

# Barristers' License

### Legislative Committee of the City Council Will Take the Matter Up.

### Protest From Bar Association—Other Business at Regular Session

The meeting of the city council last evening was comparatively quiet, the principal subject being street paving. The Craigflower road question had a narrow escape from being resurrected, but the council thought better of it, and the matter was allowed to drop. After preliminaries came communications.

### His Worship the Mayor and Corporation of the City of Victoria.

Gentlemen—I understand that it is the feeling of the corporation that the appropriation by the corporation this year for the hospital should be not so much as it has been for the past year, \$5,000.

I also understand that it is alleged that the hospital has refused poor patients who have been sent by the city and the city has had to accommodate in St. Joseph's. I have heard that statement before, and I have made inquiries into the matter and have ascertained that such a representation is wholly unwarranted.

The sum of \$5,000 is little enough for the corporation to contribute to the maintenance of the Jubilee hospital, and, with all due deference, if there is any reduction in contemplation, I must respectfully enter a protest against any such treatment being meted out to this institution.

I shall be pleased to confer with your honorable body at any time with regard to this matter, and bring before you figures which will convince you that the position taken by the institution is not unreasonable.

The institution is very grateful, indeed, to the corporation for the assistance it has rendered, but I feel sure that the corporation does not intend to hamper the good work which the hospital has carried on, and is carrying on, and I wish to say that any reduction in the annual appropriation will place the hospital at a disadvantage.

I have the honor to be, gentlemen, Your obedient servant,  
H. DALLAS HELMCKEN,  
President.

Received and laid on the table, pending the consideration of the petition of J. H. Lawson, secretary of the Victoria Bar Association, who said as follows:

To His Worship the Mayor and Board of Aldermen, Victoria, B. C.:

Sir—I am requested on behalf of the Bar Association to call the attention of your board to the discrimination shown by the present tax of \$25 per annum levied upon each practicing member of the legal profession in this city.

The number of members engaged in the business of the firm so taxed.

I might also call your attention to the fact that no other professions are taxed by the municipality, and that each practitioner is now compelled to pay an annual fee of \$30 to the Law Society in order to be entitled to practice. It would appear just that the tax levied by the municipality should not exceed that collected from retail traders, namely, \$10 from each firm of barristers or solicitors, and we would further respectfully suggest that your legislative committee be instructed to urge the amendment of sub-section 21 of section 171 of the act in the direction of the following:

JAMES H. LAWSON,  
Secretary.

Laid on the table.

The Western Printing & Publishing House enclosed a dummy of a 4-page advertising circular to be distributed throughout Eastern Canada and United States, and asking for consideration. They wanted the city to undertake to distribute the publication. Referred to the finance committee for report.

Mrs. S. E. Onions asked for water connection with her property on Ida street. Referred to the water commissioner for report.

The secretary of the V. B. lodge reminded the council that the subscription of the city library to their magazine expired, and asked it be renewed. Received and will be renewed.

The city clerk reported a resolution of matters which had been referred to the city engineer during the week. Received and filed.

The tender of J. Ball for cordwood was accepted.

E. B. C. Bagshaw, of the Ottawa Fire Insurance Association, submitted rates for insurance, and asked for a six months' rebate of taxes for his company. Referred to city solicitor for report.

The city engineer informed the council that the sidewalk in the disputed Craigflower road territory was in bad condition and required repairs. He recommended that it either be repaired or taken up.

that the legislative committee be requested to ask for amendments to Municipal Clause 21 and 22, so that it will be possible for the council to deal with the regulating of the license complained of.

The standing committee on finance recommended the appropriation of \$2,691.65 for the payment of current accounts. Adopted.

The resolution recommended by the mayor, that the report of the city assessor and city engineer regarding the paving of Government street, which was reported at last Monday's meeting, be referred back to those officials, was next taken up. The resolution appeared in these columns last Saturday evening, and stood in the name of Ald. Stewart and Yates.

The mayor explained that under the plan adopted by the council, the by-law would be defeated, as some of the property owners objected to bearing part of the cost of paving and stone curbing, and the crossings at the street intersection, as well as that of removing the telephone and electric light poles.

The mayor then read the following schedules that had been prepared by the city engineer:

According to schedule 1901, the city paying one-third of cost of work.

Total cost, \$27,168.00; property share, \$9,056.00.

According to schedule of 1900 the city paying one-third of cost in front of property, together with the whole of the interest on the paving and stone curbing, and moving telephone and tramway poles: Total cost, \$27,168; property share, \$14,114; city's share, \$13,052.

According to schedule 1900 the city paying one-third of cost in front of property, together with the whole of the interest on the paving and stone curbing, and moving telephone and tramway poles: Total cost, \$27,168; property share, \$12,294; city's share, \$14,874.

This caused considerable discussion, some of the aldermen advising that the matter be referred to a committee of residents and sewers committee, and others that a conference be held with the dissenting property owners, and the question be fully discussed. Finally it was decided to refer the matter to the city engineer.

Ald. Beckwith inquired if any reply had been forwarded to the school board, and the mayor replied that a reply had been forwarded to the school board, and that the school board had advised that they would not object to the erection of a new high school. He understood from the city solicitor that a petition was necessary, and moved that the school board be advised of the result of the conference.

