It is noticeable that, whilst it is stated  
that in Great Britain the Roman Catholic  
Church is increasing its hold upon the  
masses, and not only upon the masses, but  
upon people in higher circles, in Italy  
there has been a great falling off in Peter's  
Pence, which renders greater economy ne-  
cessary, and compels the Neapolitan Bish-  
ops to take the loyal *exequatur* on reven-  
ues and palaces of the diocese.

An Act has just come into force in Eng-  
land, having passed both Houses without  
discussion, providing that if a husband  
shall be convicted of an aggravated assault  
upon his wife, the Court or magistrate by  
whom he shall be so convicted may, if  
satisfied that the future safety of the wife  
is in peril, order that the wife shall be  
no longer bound to cohabit with him; and  
further, that the husband may be ordered  
to make a weekly payment, and give up  
the custody of the children, if any, to the  
wife until they are ten years of age. This  
is doubtless a measure that will be hailed  
with delight in many of the less civilized  
sections of the Mother Country, where the  
wife is literally the husband's drudge and  
slave, but it is to be hoped that the offence,  
though it is occasionally committed here,  
will never become so serious as to require  
special legislative interference in this coun-  
try though, undoubtedly the existing state  
of affairs even here is susceptible of im-  
provement.

Mr. BRASSY, M. P., recently delivered a  
lecture to the members of the Royal Col-  
onial Institute in which he said the nation  
had done something to prove the resources  
of the Empire by transporting 7,000 na-  
tives of India to the island fortresses in  
the Mediterranean, but would achieve a far  
greater thing if a force of 70,000 seamen  
of Anglo-Saxon race and language were  
enrolled as an Imperial Naval Reserve in  
the North American dependencies. Cana-  
dians have already volunteered to defend  
the British flag on land, and were they  
asked to do the same upon the sea there  
could be no doubt how spontaneous and  
how enthusiastic would be the response.

Congress adjourned Thursday morning  
at 7 o'clock. The last hours were marked  
by several most disgraceful scenes. Sev-  
eral important appropriations were only  
saved by being added as amendments to  
the Sundry Civil bill, where they did not  
belong at all—for example, the appropriation  
to pay the Halifax award.

In Greece, the insurgents are fighting for  
freedom with renewed vigor. A telegram  
from Athens says there was a battle in pro-  
gress on Friday near Canca. The Euro-  
pean Congress continues to act slowly. It  
is reported that the main question at issue  
will be the evacuation of Bulgaria by the  
Russians, and the garrisoning of the line  
of the Balkans by Ottoman troops. Eng-  
land and Austria expect this concession.  
Rumors of the probable dissolution of Par-  
liament are circulating in London.

THE SMALLEST VESSEL that ever crossed  
the ocean is now on the voyage from Bos-  
ton to Havre. She is named the "Nautilus,"  
and is 134 feet long and 64 feet wide.  
Barque "Henrietta," which arrived here  
yesterday from Newport, reports having  
spoken the dory on the 20th inst., in lat.  
43, 06 N. long. 56, 59 W. The crew—  
consisting of William and Walter Andrews—  
wished to be reported all well. The "Nau-  
tilis" was then nine days out.

VISITORS to St. Andrews can obtain agree-  
able and pleasant quarters at Kennedy's Hotel,  
one of the best houses in the Province. The  
rooms are large, well ventilated and nicely fur-  
nished, and command a view of beautiful scenery  
of the surrounding country, diversified by  
land and water, and fitted with all modern  
conveniences. The larder is always supplied  
with the best from the town and surrounding  
markets, while every thing in season may be  
found at the table, with obliging and polite  
waiters. The location is within a short dis-  
tance of the Railway and Steamboat landing  
and near the bathing place. Connected with  
the establishment, is a large livery stable. In  
a word, the house is a favorite resort for men  
of business, and visitors generally.

TO CONSUMPTIVES.—The production of a re-  
medy that "may truly be said to alter the pros-  
pects of the Consumptive as to give hope of cure  
in not a few cases, and of much prolonging life  
in by far the greater number"—the only remedy  
worthy of the name, which, if carefully and faith-  
fully used may arrest and cure the disease, and  
is pretty sure to retard it and prolong life more  
than any other known remedy, is a great desider-  
atum. Yet this desideratum is fully met in  
"Robinson's Phosphorized Emulsion of Cod Liver  
Oil with Lacto phosphate of Lime," which is uni-  
versally acknowledged, wherever introduced, to  
be the best preparation of Cod Liver Oil extant,  
and, which, if "carefully, faithfully," and persist-  
ently used, will rarely fail to produce marked  
beneficial results. Prepared only by J. H. Rob-

generally. Price \$1.00 per bottle six bottles for

THE GREAT CAUSE OF HUMAN  
MISERY.

We have recently published a new edition  
of Dr. CULVERWELL'S CELEBRATED ESSAY  
of the radical and permanent cure (without  
medicines) of Nervous Debility, Mental and Physical  
Incapacity, Impediments to Marriage, etc  
resulting from excesses.

Price, in a sealed envelope, only 6 cents,  
or two postage stamps.

The celebrated author in this admirable Essay  
clearly demonstrates, from thirty years successful  
practice, that alarming consequences may be rad-  
ically cured, without the dangerous use of inter-  
nal medicine, or the application of the knife;  
pointing out a mode of cure at once simple, cer-  
tain and effectual, by means of which every sin-  
gular, no matter what its condition may be, may  
cure himself cheaply, privately and radically.

This Lecture should be in the hands of  
every youth and man in the land.
