#### AGAIN TALK OF AN INCINERATOR PLANT FOR CITY

Commissioners Talked It Over Teday-Believed It Soon Must

wille to his nome in validotter, he will ment of an incinerator is now the only resource and the best means for the disposal of garbage. Many other cities to Canada have already furnished incinerators and it is felt that St. John is sadly in need of one, and that the necessity of it is each year becoming more evident.

At the meeting today a communication was presented from the Griscom Russell Co., of New York who have been awarded the contract of supplying Halifax with a 50 ton plant at \$55,000. It is estimated that St. John would need one larger, or at least as large. The plant would not be a continual source of expense but it is said there would probably be a fair revenue returnable. The clinkers from the working of the plant would be useful for paving purposes, and would bring a fair price while there would also be provided from it 90 horse power which would be available for manufacturing and could likely be sold at about \$27.50 a day.

No decision was arrived at today, but the matter was left with Mayor Frink to reply to the company.

Another matter which was before the

the matter was left with Mayor Frink to reply to the company.

Another matter which was before the commissioners was the providing of heating apparatus for the shelters which it is planned to erect for the 'longshoremen and workmen in the west side. The estimates for this work are in, but it is unlikely that it will be further proceeded with until the matter of the heat supply is determined

## HE IS ONLY TEN BUT HAS TRAVELED A LOT

Stewart Morgan, Now on Visit Here, Has Crossed Continent Nine Times

A very important matter was under consideration at a meeting of the board of public safety today when the question of a public incinerator was before the commissioners. It has become quite obvious that this matter will have to be attended to soon.

At present the public dumping grounds are well filled and there is little room for extension and many believe the establishment of an incinerator is now the only resource and the best means for the distinct on the continent for his tenth time.

## GAME BIRDS FOR THE LOCAL HUNTSMAN

BOY STRUCK BY TRAIN

Walking Track Near Frederictor and Curve Hid Him From Engineer's View

A six year old buy named Madorra was struck by the engine of the Frederictors train and received a bad cut in the head about ten o'clock this morning near Salamanca, a short distance for Frederictors. The train was on the way to the junction. The train was on the way to the junction. The boy was walking the track near his home when the train came suddenly upon him turning a sharp curve in the line. Because of the curve he was not seen till it was too late to prevent striking him. The train came to a stundatill and the boy was picked up. Dr. Irvin was summoned from Fredericton and dressed a deep cut in his head. He was then taken to the Fredericton fhospital. It is not know yet how serious his injuries are.

A Fredericton flospital It is not know yet how serious his injuries are.