The Boots and Shoes Early Closing By-law was reconsidered, adopted and finally passed.

Tenders for lead were read from R. P. Rither & Co. and Evans, Goings & Evans, Vancouver, and for electrical supplies were received from Hinton & Co. and Canadian General Electrical.

The tenders for the lead were referred to purchasing agent and water commissioner for report on Wednesday.

The council then adjourned.

### ORPHANAGE MANAGEMENT.

The first meeting of the committee for the internal management of the B. C. Protestant Orphan's Home was held yesterday at the orphanage. There were present Messrs. McCulloch, Hayward, Hutcheon, Higgins, Goings, Berdige, Adams, Oates, Waring, Carter, Murgidre, H. Partridge, H. Wilson and Mrs. West Wilson.

After routine business the officers for the ensuing year were elected as follows: President, Mrs. W. F. McCulloch; vice-president, Mr. Chas. Hayward; treasurer, Mrs. W. R. Higgins; hon. secretary, Mrs. A. S. Goings. A hearty vote of thanks was accorded the retiring officers.

The visiting committee reported several improvements made during the month, and submitted bills amounting to \$150.25, which were approved.

Mrs. Foote reported not being able to attend the meetings tendered her resignation, which was received and referred to the managers.

Applications for admission of six children were received and referred to the special committee on receptions.

Messrs. Wilson and Oates were nominated the visiting committee for April.

The matron reported all the children in good health and thankfully acknowledged receipt of the following donations of food: Mrs. J. H. Todd, rhubarb plants; Mrs. J. Partridge, tin, bottles and papers; Mrs. Wm. F. McCulloch, clothing; Mrs. A. S. Goings, clothing and rubbers; Miss Carroll, 20-lb. roast of beef; A. Friend, clothing; Mrs. Nelson, Cobble Hill, 4 sacks of flour; A. Friend, cash \$1 and box of cakes; Mrs. Jackson, slates and seeds; L. C. C. Society, per Mrs. Dean, 29 pairs drawers; Natural History Society, cakes, sandwiches and oranges; Mrs. W. F. McCulloch, clothing; Mrs. A. S. Goings, tin, bottles and papers; Mrs. Wm. F. McCulloch, per L. Goodacre, large parcel bulbs.

### CANADA AT BUFFALO.

Buffalo, N. Y., April 2.—E. B. Elderkin, a member of the Dominion Cattle Breeders' Association, and A. P. Westcott, secretary of the Dominion Cattle Breeders' Association, held an extended conference with the Canadian exhibit. Mr. Elderkin assured a News representative that Canada could be counted upon to make a creditable showing at the exposition.

# They Chased Gen. Dewet

### Trooper Fraser Tells of the Duties Which Devolved Upon the Strathconas.

### Pursuing Close Upon the Wily Boer Leader They Almost Captured Him.

W. D. Fraser, a member of Strathcona's Horse, who has just returned to Victoria, has some very interesting stories of the South African war. Together with all the men of Strathcona's, he has the greatest admiration for Col. Steele. For a time they were attached to Gen. Buller's column. In the march upon Lydenburg Strathcona's were constantly kept upon the scouting line, although there were two other columns in the brigade, the Light Horse and the Mounted Infantry. Gen. Buller told Col. Steele that he could cover six miles of the Boer line, and that he was leading that column.

Entering the Crocodile valley in the advance upon Lydenburg the Boers fired upon them from the surrounding mountains at a range of six miles. The Boers were firing from a position in a donga, where they lay all day, and then fell back to their former camp near the Crocodile river. The Boers, however, fell back upon Lydenburg, where they spread the report that they had massacred three mounted regiments. The Boers, after some hard fighting, evacuated that point and then they had massacred three mounted regiments. Gen. Buller's column commenced in their pursuit of the Boers over the Devil's Knuckles and the wall of Gen. Buller's column commenced in their pursuit of the Boers over the Devil's Knuckles and the wall of Gen. Buller's column.

C. H. TOPP,  
City Engineer.

This caused considerable discussion, some of the aldermen advising that the matter be referred to a committee of residents and sewers committee, and others that a conference be held with the dissenting property owners, and the question be fully discussed. Finally it was decided to refer the matter to the city engineer.

Ald. # More Home Knitters Wanted

### To Work at Their Homes Under the Direction of The GLASGOW WOOLLEN CO.

### 37 MELINDA ST., TORONTO, To Fill Large Contracts—Good Wages Easily Earned.

Machine weighs 7 pounds. It is more economical than a sewing machine, just as durable, and higher speed.

### OUR METHOD OF DOING BUSINESS

We wish to secure the services of families to do knitting for us in their homes. Our method is the same as that used in England. We are the introducers of this plan and the largest knitting concern in Canada.

We furnish our workers all the materials, yarn, etc., free, and everything that is necessary for the work. We pay our workers all the materials, yarn, etc., free, and everything that is necessary for the work.

Our plan is to send out each machine to beginners with a book of instructions, and also a quantity of yarn, which you knit and return likewise when finished. We pay you for the work done, and also for the yarn used.

The price we pay for finished hosiery stockings is \$10.00 per hundred, or at the rate of 12c per pair; woodmen's socks, 8c, and motormen's mittens, 12c a pair. All other work in proportion to size.
