GENTLY GO GENTLY! It is satisfactory to observe that the Colorist has at last found its bearings. For a considerable time our contempor ary seemed to be in doubt whether John Houston, the esteemed head of the Conservative party of British Columbia, or Hon. Richard McBride, the weak and indeterminate head of a weak and indeterminate government, would prove vietorious in the fight for supremacy. Those who have followed the career of the Conservative organ need not be told how essential to its welfare it is that it should be on the side which is on top and has favors to bestow. Our contemporary has evidently made up its mind that Richard has John down and is going to keep him down for the time being. It has examined the hold of the upper dog and of the nether dog, and its not forgotten that the member for Nelinvestigations, comes of stock which held on with grim determination and never knew when it was beaten. We presses it, "downed the men who did him dirt." Perhaps it would be a discreet the political situation until it sees what results from the meeting of the legislature. It is all very weil for our contemporary to exult over the alleged in defying the provisions of a statute on the plea of economy in order to avoid a display of the real weakness of the government, but it should take all the facts into consideration before committing itself to a course which may necessitate. another violent, sudden and apparently inexplicable change of front. We advise the Colonist, therefore, not to exult too government in the House and of Hon. Charles Wilson in Vancouver. The Terminal City is practically the whole thing in the McBride administration, it is true, and the temptation to the peopresent advantages will be very great. great advances that have been made of late years and the grim determination to cast selfishness to the rear. Although too brilliant, the advantages of the situation did not escape them. At the same time we do not forget, and we advise the Colonist not to forget in view of possible evolutions in the future, that

of the temple on the first opportunity." A SETTLER'S GRIEVANCE.

P.P., was not allowed to touch the

The Times has been asked to call the attention of the government to a matter worthy of the most serious consideration of the most eminent statesmen. As the government is new, anxious to achieve popularity, and in a reforming mood, perhaps it will incline its ear while we enter a plea for the settler upon our wild lands. We confess we are not sanguine as to the result, because the ministers are too busy scheming to keep themselves in office to do more than promise to give their most serious consideration to any measures likely to be of benefit

to the community. There is at present a tax of twentyfive cents upon every cord of firewood try. Just give it "adequate protection" setters who take up land offer for sale. whether it is sufficient to justify our government assume to do things that will to pray. He writes: "But whether we

PITY THE POOR "PUG."

The prize fighter who is endeavoring to earn an honest living by the sweat of his brow and the strength of his good right arm or the impulse behind his left hooks, seems to be rather "up against it," as he would say himself, through the unreasonableness of the public and the fidelity of the police to their duty. We observe that in one American city two pugilists were arrested for "faking." which, we take it, means that each was not doing his utmost to reduce the other | Here lie the guns all red with rust, to a state of insensibility. We under- Wherein man once did place his trust, stand that complaints have arisen in Victoria as to the bona fides of the intentions of certain pugilists who have The awful shell, with smoke and reek, contracted to give exhibitions of the "manly art" to the satisfaction of the to contribute liberally for the privilege region of the "solar plexus." We sympathize deeply with the tribulations of the "pugs." Theirs is in indeed a perplexing business in these days of humanitarians and other cranks. If the fighters give a "scientific" exhibition their pa- | From out thy depths they co trons first shout "fake," and finally re- But, ah! their spirits shall endure, fuse to part with their money for a sight of suh tame affairs. If the contest be made realistic the police interfere and stop the "go." It is true the police of Victoria have not been known to intervene yet in any of the exhibitions with which we have been favored. That probably proves that the "pugs" have hitherto managed their interesting events with decency and circumspection-that they have not crossed the narrow line which divides scientific boxing from exhibitions which, in case the contestants were not human, would call for the incervention of the Society for the Prevention of Cruelty to Animals. But we submit that the situation is liable to become one at any time which will call for the serious consideration of the authorities. The element which depends upon in the contest would be fortified with a prize fighting for a livelihood is not one deserving of encouragement. This we may say without reflecting at all upon the exponents of the fistic art who have performed before the admirers of pugil-

ism in Victoria.
