**  
**Route To Sales**

When a National manufacturer advertises, he wants to sell goods. He expects to sell them over the counter of the retailer—who either buys directly from him or through the jobber.

But the manufacturer wants to centre the demand into the stores he wants to move the goods from the dealer's shelves.

When he uses the newspapers in the dealer's own town, he goes straight to the point of attack without using any highways or byways.

He creates the demand and sends customers to the dealers who have his goods.

He also gains the good will of these dealers. The latter are anxious for sales and are naturally quite ready to co-operate with the manufacturer who makes business for them.
